

**CITY OF FORT LAUDERDALE
City Commission Agenda Memo
REGULAR MEETING**

#16-1213

TO: Honorable Mayor & Members of the
Fort Lauderdale City Commission

FROM: Lee R. Feldman, ICMA-CM, City Manager

DATE: November 1, 2016

TITLE: Resolution Approving the Consolidated Budget Amendment to Fiscal Year
2017 – Appropriation

Recommendation

It is recommended that the City Commission approve a resolution amending the Fiscal Year 2017 Budget and Community Investment Plan (CIP).

Background

Examples of recommended actions within the budget amendment are:

- transfer between funds;
- transfer between capital and operating budgets;
- transfer between capital projects;
- acceptance and appropriation of grant funding;
- amendment to staffing level;
- appropriation from fund balance; and
- appropriation for modified revenue and related expenditures.

Staff is recommending that the City Commission amend the FY 2017 Operating Budget, Community Investment Plan and personnel complement by approving the following transfers and appropriations:

Police

A. Transfer Between Funds – Justice Task Force Fund, Treasury Task Force Fund – Allocation of Budget to Appropriate Fund - \$79,000

A portion of the Police Department's vehicle rental expense was budgeted for in a Treasury Task Force index as a part of the FY 2017 budget that should have been in the Justice Task Force index. The budget for this expenditure must be moved to the appropriate index to ensure that it is funded through the correct restricted revenue source.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount of \$79,000 to appropriately account for the vehicle rental expense.

B. Appropriation of Fund Balance – Justice Task Force Fund – Undoing Racism/Community Organizing Training - \$20,000

The City of Fort Lauderdale Police Department has been invited to partner with the Broward County Human Relations Department and the Family and Children's Services Council of Broward County to provide "Undoing Racism/Community Organizing" training to employees. The County is starting this initiative with government agencies and community organizations that service the 33311 zip code.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount of \$20,000 for Undoing Racism/Community Organizing Training.

C. Appropriation of Fund Balance – Justice Task Force Fund – Police Technology Enhancements - \$215,000

In order to facilitate the implementation of a new policing strategy to deploy detectives and commanders to the field to further reduce Part 1 Crimes, the City of Fort Lauderdale Police Department is requesting funding for the purchase of mobile computers, related technical components and software. Mobile computers will be assigned to patrol personnel in specialized enforcement areas including but not limited to the Motorcycle Unit, Marine Unit and Mounted Unit to efficiently and accurately complete electronic incident reports in the Regional Records Management System.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount of \$215,000 for Police technology enhancements.

D. Appropriation of Fund Balance – Treasury Task Force Fund – Bomb Suit and Helmet - \$25,862

The Bomb Squad renders safe response by investigating all suspicious packages, explosive devices and/or crime scenes where an explosive device has been detonated.

To accomplish this task, the Bomb Squad must have at least one EOD 9 suit under warranty to render safe any explosive device. This suit has been engineered to provide superior protection against the threats of an explosive blast: overpressure, fragmentation, impact and heat.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount of \$25,862 for bomb suit and helmet. There is an associated CAM# 16-1267.

E. Appropriation of Grant Funds – Grant Fund – Florida Department of Transportation (FDOT) Pedestrian and Bicyclist Safety Program - \$27,324

In July 2016, the City submitted an application to FDOT in response to a solicitation for proposals from law enforcement agencies to deliver public awareness and enforcement campaigns related to pedestrian and bicyclist safety, which is a component of Florida's Bicycle/Pedestrian Focused Initiative Communication & High Visibility Enforcement Implementation Project under the direction of FDOT and the University of South Florida. The grant's enforcement activities are being implemented to remind and educate pedestrians, bicyclists, and motorists of safe behaviors. The delivery of services must begin within 30 days of contract execution and must end on or before May 15, 2017.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount of \$27,324 for the FDOT pedestrian and bicyclist safety program. There is an associated CAM# 16-1237.

Public Works

F. Transfer between Capital Projects – Water and Sewer Fund – Rehabilitation of Pump Station A-12 - \$355,800

Pump station A-12 serves a large sewer basin area. This project will completely rehabilitate sanitary sewer pump station A-12 with the removal and replacement of all existing equipment including electrical, mechanical, and ventilation. Station equipment is well past useful life and is in continual need of repairs. The rehabilitation will extend the life of the station beyond the next twenty-five years.

The winning bid on this project came in higher than budgeted. Additional funding of \$355,800 (including construction management fees) is required to award this project to the successful contractor. Funds are available in planned, lower priority projects: Victoria Park South Small Water Main Improvements and Davie Boulevard 18 inch Water Main Abandonment.

Staff recommends that the City Commission amend the FY 2017 Community Investment Plan (CIP) and Budget in the amount of \$355,800 to facilitate the Rehabilitation of Pump Station A-12. There is an associated CAM# 16-1224.

