Re: Publix Super Markets, Inc. Public Participation Meeting Summary

Case No.: 19110004
Meeting Date: 07/09/2020
Meeting Time: 06:00 PM (ET)
Location: Central Beach Alliance (CBA) Meeting Virtual Zoom Call
of Participants: 121

Dear Jim:

As part of Publix Super Market's Planning & Zoning submittal, the following is Publix's report summarizing its Public Participation Meeting, held virtually over Zoom on July 9, 2020 in conjunction with the Central Beach Alliance's Member meeting.

Publix is proposing to develop a new grocery store on the barrier island, located at 2985 N. Ocean Boulevard, Fort Lauderdale (the "Property"). The grocery store will be a smaller, urban store with approximately 29,500 square feet, similar in size to the store across from the Galleria Mall.

Notice Requirements:

Publix satisfied the notice requirements for the Public Participation meeting pursuant to Sec. 47-27.4.A.2.c, ULDR. A minimum of 21 days prior to its DRC meeting on December 10, 2019, Publix notified the official city-recognized civic organization with 300 feet of the proposed project, notifying of the date, time and place of the DRC meeting. On November 19, 2019, email notifications were sent to the Central Beach Alliance, the project's official city-recognized civic

ACTIVE:12319002.1

association within 300 feet of the property, as well as Lauderdale Beach HOA and the Galt Mile Community Association. The email notices are attached as **Exhibit 1**.

Additionally, Publix sent notices for its Public Participation Meeting to the official city-recognized civic association within 300 feet of the proposed project AND by mailing notices to all property owners, per the Broward County Property Appraiser, within 300 feet of the proposed project. The Public Participation Meeting Notice that was sent is attached as **Exhibit 2**.

The official city-recognized civic association within 300 feet of the proposed project is the Central Beach Alliance, which notice of the meeting was sent via email on June 26, 2020, see attached as **Exhibit 3**. Email notices were also sent to the Lauderdale Beach Homeowner's Association, the Galt Ocean Mile Association, the Vantage View Condominium Association and Board of Directors and the Dolphin Isle Homeowner's Association (see attached as **Exhibit 4**). Additionally, all property owners within 300 feet of the Property received a mailed notice informing them of the Public Participation meeting (see list of property owners within 300 feet and the Property Appraiser's map showing the 300-foot radius, attached as **Exhibit 5**).

Presentation:

The presentation was headed by Gunster attorney Heidi Davis, who is representing Publix with her team, all of whom also joined for the call and participated. The presentation began with the listing of the property location and architectural and physical description of the proposed development, followed by a description of zoning designations and type of applications that are being requested for the development. Because there are over 1,100 property owners within a 300 ft radius of the new supermarket, Publix is designed to be pedestrian friendly cutting down on vehicle trips. After the presentation finished, the public participation section began, with the discussion described below. Finally, Heidi ended the meeting by informing the participants that if anyone had additional questions or comments to please contact her and she provided her contact information.

Presentation Materials:

A PowerPoint presentation was shown at the meeting. The PowerPoint is attached as **Exhibit 6**.

Public Participation:

Approval:

Many meeting participants expressed their support for the proposed Publix and the Central Beach Alliance members' vote was overwhelmingly in favor of the project. Participants including Zoom Cavalry, Glenn Norrgard, Virginia Hebb, Robert King, Beverly Feingold, Lori Franke,

Valorie Hediger, and Nancy Hastings were all in support. Zoom Cavalry stated, "From a Vantage View Condo family, we are very excited about Publix - believe it will beautify and bring values up in the area! Plus, fresh food every day."

Parking:

There were questions regarding how the parking garage was to be monitored for beach parking and whether the parking garage would be closed at night. Publix representatives responded by stating the garage will closed when the store closes and will be monitored. The store will have security in and around the lot. It is also looking into adding certain measures, such as a gate to close the garage off at night.

Traffic:

Many participants asked how the proposed Publix would affect traffic in the area. Publix's traffic consultant, Karl Peterson, responded by stating the project team has been analyzing the traffic situation in order to predict how the project will influence traffic in the area. Publix has committed to assessing the traffic situation once the store has opened. Vice Mayor Steve Glassman suggested instituting left turning signals at the intersection to both mitigate traffic and make the intersection safer. The project team promised to investigate this issue. A question about delivery trucks causing backup onto main streets was asked. However, due to the nature of Publix's plan for its delivery truck system, back-up from trucks will not be a problem, as the delivery times are spaced out, so trucks do not wait in the street and block traffic.

Roof:

Some participants had questions about the roof, including whether planting and solar will be added. The team responded that Publix has green screen trellises up on the roof visual appearance and shade, but there are no plans to add solar features to the roof at this time.

Noise and Light Pollution:

There were questions over the possible noise and light pollution from the development. The development team expressed that Publix does not expect any noise or light pollution but would attempt to mitigate any noise and light pollution produced by the store, if noticed.

