4.2.2 Executive Summary

South Florida Lighting Team, LLC, with DBA Miami Christmas Lights (MCL) was founded in 2008 to bring fresh innovative designs and better décor management to the holiday industry in South Florida. MCL's complete décor management service, coupled with our world-class design team has fueled MCL's growth, doubling almost every year since inception. Having serviced thousands of municipal and commercial properties around the state over the years, we are excited to begin our 12th season. We look forward to working with the City of Fort Lauderdale to help them develope world-class décor and provide superior holiday decor service.

Our team is no stranger to large projects including several municipalities, event venues, resorts and casinos among other commercial properties throughout the State of Florida. As the current contractor for many municipality holiday décor programs, MCL has unique experience to successfully execute this RFP. Our customers consist of a diverse portfolio that demands the best and each require unique holiday décor, project management and support.

MCL specializes in creating world-class designs and executing the ideas developed. Having a highly skilled team of designers, has enabled MCL to produce spectacular results with projects that rely heavily on new design concepts. Once new design ideas are completed the team creates 2D and 3D renderings to be submitted to the client for approval. MCL leads the competition by integrating new and innovative technologies into our displays; boasting the superior design talent and the utilization of new technologies. After client approval of the new designs, MCL's fabrication team will bring the vision to life in our state-or-the-art production facilities. Our professional installers will construct and install the display, then continually service it throughout the season ensuring it is in pristine condition. After the season is over, MCL removes the décor, fully refurbishing and preparing for next season. Complete décor management from MCL makes the holidays as easy as possible with minimal involvement from our clients.

Miami Christmas Lights Office Location:

1167 NW 159th Dr Unit A

Miami Gardens, FL 33169

MCL has the management team in place to ensure successful holiday projects. Kurt Stange, the company President, works endlessly with the senior management team to ensure all parts of the project are coordinated. With an Operations Account Manager (OAM) assigned to each project, MCL has the detailed approach to guarantee success. Our field crew is highly trained and directed by on site field managers to install MCL's specific products. Each day after installation, the OAM inspects the installations to guarantee perfection. When the project is complete, MCLs senior management team examines the display ensuring a completed and working display. Once the project is live, the OAM works closely with our round the clock maintenance team, checking the display to monitor performance. By allocating a single OAM to each project, MCL can guarantee the project's success.

Key Personnel

Kurt Stange - President

Carlos Socorro - Operations Manager

Edwin Santa - Director of Design and Fabrication

Rashad Delancy - Operations Account Manager

All above referenced staff work out of MCL's corporate office at that Miami Gardens location

Key Elements of the Proposal

Provide required information:

Company Background

General Company Information - ie, location, facilities, equipment and experience, licensing and insurance.

Identification of key personnel and staff who will run the City of Ft Lauderdale-Sistrunk Holiday Décor Project.

Identify the company experience and qualifications, including descriptions of similar projects in scope and size.

Understanding and identifying the City's scope of work, identifying the products and services MCL is to provide and how MCL is going to provide it. The creation of new décor designs and renderings of the designs at the City's required locations.

Installation, maintenance and removal Costs

CAM 19-0972 Exhibit 3 Page 4 of 105

4.2.3 Experience and Qualification

MCL was founded in 2008 to bring imaginative and innovative designs and superior décor management to the holiday industry in South Florida. Having serviced thousands of municipal and commercial properties around the state over the years, we are excited to begin our 12th season of installing and looking forward to developing world-class décor and providing superior holiday decor services to our clients! MCL has the experience and capabilities to provide the holiday decor scope of work requirements as stated in the RFP for the City of Fort Lauderdale CRA in the Sistrunk area.

Below are some details of past and present projects for agencies of similar size and scope, including information on MCL's ability to meet time and budget requirements:

Town of Surfside

Project Description and Scope:

The Town of Surfside has been a client of MCL's for the past 5 years, awarding MCL 2 competitively bid contracts. Their project is unique in the fact that they have over 150 trees that are illuminated in a 2 block radius. To add additional complications to the project, their contractor is only able to install and remove the lights in the evening hours due to the intense pedestrian traffic in the area.

