This ordinance shall be known and may be cited as the Stormwater Management Program (SMP) Ordinance of the City of Fort Lauderdale.
- (b) The city is hereby authorized to impose a stormwater management program assessment to fund the planning, construction, operation, maintenance, and administration of a public stormwater management system upon benefited parcels at a rate of assessment based on the special benefit accruing to such parcel from the provision of a stormwater management system. All stormwater management program assessments shall be imposed in conformity with the procedures set forth in this Chapter 28.

SECTION 2. That Section 28-192 “Findings of fact and statement of purpose”, of the Code of Ordinances of the City of Fort Lauderdale, Florida, is amended to read as follows:

Sec. 28-192. - Findings of fact and statement of purpose.

- (a) The city operates and maintains a system of storm and surface water management facilities, including but not limited to inlets, conduits, manholes, channels, ditches, drainage easements, retention and detention basins, infiltration facilities and other components as well as natural waterways.
- (b) Those elements of the city storm and surface water management system that provides for the collection, storage, treatment and conveyance of stormwater are of benefit and provide services to all property within the city.
- (c) The cost of operating and maintaining the stormwater management system and the financing of existing and future repairs, replacements, improvements, and extensions thereof should, to the extent practicable, be allocated in relationship to the benefits enjoyed and services received therefrom.
- (d) Due to the age of the existing infrastructure, rehabilitation and replacement of some portions may be required.

- (e) Water quality is degraded because of erosion and the discharge of nutrients, metals, oil, grease and other substances into and through the stormwater system.
- (f) Public health, safety and welfare are adversely affected by poor water quality and flooding resulting from inadequate stormwater management practices.
- (g) Real property either uses or benefits from the presence and operation of the stormwater management system.
- (h) Florida local governments have authority to establish a stormwater management program and levy a stormwater management program assessment pursuant to the home rule powers provided in the Article VIII, Section 2(b), Florida Constitution and F.S. Chs. 166 and 403, through which the city commission has all powers of local self-government to perform municipal functions and to render municipal services in a manner not inconsistent with law, and such power may be exercised by the enactment of city ordinances.

(n) Local natural resource features such as wetlands, lakes and groundwater supplies can be protected and enhanced as part of the stormwater management program.

(o) A significant portion of the City's stormwater capital investments and operational activities is concentrated in managing stormwater, ocean and tidal forces effects on the roadway network.

(p) Trip generation rates provide a clear and defensible mechanism by which the City can assess stormwater fees in proportion to the benefit received by use of the roadway network.

(q) The Florida legislature, through the adoption of F.S. § 403.0893, specifically authorizes local governments to create stormwater management system benefit areas and the assessment of all property owners within said area a per acreage fee to fund the planning, construction, operation, maintenance, and administration of a public stormwater management system for the benefited area.

The subject matter of paragraphs (a), (b), (c) and (d) of F.S. § 166.021(3) are not relevant to the imposition of assessments related to the stormwater management program of the city.

(E) In lieu of foreclosure, any delinquent Assessment and the costs, fees and expenses attributable thereto, may be collected pursuant to the Uniform Assessment Collection Act; provided however, that (1) notice is provided to the owner in the manner required by law and this Ordinance, and (2) any existing lien of record on the affected parcel for the delinquent Assessment is supplanted by the lien resulting from certification of the Assessment Roll to the Tax Collector.

SECTION 22. PROCEDURAL IRREGULARITIES. Any irregularity in the proceedings in connection with the levy of any Assessment under the provisions of this Ordinance shall not affect the validity of the same after the approval thereof, and any Assessment as finally approved shall be competent and sufficient evidence that such Assessment was duly levied, that the Assessment was duly made and adopted, and that all other proceedings adequate to such Assessment were

duly had, taken and performed as required by this Ordinance; and no variance from the directions hereunder shall be held material unless it be clearly shown that the party objecting was materially injured thereby.