G. Transfer between Capital Projects and Operating Budget – Water and Sewer Operations and Water and Sewer Capital Projects Funds – Large Force Main System Assessment and Design for Rehabilitation and Replacement - \$1,500,000

Funding is needed to conduct an assessment of the large force main system throughout the City. The results of this assessment will be used to prioritize rehabilitation and replacement of the portions of the system with the highest likelihood of failure and funding will also be used to design replacement and rehabilitation of damaged portions of the large force main system located between Re-pump Station “A” to the George T. Lohmeyer Wastewater Treatment Plant and from Re-pump Station “B” to the George T. Lohmeyer Wastewater Treatment Plant. During construction, the most critical assets will be replaced in order to reduce the likelihood of failure in these critical portions of the system.

Funding for this project is being transferred from Victoria Park A North – Small Water Mains Project which is a lower priority. Funding for the lower priority project will be reprioritized to a later budget year as funds become available.

Staff recommends that the City Commission amend the FY 2017 Community Investment Plan (CIP) and Budget in the amount of \$1,500,000 to facilitate the large force main system assessment and to begin design for rehabilitation and replacement.

H. Transfer between Capital Projects and Operating Budget – Water and Sewer Operations and Water and Sewer Capital Projects Funds – Citywide Force Main Valve and Air Release Valve Assessment Program - \$1,450,000

Funding is needed for the design and replacement of deteriorated sanitary sewer force mains ranging in diameter from 36 inches to 54 inches. This project will replace the most deteriorated portions of the force mains that extend from repump stations A and B to George T Lohmeyer Wastewater Treatment Plant, thereby minimizing the risk of future failure in such deteriorated sections. Funding for this project is being transferred from Victoria Park Small Water Mains projects, Davie Boulevard Water Main Abandonment projects, and the Port Condo Small Water Main Improvements Project, which are considered to be a lower priority at this time.

Staff recommends that the City Commission amend the FY 2017 Community Investment Plan (CIP) and Budget in the amount of \$1,450,000 to facilitate the citywide force main valve and air release valve assessment program.

I. Transfer between Capital Projects - Special Obligation Construction 2008B Bond Fund and Special Obligation Construction 2011 Bond Fund – South Side School Restoration - \$402,000

On November 3, 2015, the City Commission awarded a contract for the South Side

School Restoration Project to DiPompeo with a total bid of \$3,114,000 including allowances, and \$103,000 for additional parking as a bid alternate (CAM #15-0885).

The restoration work includes but is not limited to, complete interior renovation of the existing school building with some exterior improvements and modifications. The exterior work consists of enclosing the existing southwest facing breezeway and stair tower, new exterior doors, new roofing over the two southwest facing exterior doors, and the addition of an Americans with Disabilities Act-compliant ramp. The site improvements include the construction of two parking lots with a total of 37 parking spaces, chiller and dumpster enclosures, sidewalks, walkways, lighting, landscaping, irrigation, and utilities work. Due to unanticipated change orders, this project requires additional funding to complete.

Staff recommends that the City Commission approve this project to be funded with Series 2011A and 2008B Bond Fund and amend the FY 2017 Community Investment Plan (CIP) and Budget in the total amount of \$402,000 to complete the restoration of South Side School. There is an associated CAM# 16-1343.

J. Appropriation of Fund Balance – Sanitation Fund – Contract Recycling Services - \$187,000

The Sustainability Division within the Public Works Department provides, through contracted services, curbside collections of recyclable materials to 37,888 customers throughout the City. The current contract is set to expire on December 7, 2016.

The Procurement Services Division issued an Invitation to Bid (ITB) 673-11834 for curbside recycling collection services to 1,092 vendors and four vendors responded. The bid from Gold Medal Services of FL, LLC has met all of the specifications of the bid and has been deemed the lowest cost, responsive and responsible bidder with an annual estimated cost of \$1,268,490.24. There is a funding deficit of approximately \$187,000 in the current 2017 fiscal year budget for these services.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount of \$187,000 to fund the recycling contract with the lowest cost, responsive, and responsible bidder.

K. Appropriation of Fund Balance – Multiple Funds – Vehicle Purchases - \$6,229,384

Staffing vacancies within the Fleet Division during FY 2016 caused significant delay with ordering the budgeted new vehicles. The funds that were budgeted for these purchases were not spent during FY 2016 and must be appropriated as part of the FY 2017 Budget to make these purchases.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount

of \$6,229,384 for vehicle purchases.

Transportation and Mobility

L. Transfer between Capital Projects - Airport Fund – Downtown Helistop Improvements - \$785,248

The Downtown Helistop (Helistop) indicated signs of rust and corrosion that were affecting the use of the stairs as well as other items that required addressing. The Airport's engineering consultant firm, HDR Engineering, Inc., completed the design and the project is scheduled to be awarded to MBR Construction, Inc. of Fort Lauderdale. In order to complete the project, \$785,248 in additional funds is required. Funds are available in the Fuhrer Helistop W Staircase Replacement Project and the East Perimeter Loop Road Project.

