Exhibit 2
Page 1 of 8

Art in public spaces plays a distinguishing role in our country's history and culture. It reflects and reveals our society, enhances meaning in our civic spaces, and adds uniqueness to our communities. Public art humanizes the built environment. It provides an intersection between past, present, and future between disciplines and ideas. Public art matters because our communities gain cultural, social, and economic value through public art.

In this document we will explore how public art impacts five community values: Economic Growth and Sustainability, Attachment and Cultural Identity, Artists as Contributors, Social Cohesion and Cultural Understanding, and Public Health and Belonging. Each section includes a summary, reasoning statement, supporting data, and examples. This document is designed as a tool for those making the case for public art in their community. We encourage the distribution of this document and the information provided to anyone interested in this topic or in need of an educational tool.

"Why Public Art Matters (2018)" reflects on the previous green paper of the same title released in the late 2000's. The current document was developed in collaboration with the 2018 Public Art Network Advisory Council who Americans for the Arts thanks for their dedication to strengthening the public art field.

ECONOMIC GROWTH AND SUSTAINABILITY

By engaging in public art as a tool for growth and sustainability, communities can thrive economically.

Karl Unnasch's sculpture "Ruminant (The Grand Masticator)." Installed in Reedsburg, WI as part of the Farm/Art DTour public art roadside tour, 2015.
Photo credit: Aaron Dysart.

REASONING:

Enhancing the identity and character of communities through public art directly supports cultural tourism and economic development strategies, which can both retain and attract residents. In addition, incorporating public art into private development can be a way for buildings to stand out as developers and managers look for renters—whether businesses or residents. The attention public art can bring to a development project can be calculated. A healthy public art ecosystem also drives the growth of new businesses.

EXAMPLES:

- Reston Town Center in Reston, Virginia has a less than one-half of one percent (0.5 percent) office vacancy rate in a region where the average office vacancy is 16-18 percent. Real estate broker Joe Ritchey attributes the low vacancy rate in part to the permanent and temporary public arts located in the Center. (Public Art Spurs Economic Development).
- Indianapolis, Indiana has seen the growth of two new manufacturing businesses that have either branched out or sprung up anew to handle the demand for the fabrication of public art and employing people in the process.
- The [Farm/Art DTour](#) in Sauk County, Wisconsin generated tourism in the area with an estimated 4,200 visitors—over 65% of whom traveled over 50 miles to see the installations which helped to increase the revenue of many local businesses; some of whom saw revenue increases as much as 300%.
- In Nashville, projects over \$150,000 are estimated to distribute two-thirds to three-quarters of the budget back into the local economy via fabricators, installers, art handlers, electricians, landscape architects, concrete companies, and other locally-based businesses.
- Public art projects have boosted cultural tourism, including an influx estimate of \$1 billion from Christo's and Jeanne-Claude's the "Gates" in New York's Central Park and the Bay Area Lights on the San Francisco-Oakland Bay Bridge—with an informal economic impact assessment conservatively estimated at \$97 million dollars added to the local economy.

DATA:

70 percent of Americans believe that the "arts improve the image and identity" of their community.*

Half of people with college degrees (**49 percent**) and a majority of Millennials (**52 percent**) and Generation Xs (**54 percent**) say they would strongly consider whether a community is rich in the arts when deciding where to locate for a job.**

[Arts, culture, and creativity can improve a community's competitive edge, attract new and visiting populations, and integrate the visions of both community and business leaders.](#)

ATTACHMENT AND CULTURAL IDENTITY

Public art directly influences how people see and connect with a place, providing access to aesthetics that support its identity and making residents feel appreciated and valued. Public art encourages attachment to a location for residents through cultural and historical understanding, and by highlighting what is unique about the places where people live, work, and play.

"Ballroom Luminoso" by Joe O'Connell and Blessing Hancock in San Antonio, TX. Commissioned by Public Art San Antonio, 2013. Photo credit: Fred Gonzales.

REASONING:

When people see themselves reflected in their civic spaces they have a sense of attachment that allows them to feel ownership and respect. Attachment to a location, whether it be a neighborhood, town, or city is key to retention of residents and commuters alike. Public art makes places unique through the reflection of local history and culture which gives communities a sense of place and identity.

EXAMPLES:

- In San Antonio, Texas "[Ballroom Luminoso](#)" transformed a highway underpass into a community-friendly space that helped unify and strengthen the identity of the nearby neighborhoods.
- In "[Charting Pogues Run](#)," by Sean Derry, a temporary project in Indianapolis mapped the invisible path of a local water system and indicated how the development of the city continues to change over time.
- In York, Alabama "[Open House](#)" by Matthew Mazzotta addressed the lack of public gathering spaces by providing a physical location as common ground for community dialogue and activities.

DATA:

Aesthetics is one of the **top three characteristics** of [why residents attach themselves to a community](#).

70 percent of Americans say they experience the arts in a "non-arts" venue such as a park, hospital, shopping mall, or airport.*

70 percent of Americans believe that the "arts improve the image and identity" of their community.*

ARTISTS AS CONTRIBUTORS

Providing a public art ecosystem supports artists and other creatives by validating them as important contributors to the community.

