- Proposed Trees
- Existing Trees
- Pole Lighting
- Picnic Tables
- Benches
- Bike Rack
- Trash & Recycle Bins
- Earth Berm

Transparent panels
Physical: the see-through panel adds the possibility to watch and contact friends on ground level when up high.
Cognitive: the see through-effect adds a feeling of thrill when used up high.

Climb-through hole
Physical: the hole allows for climbing and crawling through, developing cross-coordination, proprioception and spatial awareness.
Social-Emotional: cooperation and turn-taking when passing one another.

Long tube slide
Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down.
Social-Emotional: thrill when going down fast. Empathy stimulated by turn-taking. Feeling of security when stopping on extra long slide mouth.

Tic-tac-toe panel
Social-Emotional: stimulates communication and turn-taking skills.
Cognitive: support rules understanding, strategic thinking.

Peak climber
Physical: cross-coordination and muscle strength are developed when climbing and crawling across the unequally dispersed ropes. Balance and spatial awareness are supported when standing on turning spheres or climbing across or up.
Social-Emotional: turn-taking and socializing skills are supported when sitting with friends or interacting across the net.

Play shell
Physical: the swaying movement stimulates the sense of balance, necessary to sit still on a chair.
Social-Emotional: meeting, taking a break and turn-taking are supported, skills necessary to learn how to avoid conflicts.

Tower net
Physical: the children have a fast access up the horizontal rungs, and a slower climb up the sloping rungs. The net can be climbed from both sides, leveling the challenge of accessing the platform. Cross-coordination and sense of space is supported, as well as arm and leg muscles.
Social-Emotional: the two-sided net allows for social interaction. The spaciousness invites socializing.
Cognitive: logical thinking and planning when planning how best to enter the platform from the net.

Banister bars
Physical: balance, spatial awareness and coordination are developed when going down, as well as arm, leg and core muscles when holding tight. Landing strengthens bone density, which is built for life in early childhood.
Social-Emotional: turn-taking and risk-taking.

Movable hammock
Physical: sense of balance when swaying, body pressure when lying.
Social-Emotional: meeting, pushing friends gently back and forward, turn-taking.
Creative: changing direction and position of hammock.