MCL rose to the occasion by micro organizing the installation, calculating the time for each tree and the number of staff to execute the project flawlessly. Our original projections included a 3 day installation period, but do to the success of our Operations Account Manager, proactive planning and proprietary installation management software were able to complete the installation in just one and a half shifts, 50% faster than expected. Reducing the installation time, saved the city additional monies in shutting down the street with police as well as inconvenience to the Town.

The Town's display created widespread buzz and many municipalities have referenced it in their own RFPs as well as called MCL directly due to the success of the project. The lights have a 98.7% illumination rate without any additional required maintenance. MCL was able to exceed their expectations by completing the installation and removal in 50% of the projected time period as well as keep their budget to the agreed amount.

Gulfstream Park

Project Description and Scope:

Gulfstream Racetrack and Casino is considered the most prolific of all racetrack/casino properties in South Florida. It boasts a unique combination of residential properties, retail venues and gaming entertainment. Gulfstream wanted to drive new business to their property after a massive expansion, and reached out to MCL to design a custom display. Included in the freshly designed holiday display, MCL designed a 50' holiday tree complete with gorgeous décor and RGB lighting. RGB lights have 3 chips in each lamp, enabling them to change up to 500 different colors, and change the tempo of lights at will. By integrating a computer with proper programming, music can be coordinated with the lights to produce a spectacular light show.

To coordinate the hundreds of data lines throughout the tree properly, and synchronizing the software on the computer to the tree required a full time staff with the know-how and experience to accomplish such a complicated and difficult task. Gulfstream's project was so successful that the City of Hallandale Beach awarded them the 1st place for holiday lights. With each year, Miami Christmas Lights continues to add elements to their project, ensuring it has an exciting fresh look! Providing the 50' RGB holiday tree with syncing musical programs and lighting shows is a challenging task to

CAM 19-0972 Exhibit 3 Page 5 of 105 create, produce and maintain. MCL was able to bring the project in on time for Gulfstream Park and in budget for the past several years.

Hard Rock Hotel & Casino

Project Description and Scope:

The Hard Rock Hotel & Casino is the flagship property of a large stable of casinos owned and operated by the Seminole Native American Tribe. The casino is in the top 5 revenue producers in the world; producing larger revenue than the top casinos in Las Vegas, Connecticut, and Macau, China. Creating a holiday display for this venue was an immense challenge. The goal of the property was to:

Bring in additional business, creating a fabulous holiday feeling of spirit throughout the property

Through the sheer imagination, hard work and dedication of the MCL Design Team, MCL was able to create unique and iconic holiday displays, and beautifully themed holiday trees. The project was awarded late in the season, and the window for manufacturing custom made décor was extremely tight, but, MCL personnel persevered and were able to produce all the display décor for all the venues and have it installed in time for the casino's timetable of events. The décor was placed in key high traffic areas throughout the hotel public areas and casino venues. The visitors just loved the displays; they mobbed the creations and took thousands of pictures with friends and family.

There were very few maintenance issues throughout the season, and at our post season evaluation with the client, MCL received glowing reviews. Again, MCL was able to create, fabricate, install and maintain Hard Rock Hotel & Casino's all within their proscribed budget, and within their narrow time-table on time.

City of Sunny Isles

Project Description and Scope:

The City of Sunny Isle beach holds an annual holiday lighting event to kick off the holiday season for their residents and tourists. In 2013, they decided to change the location of the event to their newly renovated Heritage Park. The City had come to the realization that as their event and community grew, their internal staff no longer had the knowledge, time and expertise to support the event. The decision was made to turn over the responsibility of the design, installation and maintenance of the holiday lights to a professional company.

Miami Christmas Lights jumped at the opportunity to work with such a prestigious city and wonderful staff on this project. The City allowed our team to design several options for the park and together selected a beautiful display that was within their budget. Miami Christmas Lights custom-made a starry skyline to suspend across their front stage where the event was to be held, as well as a 30 foot tall light tree installed on the roof of a pavilion. Our designers also included wrapping all the Madjool palms with injection molded LED lights to give the park a holiday radiance the entire community could enjoy.

