 - a. Comply with the regulations and requirements of the South Florida Water Management District (SFWMD), Broward County Code of Ordinances, Chapter 27, and Broward County Ordinance 2017-16, as applicable, related to surface water management design criteria for antecedent conditions.
 - b. Install pollutant retardant structures to pre-treat all stormwater runoff at each of the new project outfall structures in accordance with the master drainage plan, and periodically remove pollutant or solid accumulations.
 - c. Use silt screens and aprons or other best management practices during any phase of project construction to prevent an increase of turbidity in adjacent surface waters.
 - d. Mulch, spray, or grass exposed areas to prevent soil erosion and minimize air pollution and storm water runoff.
- 4. Design, construct, and maintain any additions, expansions, or replacements to the on-site irrigation system to minimize salt-water intrusion and excessive irrigation in accordance with SFWMD guidelines. When practicable, use recycled water for landscape irrigation and other water conserving techniques to reduce the demand on the region's potable water supply; including the installation of rain sensors or irrigation timers, and compliance with City of Fort Lauderdale and Broward County Code restrictions on irrigation timing.
- 5. Incorporate the use of water sensors, ultra-low volume water use plumbing fixtures, self-closing and/or metered water faucets, and other water conserving devices/methods to reduce the demand on the region's potable water supply. These devices and methods shall meet the criteria outlined in the water conservation plan of the public water supply permit issued to the City of Fort Lauderdale by the SFWMD.

7. Utilize, to the best of its ability, economic development enhancement resource agencies and programs to involve small and disadvantaged businesses in the development and expansion of permanent job opportunities. The Developer is specifically encouraged to concentrate on efforts to assist the economically disadvantaged by adopting a plan of action. The economic disparity action plan may be accomplished by utilizing programs designated for enterprise zones as well as other economic and employment opportunity programs. The Developer should provide goals and policies defining steps and procedures that affirmatively address social and economic disparity. The Developer is further encouraged to work with community development corporations and other community-based agencies to promote its plan and achieve its obligations.
8. Incorporate energy conservation measures and green building design into the design and operation of the project with a goal of acquiring LEED “Gold” certification for both building construction and operations.
9. All excavation, dredging and filling on site shall be subject to all provisions of the City of Fort Lauderdale land development regulations. All other excavation operations undertaken by developers on such lands, which are not incidental to construction work, shall be governed by applicable City of Fort Lauderdale and Broward County Ordinances. Assure that any fill material utilized at the site, whether from onsite excavation activities or from offsite sources, meets the clean soils criteria of the Department of Environmental Protection.
10. Notify state archeological officials at the Division of Historical Resources of the Florida Department of State of construction schedules. Delay construction up to three months in any area where potentially significant historical or archeological artifacts are uncovered, and permit state and local historical preservation officials to survey and excavate the site.
11. Limit primary project vehicle access points for demolition and construction vehicles associated with the physical construction of the Project to Port Everglades roadway network south of the Property. 14. Substantially complete construction of the Port Everglades By-Pass Road as generally described on the attached Exhibit "C" ("By-Pass Road") prior to the issuance of a final certificate of occupancy for the hotel use. Once completed, the By-Pass Road will provide vehicular access to the public between Eisenhower Boulevard and SE 24th Street.

Within 30 days of the effective date of the development order, record notice of the adoption of the development order pursuant to Section 380, Florida Statutes specifying that the development order runs with the land and is binding on the Applicant, its successors, and assigns, jointly or severally.

B. THE CITY OF FORT LAUDERDALE SHALL:

1. Review project landscape plans to ensure that only those plant species identified in Chapter 39, Article VIII, Broward County Code of Ordinances and applicable portions of the City of Fort Lauderdale codes are used for project landscaping.
2. Monitor site development to ensure that exotic plant species are removed.
3. In the event the Applicant, its successors, or assigns violates any of the conditions of the Development Order or otherwise fails to act in substantial compliance with the Development Order (hereinafter "violator"), stay the effectiveness of the Development Order as to the tract, or portion of the tract, in which the violative activity or conduct has occurred and withhold further permits, approvals, and services for development in said tract, or portion of the tract, upon passage of any appropriate resolution by the local governments of jurisdiction, adopted in accordance with this section, finding that such violation has occurred. The violator will be given written notice by the local government of jurisdiction that states: 1) the nature of the purported violation, and 2) that unless the violation is cured within 15

days of said notice, the local government of jurisdiction will hold a public hearing to consider the matter within 30 days of the date of said notice.

