### Land Sales Location Map

**Conclusion**

All the sales consisted of vacant residential multi-family sites. As can be seen on the comparable sales chart displayed above, the sales indicate an adjusted range of \$6.67 to \$10.00 per square foot, with an average of \$8.14 per square foot. The best available sales have been used and all of the comparables have been considered in the valuation process. All the comparables used are considered good indicators of value. Considering the indications from the comparables and current market conditions, it is our opinion that the Market Value of the Fee Simple Estate of the Subject Property as of the appraisal date is best represented by a range of \$8.00 to \$8.50 per square foot. This is calculated as follows:

10,355	Square Feet	x	\$8.00	Per Sq. Ft.	=	\$82,840
			to			
10,355	Square Feet	x	\$8.50	Per Sq. Ft.	=	\$88,018
<b>Say</b>						<b>\$85,000</b>

**CERTIFICATION**

We certify that, to the best of our knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are our personal, impartial, and unbiased professional analyses, opinions, and conclusions.
3. We have no present or prospective interest in the property that is the subject of this report, and we have no personal interest with respect to the parties involved.
4. We have provided appraisal services to the property that is the subject of this report in the past three years (September 2016).
5. We have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
6. Our engagement in this assignment was not contingent upon developing or reporting predetermined results.
7. Our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
8. The analyses, opinions, and conclusion were developed, and this report was prepared, in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP) and The Interagency Appraisal and Evaluation Guidelines, December 10, 2010.
9. Matthew A. Graham made a personal inspection of the property that is the subject of this report.
10. No one provided significant real property appraisal assistance to the persons signing this certification.
11. The use of this report is subject to the requirements of the State of Florida relating to review by the Florida Real Estate Appraisal Board.
12. This appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

13. The reported analyses, opinions and conclusions were developed, and this report was prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.
14. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
15. As of the date of this report, Stephen D. Shaw, MAI, has completed the continuing education program of the Appraisal Institute.

**LIMITING CONDITIONS**

1. Unless otherwise stated, the value appearing in this appraisal represents the opinion of the Market Value or the Value Defined AS OF THE DATE SPECIFIED. Market Value of real estate is affected by national and local economic conditions and consequently will vary with future changes in such conditions.
2. The value estimated in this appraisal report is gross, without consideration given to any encumbrance, restriction or question of title, unless specifically defined.
3. This appraisal report covers only the property described and any values or rates utilized are not to be construed as applicable to any other property, however similar the properties might be.
4. It is assumed that the title to the premises is good; that the legal description is correct; that the improvements are entirely and correctly located on the property described and that there are no encroachments on this property, but no investigation or survey has been made.
5. This appraisal expresses our opinion, and employment to make this appraisal was in no way contingent upon the reporting of predetermined value or conclusion.
6. No responsibility is assumed for matters legal in nature, nor is any opinion of title rendered. In the performance of our investigation and analysis leading to the conclusions reached herein, the statements of others were relied on. No liability is assumed for the correctness of these statements.
7. Neither all nor any part of the contents of this report (especially any conclusions, the identity of the appraiser or the firm with which he is connected, or any reference to *The Appraisal Institute* or any of its designations) shall be disseminated to the public through advertising media, public relations media, news media, sales media or any other public means of communication without our prior written consent and approval.
8. It is assumed that there are no hidden or unapparent conditions of the property, subsoil, or structures which would render it more or less valuable. The appraiser assumes no responsibility for such conditions or the engineering which might be required to discover these factors.

9. Unless otherwise stated in this report, the existence of hazardous substances, including without limitation stachybotrys chartarum (mold), asbestos, polychlorinated biphenyls, petroleum leakage, "Chinese drywall", or agricultural chemicals, which may or may not be present on the property, or other environmental conditions, was not called to the attention of, nor did the appraiser become aware of such during the appraiser's inspection. The appraiser has no knowledge of the existence of such materials on or in the property unless otherwise stated. The appraiser, however, is not qualified to test for such substances or conditions. If the presence of such substances, such as asbestos, urea formaldehyde foam insulation, or other hazardous substances or environmental conditions, may affect the value of the property, the value estimated is predicated on the assumption that there is no such proximity thereto that would cause a loss in value. We are unaware of very wet conditions that may have existed for days or weeks which are required to grow mold. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them.
10. The Americans with Disabilities Act ("ADA") became effective January 26, 1992. The appraisers have not made a specific compliance survey and analysis of this property to determine whether or not it is in conformity with the various detailed requirements of the ADA. It is possible that a compliance survey of the property, together with a detailed analysis of the requirements of the ADA, could reveal that the property is not in compliance with one or more of the requirements of the Act. If so, this fact could have a negative effect upon the value of the property. Since the appraisers have no direct evidence relating to this issue, possible noncompliance with the requirements of ADA in estimating the value of the property has not been considered.
11. Our opinion of value was based on the assumption of competent marketing and management regarding the Subject Property. If there is no competent marketing and management, then the value contained herein may not apply.

Definition of Market Value Used

"As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- a. Buyer and seller are typically motivated;
- b. Both parties are well informed or well advised, and acting in what they consider their own best interests;
- c. A reasonable time is allowed for exposure in the open market;
- d. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- e. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale."
