

REVISED

MEMORANDUM MF NO. 19-06

DATE: February 25, 2019

TO: Marine Advisory Board Members

FROM: Andrew Cuba, Manager of Marine Facilities

RE: March 7, 2019 MAB Meeting – Application for Dock Permit – James D. Wilson / 333 Poinciana Drive

APPLICATION AND BACKGROUND INFORMATION

The applicant is seeking approval for use, maintenance and repair of a proposed 30' long x 8' wide L- shaped dock extending a maximum of 25' from the property line into the Las Olas Bight and accessed via a 5' wide pier dock on public property abutting the waterway in proximity to 333 Poinciana Drive. City Code Section 8-144 authorizes the construction and use of docks on public property, and allows for the permit to be issued for a fixed period provided the permit holder agrees to maintain the improvements and seawall. The application indicates that the existing seawall would be repaired and raised to the new required height.

PROPERTY LOCATION AND ZONING

The property is located within the Idlewyld Isles RS-8 Residential Low Density Zoning District. The proposed L-shaped dock would be located on the Las Olas Bight, directly adjacent to the Intracoastal Waterway.

ENGINEERING REVIEW REQUIREMENT

As a requirement of City Code Section 8-144, approval of the application is contingent upon all improvements to the property being maintained in accord with City Engineering standards and in full compliance with building and zoning regulations including construction permits required for any future electrical and water feeds to the property.

The granting of this Permit is subject to all of the provisions of City Code Section 8-144 as well as the following terms and conditions, violation of any of which shall be grounds for revocation of the Permit:

1. The fixed period of the Permit issued for use of the L-shaped Dock and Adjacent Seawall described in the application is for a period of five (5) years in accordance with City Code Section 8-144 (1). The Permit is revocable at the will of the City Commission, without cause with 90 days advance notice.
2. As a special condition, the City reserves the right to remove the proposed dock structures for replacement of the seawall in the event that this might be required during the term of the Permit as determined by the City Engineer. The sole cost of removal and replacement of the Dock shall be the responsibility of the Permit Holder. Furthermore, the Permit Holder shall be responsible for maintaining and beautifying a reasonable area in and around the dock location and failure to do so shall be grounds for revocation of this Permit.

3. As a special condition of the Permit, the Permit Holder is prohibited from erecting any signs, landscaping or fencing to restrict public access to the Dock Area except where permitted by Code. The "Dock Area" shall include the dock and adjoining seawall.
4. The public property abutting the waterway or Dock Area being used by the Permit Holder shall be kept open at all times as means of reasonable ingress and egress to the public, but Permit Holder shall have the right to exclude the public from a reasonable portion upon which improvements have been placed, not exceeding fifty (50%) percent of the area.
5. All improvements to the Dock Area must be in accord with City Engineering design standards and in compliance with applicable building and zoning permit requirements.
6. The Permit granted herein shall not be assignable without the written approval by Resolution adopted by the City Commission.
7. Permit Holder shall not charge or collect any rent or fees from anyone using such dock constructed on public property. No signage shall be placed upon such dock indicating it is a private dock.
8. As a special condition, vessels berthed within the Dock Area are prohibited from extending beyond the maximum distance of 30% of the width of the waterway.
9. As a special condition, vessels berthed within the Dock Area must not encroach into the easterly or westerly extension of the 5' set-back required for the RS-8 zoning district for Applicant's (Permit Holder's) Property, unless as specified in applicant's narrative a set-back waiver is granted via the City's Board of Adjustment.
10. As a special condition of the permit, in the event Permit Holder is found by the City Commission to have violated any of the above conditions or is found by the Code Enforcement Board, Special Magistrate or County Court Judge to have violated any Code sections relative to the use of the Dock Area, Dock and Mooring Piles, then the Permit granted herein may be repealed or rescinded by the City Commission upon thirty days' advance notice to the Permit Holder.
11. Use of the dock is limited to the docking of a vessel owned by the Permit Holder with a copy of the documentation showing the name and registration number of all vessels provided by the Applicant to the Supervisor of Marine Facilities.
12. The Permit Holder is prohibited from mooring any watercraft or vessel in such a manner that it is "rafted out" from any additional vessel owned or operated by the Applicant.

Re: 333 Poinciana Dr. (the "Property") Dock permit request

Dear Board Members:

This application requests a permit to install one (1) – approximately 25' L-shaped dock with an access pier directly in front of the 333 Poinciana Dr. Property to be used by the owner – James Wilson. This replaces the dilapidated existing dock with essentially the same footprint while relocating the access pier from the center to the end. The existing dock is in dire need of repair and is unsafe to use. The proposed dock will be constructed in accordance with applicable code and permitting guidelines. The proposed dock will be for dockage of vessels specific to the permit holder and will not be for rental. The existing seawall will be repaired and the new seawall cap will be constructed at the new required height recently adopted by the City of Fort Lauderdale. The proposed dock will be maintained in accordance with City Guidelines.

This dock permit is requested pursuant to Section 8-144 which permits a private property owner to request a permit to construct and maintain a dock on public property abutting a waterway. The proposed location is not used for municipal purposes and is directly across from the applicant's Property.

ULDR Section Sec. 47-19.3.c provides the following:

No boat slips, docks, boat davits, hoists, and similar mooring structures not including mooring or dolphin piles or a seawall, may be constructed by any owner of any lot unless a principal building exists on such lot and such lot abuts a waterway. Mooring structures, not including mooring or dolphin piles, shall not extend into the waterway more than twenty-five (25) percent of the width of the waterway or twenty-five (25) feet whichever is less as measured from the property line.

Please feel free to contact me with questions or comments.

Sincerely,

A handwritten signature in blue ink, appearing to read "Courtney Callahan Crush", is written over a light blue rectangular background.
