Rezoning Narrative

City of Fort Lauderdale ULDR Section 47-24.4.D.

1. The zoning district proposed is consistent with the city's comprehensive plan.

RESPONSE: The Property is split between two (2) zoning districts: Northwest Regional Activity Center – Mixed Use East (“NWRAC-MUe”) and RMM-25. The Property is designated Northwest Regional Activity Center (“NWRAC”) under the City’s comprehensive plan. The NWRAC land use category was created to permit a wide variety of retail, residential, and office uses, among others. The proposed development consists of residential uses and retail uses, and the Property is surrounded by residential and retail uses. Rezoning the Property to NWRAC-MUe would be consistent with the City’s comprehensive plan and the underlying NWRAC land use category.

2. The changes anticipated by the proposed rezoning will not adversely impact the character of development in or near the area under consideration.

RESPONSE: The character of development in or near the area supports the rezoning. Specifically, the area is characterized by a diverse mixture of uses such as retail, service, and residential uses, including retail uses to the east, south, and west, single family residential uses to the north, and multifamily residential uses to the east. The parcels immediately west of the parcels to be rezoned are zoned B-3, further supporting the rezoning. If approved, the use of this land will be consistent with the pattern of commercial and residential development along the Sistrunk Boulevard corridor. The Project will also satisfy the need for mixed-use developments that are necessary to balance the increase in residents coming to Fort Lauderdale with the need to lessen the transportation impacts of such residents.

3. The character of the area proposed is suitable for the uses permitted in the proposed zoning district and is compatible with surrounding districts and uses.

RESPONSE: The rezoning of the property to NWRAC-MUe is compatible given the mixture of land uses surrounding the Property. The area is characterized by a

variety of commercial uses to the west, south, and east, and multi-family uses to the east. The parcel to be rezoned is surrounded by the following zoning districts:

North – RMM-25

South – NWRAC-MUe

West – NWRAC-MUe and B-3

East – MWRAC-MUe

The proposed rezoning to NWRAC-MUe would permit the development site to be unified under the NWRAC-MUe zoning district and developed in accordance with the standards required under the City's ULDR. Additionally, the existing use of the Property is entirely non-residential. The rezoning to NWRAC-MUe is compatible with the surrounding districts and uses as well as the current use of the Property.