After the design was completed, our installation team jumped into action and installed the entire project in five hours one afternoon. Our staff returned to test the lights the day of the lighting ceremony and provided a lighting technician during the festivities just in case something went wrong. Our corporate culture is built on customer service and we will do whatever it takes to ensure our clients have a pleasurable experience, even if it means working nights and weekends. In 2016 MCL custom designed a fabulous Sand Castle display, and added it to the existing display to the delight of all

CAM 19-0972 Exhibit 3 Page 6 of 105 visitors to the park.

Miami Christmas Lights has completed all projects for the City of Sunny Isle Beach at or below the budgeted amount and always before the deadline.

Commitment to Conservation

Miami Christmas Lights prides itself on sustainability and has many practices dedicated towards conservation. From the recycling of paper in our offices, to the minimization of waste and the recycling of any material in constructing our projects where possible. When our design team is contemplating a new project, they always design new décor with the idea of using biodegradable material where possible, and always build a product that is long-lasting. MCL was also the first holiday decor service company to convert all of its lighting to LED, reducing energy consumption by 90%. Our world is shared and MCL strives to be a leader in conservation to provide generations of sustainable living.

Business Structure

South Florida Lighting Team, LLC DBA Miami Christmas Lights was incorporated on 10-30-2008 and is registered as a legal entity in the State of Florida.

Miami Christmas Lights Company Address

1167 NW 159th Dr Unit A

Miami Gardens, FL 33169

Contact Person: Kurt Stange

Contact Number: 305-908-8000 Ext. 500

Fax Number: 305-908-8000

Email Address: <u>kurt@miamichristmaslights.com</u>

Web Address: <u>www.miamichristmaslights.com</u>

Miami Christmas Lights, including management, technical and support staff, runs with approximately 25 in personnel during the off-season. MCL can run with up to 100 employees during the height of the season.

Miami Christmas Lights does not require any licensing.

Miami Christmas Lights has had the pleasure of servicing the Sistrunk property for the past 3 holiday season. During which time, MCL has gained an intimate understanding of the area, its residents, the designated locations for decor and best installation methods. This unique knowledge is critical to providing the best service to the Sistrunk area while

CAM 19-0972 Exhibit 3 Page 7 of 105 minimizing the impact of traffic and community experience. No other vendor has the same intimate knowledge or created the foolproof installation plan and methods.

Based on this knowledge, MCL knows the exact equipment, installation time and locations to execute the project with minimal impact on the community. Once the project is installed, MCL has proprietary information on the exact amount of maintenance needed and most importantly, when to preform that maintenance. This experience is invaluable to ensuring a smooth, successful holiday project.

CAM 19-0972 Exhibit 3 Page 8 of 105

4.2.4 Approach to Scope of Work

MCL understands that the City of Ft. Lauderdale and Sistrunk area are a culturally diverse, historic community. The Sistrunk area is most certainly a community on the rise with new construction projects and new businesses moving into the area. MCL believes the City of Ft. Lauderdale CRA wants to demonstrate that the Sistrunk area is an exciting, fun, safe and progressive community to live and work. MCL also understands the City's desire to enhance Sistrunk Blvd and create an environment that will attract visitors, and grow the local economy

The MCL team is no stranger to large holiday display projects including several municipalities, event venues, resorts, casino and hotel facilities. As the current vendor for many municipality holiday décor programs, MCL has unique experience to successfully implement the scope of work as prescribed in this RFP. Working closely with City staff, MCL will create a detailed installation plan and schedule, review power options onsite and identify any adjustments that are needed or support from the City. When the installation date occurs, MCL will have sufficient management on site to ensure the installation is done efficiently and correctly. We believe advanced planning proactively solves all problems and invents heavily in this activity. Each account is assigned to the Operations Account Manager (OAM) that is operationally (Installation, maintenance, and removal) responsible for the complete project. By allocating one person to focus on this project, the OAM will become intimately familiar with all aspects of the project and property to ensure a successful display. MCL's operations team, led by the Operations Manager and supported by the OAM is comprised of over 200 members during peak season and operates 24 hours a day, 7 days a week. MCL owns all their equipment to ensure full access whenever needed.

