Recommendation

It is recommended that the City Commission approve a contract, in substantially the form attached, for the Fort Lauderdale Executive Airport (FXE) Airfield Electrical Vault Improvements Project with American Infrastructure Services, Inc. in the amount of \$1,063,648.

Background

The FXE electrical vault was completed in 1984 and houses the Airport's airfield electrical systems as well as the emergency generator. The scope of this project is to construct a 900 square foot building expansion with interior and exterior lighting, new heating, ventilation and air conditioning system, replacement of the existing constant current regulators, and modifications to the airfield lighting computer controlled monitoring system in the electrical vault and air traffic control tower. The design was completed by HDR Engineering, Inc., the Airport's consulting engineer.

On April 18, 2018, the Procurement Services Division issued Invitation to Bid Number 12125-683. Three bids were received on June 7, 2018 and all bids were reviewed for compliance with the solicitation specifications. The bid submitted by American Infrastructure Services, Inc. was reviewed for compliance with the specifications of the bid, and has been deemed the lowest cost, responsive, and responsible bidder recommended for award.

There will be a fiscal impact to the City in the amount of \$1,063,648 for the contract award and \$139,500 for estimated in-house and consultant project management fees for a total of \$1,203,148.
