Subject: Layne Inliner, LLC Name Change to Granite Inliner, LLC

Dear Ms. Pemsel:

On June 14, 2018 it was announced that the Layne Christensen Company, in its entirety, has been acquired by Granite Construction Incorporated, one of North America's largest infrastructure and construction materials providers. Conversely, Layne is a leading water management, infrastructure services, and drilling company that includes Layne Inliner, the second largest CIPP provider in the United States. We are sending this letter today to let you know that we filed a name change amendment with the Florida Secretary of State changing our name to Granite Inliner, LLC (see attached – note: our federal tax ID number did not change). Together with Layne's family of companies, Granite will be a leader in water infrastructure and wastewater rehabilitation and be well positioned to offer a full menu of trenchless rehabilitation services to both public and private sectors while continuing to provide the high-quality services and products you have come to expect from Layne. You can read the full press release and learn more about Granite by visiting its website at www.graniteconstruction.com.

Based in Watsonville, California, Granite Construction Incorporated (NYSE: GVA) specializes in complex infrastructure projects, including transportation, industrial and federal contracting, and is a proven leader in alternative procurement project delivery. Granite is an award-winning firm in safety, quality and environmental stewardship, and has been honored as one of the World's Most Ethical Companies by Ethisphere Institute for nine consecutive years. Granite has also been recently certified as a great workplace by the independent analysts at Great Place to Work®.

We are confident that the merger of Layne and Granite is great news for our valued customers. This combination will ultimately allow us to serve as the ideal partner to you as we tap into new growth areas by expanding our capabilities and enhancing our service offerings. Through this combination, we will be positioned to provide a full lifecycle portfolio to better meet the needs of all our customers. As importantly, Granite and Layne share long histories of industry leadership and core values of ethics, safety, sustainability, operational excellence and client satisfaction.

If you have any questions, please don't hesitate to reach out to John Rinehart or myself. As always, we greatly appreciate your support and look forward to continuing to serve you.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michael Cannon".

Michael Cannon, P.E.
District Manager