MCL's vision for the Sistrunk neighborhood is to provide world class decor to draw visitors to the area as well as support the local community. Through beautiful designs and professionally created decor, MCL has been able to create displays that are viral on Social Media. One such project is Olas, the sand/snowman at Las Olas and A1A. The display has been filmed on TV written about in newspapers and magazines, as well as scattered all over social media. If truly has become a tradition of the City's and bring people to the site each year for photos. MCL will create a similar holiday attraction for the Sistrunk community and bring people from all over to enjoy the display and learn more about the Sistrunk community.

Design plan, diagrams and renderings of the projects are included at the end of this document.

Scheduling Methodology

MCL is extremely sensitive to timelines as time is what is needed to ensure a successful project. Below is an outline of the proposed timeline for the Sistrunk project:

- 1. Day 1 Review and confirm timeline of project
- 2. Day 1 Begin fabrication of project
- 3. Day 26 Complete installation plan
- 4. Day 70 75 Installation of all lights
- 5. Day 90 Complete fabrication of display
- 6. Day 90 97 Installation of all decor/displays
- 7. Day 117 Testing of display with City
- 8. Day 121 Lights on date
- 9. 12.6.19 1.7.20 Maintaining display
- 10. 1.8.20 1.10.20 Removal of display

CAM 19-0972 Exhibit 3 Page 9 of 105 NOTE: MCL understand and is able to complete the entire project within 120 days of Notice to Proceed by City.

MCL has technical teams as well as numerous trucks, lift trucks and other equipment. Our plan will include doing all scheduled installs during the overnight hours to minimize impact on traffic on Sistrunk Ave. The installation will be overseen by our President, Kurt Stange, Director of Design and Fabricaton, Edwin Santa, supervised in the field by the Operations Account Manager, Rashad Delancy, and managed by Operations Manager, Carlos Socorro. As the installation is progressing, the MCL team will be in communication with personnel from the City to make sure all work is completed with minimal interference with the daily traffic of the area. Once the installation is completed, our maintenance team will check the display to ensure everything is working properly.

Maintenance

Most importantly, MCL is extremely pro-active in its maintenance program. Well prepared maintenance crews will visit the City of Ft Lauderdale CRA/Sistrunk holiday décor project frequently which will ensure continuity of the display. In most cases, our staff will discover issues and correct them before the client's discovery, but in the event, something should go awry, MCL has one of the fastest response times in the industry.

The most efficient method of reporting an issue to MCL would be via email: service@miamichristmaslights.com. Our tech supervisors monitor these emails persistently to create a quick and timely response to our clients' needs

Our 15,000 square foot, climate-controlled office; warehouse and fabrication facility is easily capable of successfully executing all aspects of this project. MCL has a fleet of various vehicles, bucket trucks and various equipment ensuring the right tool for the job. Our staff of over 200 during the season operates around the clock, 7 days a week allowing MCL to install décor at the most optimal times. Based on client needs, MCL has developed an operational expertise in large, multi-location displays and built internal structure to execute these complex displays seamlessly.

MCL operates numerous trucks, equipment and installation teams during the holiday season out of our 15,000 square foot warehouse office facility in Miami Gardens. The close proximity to the Sistrunk area is key for quick maintenance responses and efficient installation. Over the years, MCL has built proprietary installation management software and converted our entire operations to a paperless, digital environment. This allows management to have access to real-time data to understand project flows and proactively solve issues before they arise. This proprietary software has enabled MCL to have a 98.7% live rating for our displays. MCL has also invested in product development having several patented projects like our Laborless Lights. This system reduces installation errors, maintenance and improves consistency. This is a product that has become so popular with other installation companies that MCL has begun selling this item.