Staff recommends that the City Commission amend the FY 2017 Community Investment Plan (CIP) in the amount of \$785,248 for Downtown Helistop Improvements.

M. Addition of 1 Full Time Position to the City's Personnel Complement – Grant Fund– Downtown Mobility Hub Grant– No Fiscal Impact

A Project Manager II position will be recruited to manage the project implementation of the Downtown Mobility Hub (planning, design, engineering, utility coordination, property owner coordination and outreach, construction, project acceptance, and grant close out) including leading utility coordination efforts with the project. This position will report to the Mobility Manager within the Transportation Division and is expected to be a 3-year term-limited position funded solely from the grant account, including the City's required match.

N. Addition of 1 Full Time Position to the City's Personnel Complement – Grant Fund – Transit Oriented Development (TOD) Planning Grant Position – No Fiscal Impact

A Planner III position will be recruited to manage the project implementation of the TOD Planning Grant effort. This includes leading all project activities through the completion of the project (communications, outreach, procurement, contract management, consultant oversight, stakeholder engagement, technical reviews, administration, meeting coordination, presentations, reporting, etc.). This position will report to the Mobility Manager within the Transportation Division and is expected to be a 2-year term-limited position funded solely from the grant account, including the City's required match.

O. Transfer to Capital Project and Amendment of future years of the Community Investment Plan – General Capital Fund- Riverland Road Complete Streets Improvements Project – \$95,322 plus future years CIP revision

On April 19, 2016, the Commission approved a resolution in support of co-sponsoring the Metropolitan Planning Organization (MPO) Tiger Grant application (CAM 16-0512) and agreeing to the City's local contribution for the project. The Broward MPO will be the award recipient and administrator of the grant. The City's contribution is included in the Riverland Road Complete Streets Improvement Project in the FY 2017- FY 2021 Adopted Community Investment Plan with a planned \$850,000 appropriation in FY 2020. The City recently received correspondence from the Broward MPO that requested that the City's contribution be made earlier than planned (\$95,322 on April 1, 2017 for design and \$754,678 on July 1, 2018 for construction).

In order to accommodate the MPO request, staff recommends that the City Commission amend the FY 2017- FY 2021 Community Investment Plan and Budget by adjusting the appropriate accounts in FY 2017 of \$95,322 and future years with the total project amount remaining at \$850,000 for the Riverland Road Complete Streets Improvement Project. The revised Community Investment Plan project application is included as Exhibit 2.

Sustainable Development Department

P. Appropriation of Fund Balance – Building Permits Fund – Digitization Scanning Services - \$1,100,000

The Building Division has developed a backlog of hard copy files which need to be digitized to permanently store and efficiently retrieve plans, permits, and other associated documents. In order to insure compatibility across the City the Department of Sustainable Development is creating a master blanket purchase order that can be used by other departments within the City.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount of \$1,100,000, for Digitization Scanning Services.

Community Redevelopment Agency (CRA)

Q. Transfer Between Funds – Community Redevelopment Agency Fund – Reallocation of CRA Incentive Program Funds to new Fund - \$12,390,000

The Community Redevelopment Agency (CRA) is reallocating the incentive program funds from the CRA's operating fund to a new fund specifically dedicated to handling the CRA's incentive programs. The creation of a new fund will improve the CRA's ability to monitor and manage CRA funds related to its incentive programs.

Staff recommends that the City Commission amend the FY 2017 Budget in the amount of \$12,390,000 to reallocate CRA incentive program funds. This item is contingent upon CRA Board approval.

**R. Transfer between Capital Projects – Central Beach Redevelopment CRA CIP –
Las Olas Boulevard Corridor Improvement Project - \$26,373,498.22**

The purpose of this budget transfer is to move sufficient Beach CRA funds into the Las Olas Boulevard Corridor Improvement Project for the Beach CRA portion of the project. The budget transfer of \$26,293,816.79 along with other CIP allocations is estimated to provide sufficient funding for the Beach CRA's estimated project cost of \$32 Million. The transfer of funding from existing projects avoids the need and expense of financing to award this project.

Staff recommends that the City Commission amend the FY 2017 Community Investment Plan (CIP) in the amount of \$26,373,498.22 for the Las Olas Boulevard Corridor Improvement Project. There is an associated CRA Board CAM #16-0912.

Resource Impact

The fiscal impacts to the various funds are outlined in the tables below. The letters on the following page correspond to the descriptions in the background section of the document.

Police

A. Transfer Between Funds – Justice Task Force Fund, Treasury Task Force Fund – Allocation of Budget to Appropriate Fund - \$79,000
