Recommendation

It is recommended that the City Commission approve the purchase of proprietary annual support and maintenance of police records and field reporting from SunGard Public Sector Inc. (SunGard) in the amount of \$164,475.90.

Background

On November 19, 2013, the City Commission approved the proprietary purchase of computer software, hardware, and services for the migration to a consolidated dispatch and management system (CAM 13-1513). Part of this purchase included an agreement for the SunGard Open Software Solutions Incorporated (OSSSI) field reporting and police records software system and ongoing support of that system, which has been renewed. This request is for approval of the purchase of annual maintenance and support of the OSSSI system.

Pursuant to Section 2-189, Code of Ordinances of the City of Fort Lauderdale, Florida, the City may purchase proprietary items, as defined in Section 2-173, without the necessity of public bids. As defined by the Code, a proprietary item is not readily available from more than one supplier, manufacturer, or person and is unique in nature. This OSSSI support provides twenty-four hour telephone, electronic, and on-site technical support which can only be provided from SunGard.