REASONING:

A public art ecosystem resonates with artists and other creatives as a visual reminder that they are embraced by a community. Artists bring innovation and problem-solving wherever they go, which strengthens America's competitiveness in the global marketplace, and plays an important role in building and sustaining a vibrant economy. Artists provide valuable contributions when they are included in the planning of public spaces and amenities with planners, engineers, designers, elected officials, and community stakeholders. Artists bring their creative skills and interpretations to each idea, site, social construct, and aesthetic potential. These conversations generate creativity in others inspiring an inventive result. Artists become civic leaders advocating through art for alternative perspectives that can challenge assumptions, beliefs, and community values.

EXAMPLES:

- When Indianapolis developed their 2017 Riverside Park Master Plan, an artist's contributions to the planning team worked out so well that the parks and recreations department hired another artist to be on the planning team for the Broad Ripple Park Master Plan in 2018.
- In Madison, Wisconsin [The Blubber @ Madison Public Library](#) provides the community with access to artists and art in the forms of programming, exhibitions, and more—this provides a space for learning and reflection. For example, their teen programs develop art and aim to provide “relationship building, basic skill development, and connection to the community.”
- “[Everyday Poems for City Sidewalk](#)” re-imagines Saint Paul's annual sidewalk maintenance program as an ongoing publishing entity for a city-sized book of poetry. Created by one artist, it allows for the self-expression of many local artists as it addresses beautification of infrastructure.
- In [Boston's Artist-in-Residence \(AIR\)](#) program, artists, community members, and city employees work on projects that help reframe social conversations. These artists explore the ways they can use art and media to improve and bolster city initiatives. They also search for ways to make artistic social practice a part of government and community work.

DATA: 100% of public art is made by artists and other creatives.

SOCIAL COHESION AND CULTURAL UNDERSTANDING

Public art provides a visual mechanism for understanding other cultures and perspectives, reinforcing social connectivity with others.

REASONING:

Public art supports communities by providing social cohesion and encouraging civic engagement. Public art activates the imagination through visual art and storytelling to emphasize the shared humanity of civic spaces—allowing the individual to better understand strangers and neighbors alike. Public art aids communities in visualizing different perspectives through civic icons and infrastructure projects such as train stations, traffic circles, hospitals, water treatment facilities, and airports. By reinforcing the culture of a community, public art acts as a catalyst for unity and social engagement.

DATA:

72 percent of Americans believe “the arts unify our communities regardless of age, race, and ethnicity.”*

69 percent of the population believe the arts “lift me up beyond everyday experiences.”*

73 percent of Americans agree that the arts “helps me understand other cultures better.”*

EXAMPLES:

- In Philadelphia, artists Shira Walinsky and Laura Deutch utilized the 47 bus as a mobile gallery to showcase places that are important to members of diverse communities who live and work along the route. Quotations revealed what interviewees love and value about the city.
- In New York City, the project “Key to the City” provided everyday citizens a key to unlock 20 public art sites across the city’s five boroughs. Participants could access cemeteries, community gardens, and police stations while initiating conversations about belonging.
- Located in a rapidly gentrifying neighborhood in Seattle’s Central Area Union, serves as a gateway marker to a historically African-American community whom are becoming increasingly displaced. The artwork was designed at the request of community members who expressed an interest in both landmark and gathering areas.

PUBLIC HEALTH AND BELONGING

Public art addresses public health and personal illness by reducing stress, providing a sense of belonging, and addressing stigmas towards those with mental health issues.

REASONING:

Strong social cohesion creates a positive environment, which in turn supports both physical health and mental well-being of the community. By both engaging in public artwork development and facing artwork in the environment, individuals become aware of others and their role in their community. Public artworks can address negative stigma issues towards another culture or group by providing another perspective when considering peoples of different backgrounds. Additionally, located in healing spaces such as hospitals, public art improves healthcare and the healing process by providing an aesthetically interesting place for providers to work in and for patients to heal.

EXAMPLES:

- Mural Arts Philadelphia researched the impact of public art on mental health with their Porch Light project where they found “a promising and sustained relative decrease in stigma toward individuals with mental illness, and a relative decrease in stress.”
- Mikyoung Kim's Ripple Garden at Miami Jackson Hospital in Miami, Florida was designed as an opportunity for fresh air, light exercise, therapeutic gardening, and offering covered seating to accommodate patients whose medications are adversely affected by sunlight.
- San Francisco Hospitals have a plethora of exterior and interior works of public art which provide several benefits from creating healthy environments to connecting with the community in which the hospital is situated.

DATA:

Public art can function as a powerful catalyst for improved mental and physical health.

Public art has been shown to have clear public health impacts including decreased stress, eliciting awe, developing shared identity, reinforcing self-efficacy, and promoting positive health behaviors.

Art located in hospitals offer major opportunities in the delivery of better health and improved experiences for patients, service users, and staff alike.

Public art is also noted as slowing pedestrians down to enjoy their space and providing a positive impact on mood.
