

RESOLUTION NO. 21-

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FORT LAUDERDALE, FLORIDA, APPROVING A GRANT APPLICATION TO THE FLORIDA INLAND NAVIGATION DISTRICT (FIND) IN THE AMOUNT OF \$92,000.00 AND DELEGATING TO THE CITY MANAGER THE AUTHORITY TO ACCEPT AND TO EXECUTE REQUIRED DOCUMENTS RELATED THERETO.

WHEREAS the Florida Inland Navigation District ("FIND") can provide financial assistance for the Fort Lauderdale Police Department Marine Outboard Motor Replacement Project, which seeks to obtain two (2) sets of boat engines to replace motors which are out of warranty, incurred excessive usage of hours and are malfunctioning, with an estimated cost of \$92,000.00; and

WHEREAS the City of Fort Lauderdale is interested in carrying out the above-described project for the enjoyment of the citizenry of the City of Fort Lauderdale, Florida; and

WHEREAS, Florida Inland Navigation District financial assistance is required for the project referenced above; and

WHEREAS, the City of Fort Lauderdale, Florida will make an application to Florida Inland Navigation District (FIND) in the amount of fifty percent (50%) of the actual cost of the project on behalf of the City of Fort Lauderdale, Florida; and

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FORT LAUDERDALE, FLORIDA:

SECTION 1. That the City of Fort Lauderdale, Florida, will process the FIND application for \$92,000.00.

SECTION 2. That the City of Fort Lauderdale, Florida certifies the following:

a. That it will accept the terms and conditions set forth in FIND Rule 66B-2 F.A.C. and which will be a part of the Project Agreement for any assistance awarded under the attached proposal.

b. That it is in complete accord with the attached proposal and that it will carry out the Program in the manner described in the proposal and any plans and specifications attached thereto unless prior approval for any changes has been received from the District.

c. That it has the ability and intention to finance its share of the cost of the project and that the project will be operated and maintained at the expense of the City of Fort Lauderdale, Florida for public use.

d. That it will not discriminate against any person on the basis of race, color or national origin in the use of any property or facility acquired or developed pursuant to this proposal and shall comply with the terms and intent of the Title VI of the Civil Rights Act of 1964, P.L. 88-352 (1964) and design and construct all facilities to comply with statutes relating to accessibility by persons with disabilities as well as other federal state and local laws, rules and requirements.

e. That it will maintain adequate financial records on the proposed project to substantiate claims for reimbursement.

f. That it will make available to FIND if requested, a post-audit of expenses incurred on the project prior to, or in conjunction with, request for the final 10% of the funding agreed to by FIND.

SECTION 3. That the City Manager is delegated the authority to execute the required documents to submit the grant application to FIND.

SECTION 4. That the office of the City Attorney shall review and approve as to form all documents prior to their execution by City officials.

SECTION 5. That this Resolution shall be in full force and effect immediately upon and after its passage.

ADOPTED this _____ day of _____, 2021.

Mayor
DEAN J. TRANTALIS

PROJECT NARRATIVE (Please summarize the project in space provided below in 2 paragraphs or less.)

This project seeks to obtain two sets of outboard motors to replace old and malfunctioning engines on two vessels operated by the Fort Lauderdale Police Marine Unit. The Marine Unit is responsible for the public safety coverage of the Atlantic Intracoastal Waterway, the Fort Lauderdale beach and an expansive network of canals. The current engines have incurred excessive hours and are out of warranty. As such, the proposal requests \$46,000 in FIND funding to be used to replace the current engines. The City of Fort Lauderdale will meet the 50% match as required by this grant by allocating \$46,000 in city funds from the Fort Lauderdale General Fund. Acquisition of the motors will permit the Police Marine Unit to continue patrols and provide public safety services to those that use the waterways for business and/ or recreation.