Our current workload represents 68% of our maximum capacity based on the current equipment and staffing. Adding the Sistrunk project workload to our current book of business will increase our workload approximately 7%. This will bring our 2019 workload up to 75% ensuring MCL has the resources to successfully execute the project. MCL operates on a first come first serve basis. When our resources reach a maximum of 100% accounted for, MCL no longer takes on new accounts, with their sole focus on executing the accounts contracted and keeping our service promises.

NON-COLLUSION STATEMENT:

By signing this offer, the vendor/contractor certifies that this offer is made independently and free from collusion. Vendor shall disclose below any City of Fort Lauderdale, FL officer or employee, or any relative of any such officer or employee who is an officer or director of, or has a material interest in, the vendor's business, who is in a position to influence this procurement.

Any City of Fort Lauderdale, FL officer or employee who has any input into the writing of specifications or requirements, solicitation of offers, decision to award, evaluation of offers, or any other activity pertinent to this procurement is presumed, for purposes hereof, to be in a position to influence this procurement.

For purposes hereof, a person has a material interest if they directly or indirectly own more than 5 percent of the total assets or capital stock of any business entity, or if they otherwise stand to personally gain if the contract is awarded to this yendor.

In accordance with City of Fort Lauderdale, FL Policy and Standards Manual, 6.10.8.3,

- 3.3. City employees may not contract with the City through any corporation or business entity in which they or their immediate family members hold a controlling financial interest (e.g. ownership of five (5) percent or more)
- 3.4. Immediate family members (spouse, parents and children) are also prohibited from contracting with the City subject to the same general rules.

Failure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City Procurement Code.

NAME RELATIONSHIPS

In the event the vendor does not indicate any names, the City shall interpret this to mean that the vendor has indicated that no such relationships exist.

CAM 19-0972 Exhibit 3 Page 21 of 105

CONTRACTOR'S CERTIFICATE OF COMPLIANCE WITH NON-DISCRIMINATION PROVISIONS OF THE CONTRACT

The completed and signed form should be returned with the Contractor's submittal. If not provided with submittal, the Contractor must submit within three business days of City's request. Contractor may be deemed non-responsive for failure to fully comply within stated timeframes.

Pursuant to City Ordinance Sec. 2-187(c), bidders must certify compliance with the Non-Discrimination provision of the ordinance.

The Contractor shall not, in any of his/her/its activities, including employment, discriminate against any individual on the basis of race, color, national origin, religion, creed, sex, disability, sexual orientation, gender, gender identity, gender expression, or marital status.

- 1. The Contractor certifies and represents that he/she/it will comply with Section 2-187, Code of Ordinances of the City of Fort Lauderdale, Florida, as amended by Ordinance C-18-33 (collectively, "Section2-187").
- 2. The failure of the Contractor to comply with Section 2-187 shall be deemed to be a material breach of this Agreement, entitling the City to pursue any remedy stated below or any remedy provided under applicable law.
- 3. The City may terminate this Agreement if the Contractor fails to comply with Section 2-187.
- 4. The City may retain all monies due or to become due until the Contractor complies with Section 2-187.
- 5. The Contractor may be subject to debarment or suspension proceedings. Such proceedings will be consistent with the procedures in section 2-183 of the Code of Ordinances of the City of Fort Lauderdale, Florida.

CONTRACT PAYMENT METHOD BY P-CARD

THIS FORM MUST BY SUBMITTED WITH YOUR RESPONSE\

The City of Fort Lauderdale has implemented a Procurement Card (P-Card) program which changes how payments are remitted to its vendors. The City has transitioned from traditional paper checks to payment by credit card via MasterCard or Visa. This allows you as a vendor of the City of Fort Lauderdale to receive your payment fast and safely. No more waiting for checks to be printed and mailed.

Payments will be made utilizing the City's P-Card (MasterCard or Visa). Accordingly, firms must presently have the ability to accept credit card payment or take whatever steps necessary to implement acceptance of a credit card before the commencement of a contract.

Please indicate which credit card payment you	prefer:
x Master Card	
Visa Card
