

## Infrastructure Task Force (ITF) Status Report

#### October 10, 2018

## ITF Where We've Been

- Established in March 2017
- Review and advise on the current state of, and needs for, the City's public infrastructure
- Hosted 17 public meetings
- Conducted four District open houses to seek Neighbor input
  - Received positive input from Neighbors on local infrastructure investment
- Provided the City Commission with four interim recommendations:
  - 1. <u>Water/sewer</u> eliminate/phase-out Return on Investment (ROI) transfer
  - <u>Stormwater</u> revise rate methodology ("trip-based") and commence Master Plan Phase II projects for seven (7) highest priority neighborhoods
  - 3. Roads/sidewalks/seawalls establish minimum General Fund revenue sources for the City's CIP
  - 4. Impact fees analyze and update City infrastructure fees regularly to capture growth

### ITF Where We Are

 Based upon various master planning studies and reports, the City faces the potential for *\$3 billion of infrastructure needs over the next 20 years*:

| Infrastructure Item:                          | 20-year Need (Plan): | Plan Date: | <u>20-year Need<sup>1</sup> (2018 \$'s)</u> | Currently Approved Source:                       |
|---|----------------------|------------|---|--|
| Water/Sewer <sup>2,3</sup>                    | \$1,419,800,000      | 2016       | \$1,455,400,000                             | Rate payer (CIP and \$200M bond)                 |
| Stormwater <sup>4</sup>                       | \$982,900,000        | 2018       | \$982,900,000                               | Rate payer (CIP)                                 |
| New Facilities (City Hall and Police HQ)      | \$300,000,000        | 2018       | \$300,000,000                               |  |
| Existing Facilities (including Fire Stations) | -                    | -          | -   |  |
| Parks   | \$150,000,000        | 2016       | \$150,000,000                               | Park impact fees (partial)                       |
| Roads   | \$50,300,000         | 2018       | \$50,300,000                                | Gas tax (\$820,000 annually) and general capital |
| Bridges                                       | \$35,100,000         | 2014       | \$36,500,000                                | General capital                                  |
| Public Seawalls                               | \$26,100,000         | 2018       | \$26,100,000                                | General capital and stormwater rate payer (CIP)  |
| Sidewalks                                     | \$16,400,000         | 2014       | \$12,500,000                                | General capital (via risk fund)                  |
| TOTALS-                                       | \$2,980,600,000      |            | \$3,013,700,000                             |  |

#### Other Master Plans<sup>5</sup>:

- Airport
- Mobility/Complete Streets/Walkability
- Information Technology
- Parking
- Neighborhood Projects
- Canals

COMMUN

RUID

<sup>1</sup> Inflated costs from planning year (CII) and updated completed/planned projects, as available

i cosis from planning year (cii) and updated completed/planned projecis,

 $^{\rm 2}$  Analysis underway by Hazen & Sawyer may identify additional water/sewer needs

<sup>3</sup> The existing rate structure including 5% annual increases (by current Ordinance) projects to cover all/majority of the first ten years of water/sewer needs

<sup>4</sup> A stormwater rate structure revision is underway; increased revenue will be required to cover an initial \$200 million bond and beyond

<sup>5</sup> The totals above do not include all infrastructure components of expected 20-year needs

#### Estimated TOTAL > \$3 Billion

# ITF Where Are We Going?

- The City Commission will have multiple options to fund the identified needs, including:
  - <u>Increase water/sewer rates</u> rate study underway (FY 2019 consideration)
  - <u>Increase stormwater rates</u> rate study underway (FY 2019 consideration)
  - <u>Increase millage rate</u> each mill equates to \$35.0 million
    - Currently the City has the *fourth lowest* millage rate of all Broward County municipalities, and
    - The *third lowest* millage rate of the 25 largest municipalities in Florida
  - <u>Bonding</u> revenue or general obligation
  - <u>Special assessments</u>
  - Public-private partnerships
  - <u>Grants</u> federal and state
  - <u>Loans</u> state revolving fund

#### Other non-City revenues to track:

- Federal/state/county (within their agencies jurisdiction to City benefit)
- Broward County penny sales tax
- Broward County traffic mitigation funds

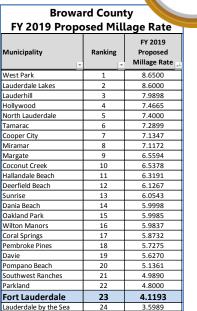

4

### ITF Millage Rate Opportunity

- Adopted millage rate FY 2019 = <u>4.1193</u>
- Value of 1 mill = <u>\$35,017,145</u>
- FY 2019 revenue = <u>\$144,246,125</u>
- Millage rate is <u>35% less than</u> median of *25 largest FL cities*
- Millage rate is <u>31% less than</u> median of *Broward County cities*
- "What-if" scenarios:
  - \$100 million bond = 0.1547 mill (3.8% increase)
    - Assumed \$100 million, 3.5%, 30 years
  - Increase to median of 25 largest FL Cities:
    - 2.1825 millage rate increase (6.3018 total) generates additional annual revenue of **\$76.4 million**
  - Increase to median of Broward County cities:
    - 1.8805 millage rate increase (5.9998) generates additional annual revenue of **\$65.8 million**

| 25 Largest Cities in Florida |                 |                                       |            |              |  |  |  |  |

#### ITF Utility Rates Opportunity

- <u>Water/sewer rates</u> rate study underway (FY 2019 consideration)
- <u>Stormwater rates</u>: rate study underway (FY 2019 consideration) with hybrid-model which includes "tripbased" approach

*ITF Summary: there appears to be an opportunity to increase the millage and/or utility rates for local infrastructure investment while remaining competitive in the region.*

Notes:

Monthly water and sewer bills exclude drought rates or other surcharges and utility taxes.

Source: Stantec Consulting Services Inc prepared in September 2017. Fort Lauderdale FY 2018 rates shown, other municipalities may also adjust rates in FY 2018.

COMMUN

#### **ITF Next Steps**

- What are the Commission's expectations for the ITF moving forward?
  - Monthly meetings are tentatively scheduled through March 2020
  - Input for future focus:
    - Critical infrastructure components
    - Critical revenue opportunities
    - Potential threats (sea level rise, economy, regulatory, other)
- Recommended next Commission/ITF joint workshop in April 2019
- Discussion