If the violation is not curable in 15 days, the violator's diligent good faith efforts to cure the violation within that period will obviate the need to hold a public hearing and the Development Order will remain in effect unless the violator does not diligently pursue the curative action to completion within a reasonable time, in which event the local government of jurisdiction will give 15 days' notice to the violator of its intention to stay the effectiveness of the Development Order and withhold further permits, approvals, and services as to the tract, or portion of the tract, in which the violation has occurred and until the violation is cured. For purposes of this paragraph, the word "tract" shall be defined to mean any area of development identified within the Project

4. The City of Fort Lauderdale hereby designates the Director of the Department of Sustainable Development, or his/her designee, or such other person designated by the City Manager as the local official responsible for monitoring all conditions of this Development Order ("Development Order Administrator").

SECTION 5. Vested Rights and Buildout Date.

June 10, 2028 is the buildout date for the Project and is the date until which the City of Fort Lauderdale agrees that the Project shall not be subject to down-zoning, unit density reduction, or intensity reduction, unless the City can demonstrate that substantial changes made by the Applicant in the facts or circumstances underlying the approval of this Development Order have occurred, or that this Development Order was based on substantially inaccurate information provided by the Applicant, or that the change is clearly essential to public health, safety, or welfare.

SECTION 6. Approval of Revisions to the Development Order.

Any revisions from the maximum levels of development intensity described herein shall be subject to approval by the City of Fort Lauderdale. Any proposed revisions that do not increase PM peak hour traffic or substantially change the development program (Section 3(E)) shall be subject to the approval of the City's Development Order Administrator. Any revisions that would increase PM Peak hour traffic impacts shall be subject to approval by the City Commission. Any such deviations shall only be effective after a document evidencing approval has been recorded with the Broward County Clerk of Court and such approval shall run with the property and shall be considered an amendment to this Development Order.

SECTION 7. Recordation.

Applicant shall, within thirty (30) days of the effective date of this Development Order, record this Development Order with the Clerk, Broward County Circuit Court, pursuant to Section 380.06 (4) (c), Florida Statutes, specifying that this Development Order runs with the land and is binding on the Applicant, its grantees, lessees, successors, or assigns.

SECTION 8. Binding Effect.

This Development Order shall be binding upon the City and the Applicant, its successors, assigns or both, and shall be a covenant running with the subject land. The terms and conditions of this Development Order shall control over all previous Development Orders. All property that was the subject of previous Development Orders but is not included within Exhibit "B" (Revised DRI Parcel) is released from any obligations of this or any previous DRI Development Orders.

SECTION 9. Severability.

If any section, part of a section, paragraph, sentence, clause, phrase or word of this Development Order is for any reason held or declared to be unconstitutional, inoperative, or void, such holdings of invalidity shall not affect the remaining portions of this Development Order and it shall be construed to have been the legislative intent to pass this Development Order without such unconstitutional, invalid or inoperative part herein, and the remainder of this Development Order after the exclusion of such part or parts shall be deemed to be held valid as if such part or parts had not been included therein, or if this Development Order or any of the provisions thereof shall be held inapplicable to any person, group of persons, property, kind of property, circumstances or set of circumstances, such holdings shall not affect the applicability thereof to any other person, property or circumstances.

SECTION 10. Conflicts.

That all ordinances or parts of ordinances in conflict herewith, are hereby repealed to the extent of such conflict.

SECTION 11. Effective Date.

The effective date of this Development Order shall be upon adoption by the City Commission; provided, however, that if this Development Order is appealed, this Development Order will take effect on the date after all appeals have been withdrawn or finally resolved pursuant to Section 380, Florida Statutes.
