4. **Pickleball Presentation**

Richard Campillo along with his colleague Steve Williams made a detailed presentation on the growing sport of pickleball. Mr. Campillo informed the board that from its inception to the community in 2013 when the City of Fort Lauderdale painted pickleball court lines on the tennis courts at Hardy Park, the sport has grown significantly not just in the area of Fort Lauderdale but the entire United States. The board was informed that presently the pickleball courts are overcrowded due to its popularity with an estimated one hundred players per day for six courts. Mr. Campillo provided recommendations to possible locations that the City should consider in an effort to develop the sport to meet the needs of its local residents and make it a sport-related economic driver for the City of Fort Lauderdale. Mr. Campillo also informed the board that one of the ways the City of Fort Lauderdale can capture and grow the base of the sport is through the development of in-school and after school youth programs, adult training classes and develop best in class type facilities.

5. **Board Comments**

Board member Carey Villeneuve informed the board that since the Panthers last presentation to the board, the project plans have changed significantly and

recommends that the board invite them back to provide an updated presentation of the project plans and timeline.
