Hello Diane,

The City of Tamarac plans on submitting the attached project for consideration during this year's MPO CSLIP application cycle. A small segment of the project (bike path, sidewalk and curb and gutter) is located within the City of Fort Lauderdale's municipal boundaries. Specifically, that portion of the project about one block from NW 31 Avenue east on Prospect Road (see first attachment showing Tamarac's City Limits in white). Consistent with the MPO's CSLIP policies and evaluation criteria, the City will require a resolution of support from your agency in order to continue the bike and sidewalk network to NW 31st Avenue. We have already reached out to the Broward County for same, considering that much of the proposed project is within the County's right of way.

The scope includes new bike path, side walk and curb and gutter to be installed on Prospect Road between NW 31st Avenue and W Commercial Boulevard. The distance of the portion of the project in Fort Lauderdale is approximately 205 ft. and runs the width of the property on the SE corner of NW 31st Avenue and W Prospect Road. The City's intent is to finish the bike path, side walk and curb and gutter to NW 31st Avenue and not stop abruptly at our City Limits which is just one property (east) of NW 31st Avenue.

As mentioned above, we will require a Resolution of Support from the City of Fort Lauderdale for inclusion in our formal application packet. We are hoping to get this done well in advance of the fall CSLIP Application cycle. Your assistance in supporting this project and scheduling the item for an upcoming City of Fort Lauderdale Commission meeting is much appreciated. Thanks in advance.

Maxine