Hours:

There were some questions about when the development will begin, what hours the store would be open and closed, and when delivery trucks could make their deliveries. If all the approvals are received, construction should commence in the second quarter of 2021 and the store

opened possibly at the end of 2022. The team announced that Publix has not finalized store hours or delivery times hours yet.

If you have any questions regarding the foregoing, please do not hesitate to contact me at (954) 468-1391.

Sincerely,

Heidi Davis Knapik

Architectural Features

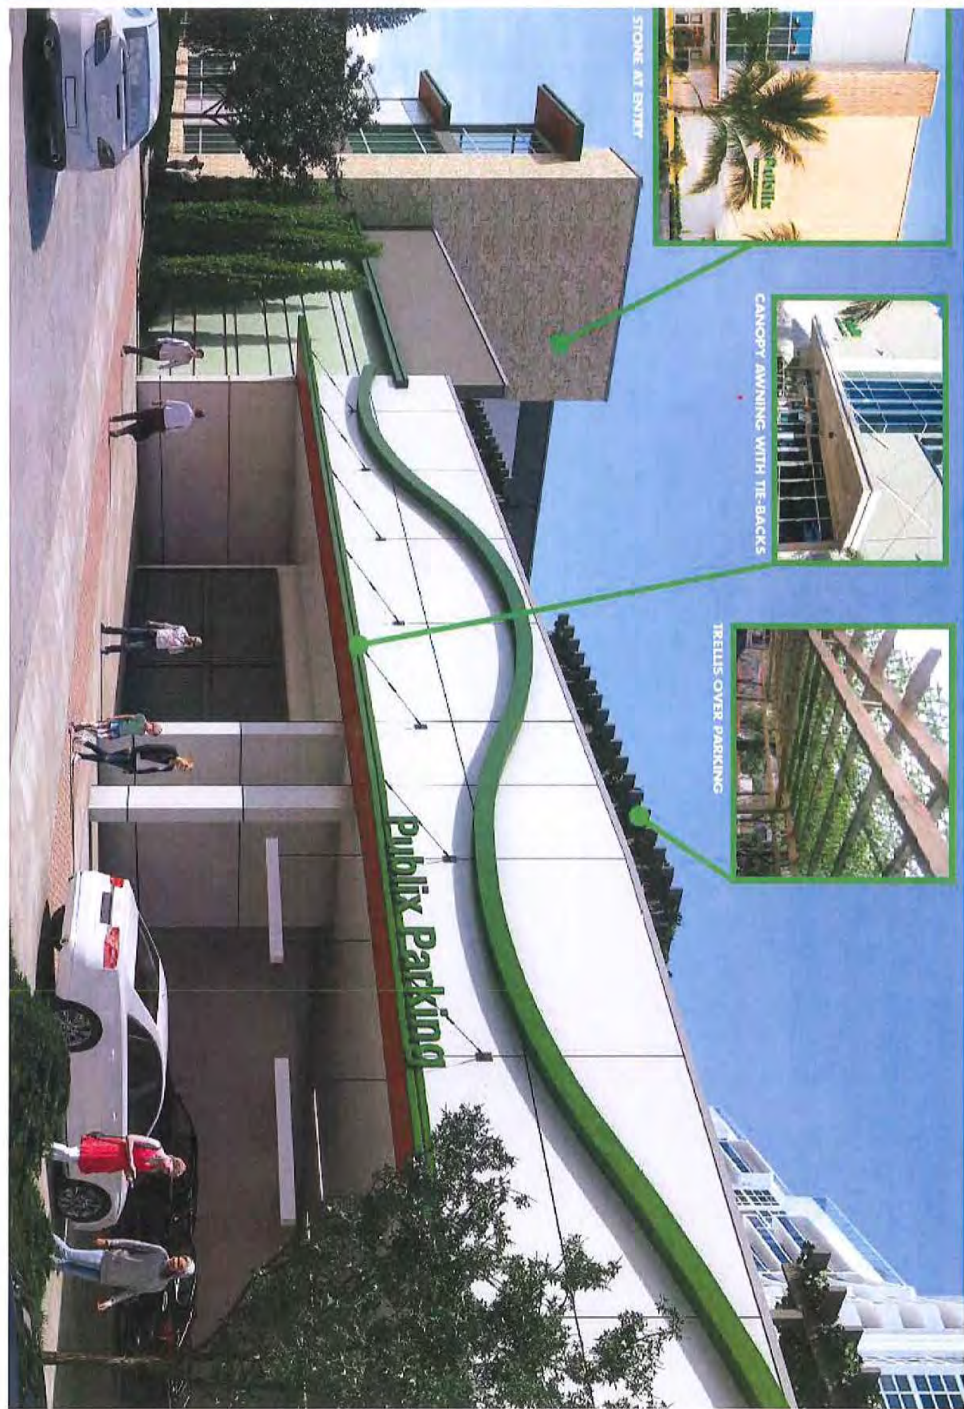

- Contemporary design, using vertical and horizontal features and natural elements including coral stone, glass and wood.
- Beach wave aluminum banding on north and south facades.
- One story structure with varying rooflines. Increased parapet heights screen mechanical and elevator tower and create dynamic roof variations.
- Pedestrian scale elements including prominent entrance feature on corner of A1A and NE 30th Street. Large glass atrium tower feature welcomes guests.
- Coral stone column creates a natural, dramatic effect which balances the color pallet and building materials. Coral stone also placed around base of structure.
- Contemporary canopies with modern metal tie backs and wood ceiling under canopy.
- Additional architectural elements and ornamentation including various architectural reveals in stucco, color enhancements and window awnings.
- Rooftop shade trellis adds a green element to the parking deck and protects guests from the elements and screens the rooftop parking.
- All mechanical equipment screened with architectural features that enhance the structure.

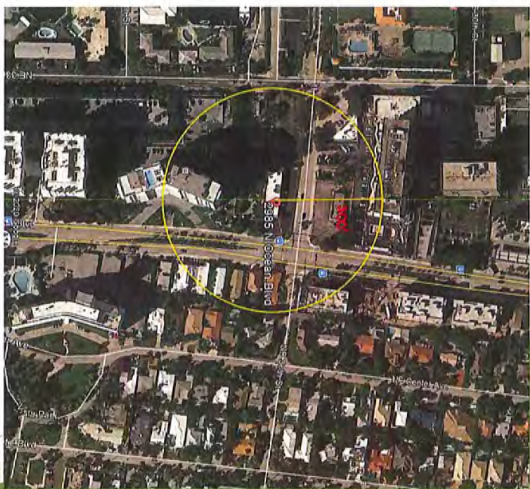

Pedestrian Accessibility

- ▶ Urban store = Increased pedestrian usage from neighbors and visitors walking to get groceries.
- ▶ Site Plan designed to accommodate the pedestrian / bicyclist - corner plaza, pedestrian oriented architectural features, bike racks.
- ▶ Large sidewalks, shade structures and lush landscaping surrounding the street fronts.
- ▶ Beach residents and visitors won't have to drive across bridge to the grocery store, cutting down on vehicle trips.
- ▶ Within a 300 foot radius of the Property there are over 1,100 property owners. 300 feet is shown in the top aerial.
- ▶ A typical person will walk $\frac{1}{4}$ mile or 1,320 feet, as shown in the bottom aerial.

Subject: WATER AND WASTEWATER CAPACITY AVAILABILITY LETTER
Publix Supermarket – DRC Case No. PLN-SITE-19910004
2865 North Ocean Boulevard, Fort Lauderdale, Florida 33308

Dear Mr. Hadad,