EVALUATION WORKSHEET**

WATERWAY ASSISTANCE PROGRAM FY 2021

DIRECTIONS:

All applicants will complete questions 1 through 6, and then based on the type of project, complete one and only one subsection (E-4A, B, C, D or E) for questions 7-10.

*****Please keep your answers brief and do not change the pagination of Attachment E-4*****

All other sub-attachments that are not applicable to an applicant's project should not be included in the submitted application.

Project Title:	FLPD Marine Outboard Motor Replacement Project
Applicant:	City of Fort Lauderdale

1) PRIORITY LIST:

- a) Denote the priority list category of this project from Attachment C in the application.**
(The application may only be of **one** type based upon the predominant cost of the project elements.)

14. Waterway boating safety programs & equipment.

- b) Explain how the project fits this priority category.**

This project seeks funding to assist the Fort Lauderdale Police Marine Unit in acquisition of 2 sets of outboard engines to replace existing equipment that has incurred excessive hours is out of warranty. Securing new engines will facilitate the safe and efficient operation of Boats #8 and #9 for waterway patrols along the ICW, our numerous canals and the Fort Lauderdale beach.

(For reviewer only)

Max. Available Score for application _____

Question 1. Range of Score (1 to ____ points)

2) WATERWAY RELATIONSHIP:

- a) Explain how the project relates to the ICW and the mission of the Navigation District.**

This project relates to FIND's mission by supporting the Fort Lauderdale Police Department's (FLPD) ability to provide routine law enforcement and waterway safety patrols for citizens and visitors utilizing the ICW's rights of way and those of its adjoining waterways.

- b) What public access or navigational benefit to the ICW or adjoining waterway will result from this project?**

This project supports the ability to conduct marine law enforcement patrols which helps to ensure the maintenance of safe and navigable ICW and adjoining waterways.

(For reviewer only)

(1-6 points)

3) PUBLIC USAGE & BENEFITS:

- a) Describe how the project increases/improves boater/public access. Estimate the amount of total public use.**

The requested outboard engines will ensure the FLPD's ability to provide reliable daily marine law enforcement patrols. In FY2019/2020, the Marine Unit performed approximately 13,900 patrol hours along our jurisdictional waterways. The Marine Unit maintains daily logs of the number of public contacts, boating safety inspections, accidents, citations issued and other quantifiable public safety services.

- b) Discuss the regional and local public benefits provided by the project. Can residents from other counties of the District reasonably access and use the project? Explain.**

The requested engines will ensure FLPD's ability to provide reliable marine patrols daily which benefits the public by providing boater education information and assistance; conducting safety inspections, marine law enforcement and accident investigations, providing high visibility patrols during major events (e.g. Winterfest Parade and International Boat Show). Also, FLPD provides assistance to Miami Dade and the USCG.

- c) Has the local Sponsor implemented or plans to implement any boating access, speed zone, commercial access or other restrictive use of this site?**

FLPD's marine unit will conduct law enforcement patrols that includes the monitoring and enforcement of speed zones, to curtail any unsafe activities along public boat ramps and ensure the general compliance of local ordinances.

(For reviewer only)

(1-8 points)

4) TIMELINESS:

- a) Describe current status of the project and present a reasonable and effective timeline for the completion of the project consistent with Attachment E-6.**

The engines on Boats #8 and #9 are each over 4 years old, out of warranty and major repairs are no longer covered by the manufacturer. Annually, Boat #8 averages 960 hours and Boat #9 averages 850 hours. Replacement engines can be installed within 6 months of contract execution.

- b) Briefly explain any unique aspects of this project that could influence the timeline.**

FLPD does not anticipate any unique circumstances that would negatively impact the anticipated project timeline.

(For reviewer only)
(1-3 points)

5) COSTS & EFFICIENCY:

- a) List funding sources and the status and amount of the corresponding funding that will be utilized to complete this project including any cash match or matching grant funds.**

The proposal seeks to fund 50% of the cost of two sets of boat motors. On February 6, 2021, the Fort Lauderdale approved a motion to dedicate the required matching funds should this project be successful.

