**COMMUNITY AESTHETIC FEATURE AGREEMENT**Section No. CAFA No. 2021-M-491-00002

This Community Aesthetic Feature Agreement ("Agreement") is entered into this day \_\_\_\_\_, between the State of Florida, Department of Transportation ("FDOT") and City of Fort Lauderdale ("Agency"). FDOT and the Agency are sometimes referred to in this Agreement as a "Party" and collectively as the "Parties."

**RECITALS**

- A. The Agency has requested permission from FDOT to install a [**CHOOSE ONE:** ☐ Public Art – Standalone, ☒ Public Art – Add On/affixed, ☐ Local Identification Marker – Standalone, ☐ Local Identification Marker – Add On/affixed] community aesthetic feature on that certain right-of-way owned by FDOT which is located at SR 811, SR 838 & SR 5 - Federal Highway/US 1 at 5 different locations in Broward County, Florida ("Project").
- B. FDOT agrees that transportation facilities enhanced by community aesthetic features can benefit the public, result in positive economic development, and increase tourism both locally and throughout Florida.
- C. The Parties agree to the installation and maintenance of the Project, subject to the terms and conditions in this Agreement.

**AGREEMENT**

1. **TERM.** The term of this Agreement shall commence upon full execution of this Agreement ("Effective Date") and continue through the 5<sup>th</sup> anniversary of this agreement, which is determined as the lifespan of the Project, unless terminated at an earlier date as provided in this Agreement. If the Agency does not complete the installation of the Project within one (1) year (365) days of the Effective Date of this Agreement, FDOT may immediately terminate this Agreement. This Agreement may only be renewed for a term no longer than the original term of this Agreement upon a writing executed by both Parties to this Agreement.

2. **PROJECT DESCRIPTION.** The Project is a [**CHOOSE ONE:** ☐ Public Art – Standalone, ☒ Public Art – Add On/affixed, ☐ Local Identification Marker – Standalone, ☐ Local Identification Marker – Add On/affixed], as more fully described in the plans in Exhibit "A", attached and incorporated in this Agreement.

3. **FUNDING OF THE PROJECT.** The Agency has agreed by resolution to approve the Project and to fund all costs for the design, installation, and maintenance of the Project, and such resolution is attached and incorporated in this Agreement as Exhibit "D". FDOT shall not be responsible for any costs associated with the Project. All improvements funded, constructed, and installed by the Agency shall remain the Agency's property. However, this permissive use of FDOT's right-of-way where the Project is located does not vest any property right, title, or interest in or to the Agency for FDOT's right-of-way.

4. **DESIGN AND CONSTRUCTION STANDARDS AND REQUIRED APPROVALS.**

- a. The Agency is responsible for the design, construction, and maintenance of the Project in accordance with all applicable federal, state and local statutes, rules and regulations, including FDOT standards and specifications. A professional engineer, registered in Florida, shall provide the certification that all design and construction for the Project meets the minimum construction standards established by FDOT and applicable Florida Building Code construction standards. The Agency shall submit all plans or related construction documents, cost estimates, project schedule, and applicable third-party agreements to FDOT for review and approval prior to installation of the Project. The Agency is responsible for the preparation of all design plans for the Project, suitable for reproduction on 11 inch by 17 inch sheets, together with a complete set of specifications covering all construction requirements for the Project. Six (6) copies of the design plans shall be provided to FDOT's District Design Engineer, at 3400 West Commercial Blvd, Ft Lauderdale, FL 33309. FDOT will review the plans for conformance to FDOT's requirements and feasibility. FDOT's review shall not be considered an adoption of the plans nor a substitution for the engineer's responsibility for the plans. By review of the plans, FDOT signifies only that such plans and improvements satisfies FDOT's requirements, and FDOT expressly disclaims all other representations and warranties in connection with the plans, including, but not limited to the integrity, suitability, or fitness for the intended purpose or whether the improvements are constructed in accordance with the plans. FDOT's review of the plans does not relieve the Agency, its consultants or

Section No. CAFA No. 2021-M-491-00002

contractors of any professional or other liability for the plans. All changes required by FDOT shall be made by the Agency and final corrected plans shall be provided to FDOT within thirty (30) days.