According to the information submitted, the project consists of a proposed 30,138 SF Publix Supermarket to replace the existing 5,000 SF one-story office and restaurant building and parking lot. There are proposed water and sewer connections to City of Fort Lauderdale (CFL) utilities along NE 30th Street and NE 33rd Avenue. This project lies within the City's Pump Station (PS) B-14 basin and will increase the average day water demand by approximately 0.002 million gallons per day (MGD) and the average day sewer demand by approximately 0.002 MGD.

We believe that once this project is complete there will be sufficient capacity in the sanitary sewer system to accommodate the proposed development. Currently the existing PS B-14 run times exceed 10 hours per day. The existing capacity of the sanitary sewer system is 10.0 MGD. The proposed development will increase the average day water demand by approximately 0.002 MGD and the average day sewer demand by approximately 0.002 MGD. We are confident that the existing PS B-14 will be able to accommodate the proposed project's calculated demands.

If Public Works staff issues comments on the proposed flow calculations after the issuance of this capacity availability letter, the consultant shall request a revised letter with the correct approved flow calculations. The determination of capacity availability is based upon tools and data analysis as of the date of this letter. Availability of capacities, as calculated in the attached analysis, is not guaranteed and no existing system capacity shall be considered "committed" for this project until a permit has been issued and all fees have been paid. The City reserves the right to re-evaluate the availability of capacities at the time of permit application. If sufficient capacities are not available, the City may delay the permit application, ask the applicant to provide additional information, or require the applicant to submit a design prior to approval. Information contained in this letter will expire one year from the date issued.

Should you have any questions or require any additional information, please contact me at (954) 328-5862. Sincerely,

Igor Vassiliev, P.E.
Project Manager II

WATER/ WASTEWATER CAPACITY

Publix is not a large
user of water/
wastewater.

City reviewed
Publix's plans and
stated that "once
this project is
complete there will
be sufficient
capacity in the
sanitary sewer
system" and the
proposed increase is
0.2% of total flow
which "impact will
be negligible"

Requested Applications

Publix is requesting the following approvals:

- ▶ Site Plan
- ▶ Rezoning
Southern 2 Parcels to CB to be consistent with the northern parcels
- ▶ Land Use -
Allocation of Commercial Flex Acreage for the south 2 parcels
- ▶ Minor Setback Variances