- b. The Agency shall be responsible for locating all existing utilities, both aerial and underground, and for ensuring that all utility locations be accurately documented on the construction plans. All utility conflicts shall be fully resolved directly with the applicable utility. Section 337.403, Florida Statutes, shall determine whether the utility bears the costs of utility work. The Agency shall bear the costs of utility work not required to be borne by the utility by Section 337.403, Florida Statutes.
- c. The Agency shall be responsible for monitoring construction operations and the maintenance of traffic ("MOT") throughout the course of the Project in accordance with the latest edition of FDOT Standard Specifications, Section 102. The Agency is responsible for the development of a MOT plan and making any changes to that plan as necessary. The MOT plan shall be in accordance with the latest version of FDOT Design Standards, Index 600 series. Any MOT plan developed by the Agency that deviates from FDOT Design Standards must be signed and sealed by a professional engineer. MOT plans will require approval by FDOT prior to implementation.
- d. The Agency is responsible for obtaining all permits that may be required by any federal, state, or local agency.
- e. Prior to commencing the Project, the Agency shall request a Notice to Proceed from FDOT's Construction Project Manager, Louis Berger Asset Maintenance Contractor ([us1-a1a-permits@louisberger.com](mailto:us1-a1a-permits@louisberger.com)) at 786-314-6006 or from an appointed designee.
- f. The Agency is authorized, subject to the conditions in this Agreement, to enter FDOT's right-of-way to install the Project (see attached Exhibit "B" Special Provisions). The Parties agree that this Agreement creates a permissive use only. Neither the granting of permission to use FDOT's right-of-way nor the placing of facilities upon FDOT's right-of-way shall operate to create or vest any property right in or to the Agency. The Agency shall not acquire any right, title, interest, or estate in FDOT right-of-way, of any nature or kind whatsoever, by virtue of the execution, operation, effect, or performance of this Agreement including, but not limited to, the Agency's use, occupancy or possession of FDOT right-of-way.
- g. FDOT shall have the right, but not the obligation, to perform independent assurance testing during the course of construction and throughout the maintenance term of the Project. If FDOT determines that a condition exists which threatens the public's safety, FDOT may, at its discretion, cause the Project to cease and/or immediately have any potential hazards removed from its right-of-way at the sole cost, expense, and effort of the Agency. Should the Agency fail to remove the safety hazard within thirty (30) days, FDOT may remove the safety hazard at the Agency's sole cost, expense, and effort.
- h. The Agency shall be responsible to ensure that construction of the Project is performed in accordance with the approved construction documents, and that it will meet all applicable federal, state, and local standards and that the work is performed in accord with the Terms and Conditions contained in Exhibit "C".
- i. The Agency shall notify FDOT a minimum of forty-eight (48) hours before beginning the Project within FDOT right-of-way. The Agency shall notify FDOT should installation be suspended for more than five (5) working days.
- j. Upon completion of the Project, the Agency shall notify FDOT in writing of the completion of the installation of the Project. For all design work that originally required certification by a Professional Engineer, the notification shall contain a Responsible Professional's Certification of Compliance, signed, and sealed by the Responsible Professional for the Project, the form of which is attached to this Agreement as Exhibit "E". The certification shall state that work has been completed in compliance with the Project construction plans and specifications. If any deviations are found from the approved plans,

Section No. CAFA No. 2021-M-491-00002

the certification shall include a list of all deviations along with an explanation that justifies the reason to accept each deviation. The Agency and its contractors shall remove their presence, including, but not limited to, all of the Agency or its contractor's/ subcontractor's/ consultant's/ sub-consultant's property, machinery, and equipment from FDOT right-of-way and shall restore those portions of FDOT right-of-way disturbed or otherwise altered by the Project to substantially the same condition that existed immediately prior to the commencement of the Project, at Agency's sole cost and expense.

- k. If FDOT determines that the Project is not completed in accordance with the provisions of this Agreement, FDOT shall deliver written notification to the Agency. The Agency shall have thirty (30) days from the date of receipt of FDOT's written notice to complete the Project and provide FDOT with written notice of the same ("Notice of Completion"). If the Agency fails to timely deliver the Notice of Completion, or if it is determined that the Project is not properly completed after receipt of the Notice of Completion, FDOT may: 1) provide the Agency with written authorization granting additional time as FDOT deems appropriate to correct the deficiency(ies); or 2) correct the deficiency(ies) at the Agency's sole cost and expense, without FDOT liability to the Agency for any resulting loss or damage to property, including but not limited to machinery and equipment. If FDOT elects to correct the deficiency(ies), FDOT shall provide the Agency with an invoice for the costs incurred by FDOT and the Agency shall pay the invoice within thirty (30) days of the date of the invoice.
- l. Upon completion of the Project, the Agency shall be responsible for the perpetual maintenance of the Project, including all costs. The Maintenance schedule shall include Initial Defect, Instantaneous Damage and Deterioration components. The Initial Defect Maintenance inspection should be conducted, and any required repairs performed during the Construction Phase. The Instantaneous Damage Maintenance inspection should be conducted sixty (60) to ninety (90) days after placement and is intended to identify short term damage that does not develop over longer time periods. The Deterioration Maintenance inspection shall be conducted on regular, longer term intervals and is intended to identify defects and damages that occur by naturally occurring chemical, physical or biological actions, repeated actions such as those causing fatigues, normal or severe environmental influences, abuse or damage due to other causes. Deterioration Maintenance shall include, but is not limited to, the following services:  
The Agency shall be responsible for the maintenance of the graphic material wrapped on the Traffic Controller Equipment as described in Exhibit "A". All maintenance of the equipment will remain the responsibility of the maintaining agency and the respective owners and covered by a separate agreement between such owners and FDOT.
- m. The Agency shall, within thirty (30) days after expiration or termination of this Agreement, remove the Project and restore the right-of-way to its original condition prior to the Project. The Agency shall secure its obligation to remove the Project and restore the right-of-way by providing a removal and restoration deposit, letter of credit, or performance bond in the amount of \$ 0.00.
- n. FDOT reserves its right to cause the Agency to relocate or remove the Project, in FDOT's sole discretion, and at the Agency's sole cost.

## 5. INDEMNITY AND INSURANCE.

- a. The Agency agrees to include the following indemnification in all contracts with contractors, subcontractors, consultants, and sub-consultants, who perform work in connection with this Agreement:

"The contractor/ subcontractor/ consultant/ sub-consultant shall indemnify, defend, save and hold harmless the State of Florida, Department of Transportation and all of its officers, agents or employees from all suits, actions, claims, demands, liability of any nature whatsoever arising out of, because of, or due to any negligent act or occurrence of omission or commission of the contractor/ subcontractor/ consultant/ sub-consultant, its officers, agents or employees."