- b) Identify and describe any project costs that may be increased because of the materials utilized or specific site conditions.**

The project budget was based on the cost estimate of two sets of outboard motors that was quoted in January 2021. There is no anticipated change in costs, however should that occur, the City of Fort Lauderdale shall absorb any increases.

- c) Are there any fees associated with the use of this facility? If so, please list or attach fee sheet.**

N/A

- d) If there are any fees, please explain where these fees go and what they are used for. In addition, please provide a listing of the fees charged by similar facilities, public and private, in the project area.**

N/A

(For reviewer only)
(1-6 points)

6) PROJECT VIABILITY:

a) Why is the project necessary and what need will it fill? Why are existing facilities insufficient to meet demand?

Marine commerce and recreation are among the leading industries in greater Fort Lauderdale/Broward County. With over 165 miles of navigable waterways, Fort Lauderdale serves as primary host to a variety of aquatic related businesses and activities. These include marinas, waterfront establishments, charter cruises and boat manufacturing, repair and storage facilities. Additionally, the City is host to the Fort Lauderdale Air Show, the Fort Lauderdale International Boat Show and the Winterfest Boat Parade. As a result of the plethora of marine businesses and recreational activities occurring within our uniquely situated municipality, the City of Fort Lauderdale regards marine law enforcement patrols as highly essential to ensuring the safety of our waterways and maintaining overall public safety without jurisdiction. Without safe and reliable equipment, FLPD's Marine unit will not be able to perform their duties and a safe environment for boaters or other persons enjoying the waterways.

b) Clearly demonstrate how the project will continue to be maintained and funded after funding is completed.

Each year the City of Fort Lauderdale enters into an annual agreement with a local marine vendor to provide maintenance on all marine vessels and outboard motors. As a result, the newly acquired boat engines will be routinely serviced.

c) Is this project referenced or incorporated in an existing maritime management, public assess or comp plan?

This project will help to ensure a safe and secure environment for citizens and visitors utilizing the ICW and its adjoining waterways. This is in alignment with the City's long-term strategic plan - Fast Forward Fort Lauderdale - specifically Goal 3: Be a Community that finds opportunities and leverages partnerships to create unique, inviting and connected gathering places that highlight our beaches, waterways, urban areas and parks.

(For reviewer only)
(1-7 points)

SUB-TOTAL _____

ATTACHMENT E-4C
EVALUATION WORKSHEET
LAW ENFORCEMENT & BOATING SAFETY PROJECTS

WATERWAY ASSISTANCE PROGRAM FY 2021

THIS ATTACHMENT IS TO BE COMPLETED IF YOUR PROJECT IS A LAW
ENFORCEMENT OR BOATING SAFETY PROJECT

7) VIABILITY:

- c) Describe how the project will address particular public health, safety, or welfare issues of the Navigation District's Waterways.**

The requested engines will provide the Marine Unit with vital operational equipment necessary to continue providing a safe environment for boaters and other recreational users of the District's Waterways. This will be accomplished through the provision of routine law enforcement activities such as detection and apprehension of impaired boaters or those who do not obey posted signage; thereby protecting the health, safety and welfare of the public. This project will also enhance the safety of the public thru the provision of boater education, assistance and safety inspections.

- d) How does the project provide significant benefits or enhancements to the District's Waterways?**

Without the engines, the Marine Unit will be limited in its ability to contribute to a safe boating environment. High visibility patrols function as a deterrent to negative or dangerous behavior (e.g. speeding or boating under the influence) and also permit law enforcement to engage in citizen contacts to conduct safety inspections, provide boater education and/or assistance and distribution personal flotation devices (PFDs) to children as necessary. (PFDs are provided by the Broward County Marine Advisory Committee).

(For reviewer only)
(1-3 points)

8) EXPERIENCE & QUALIFICATIONS:

- a) **List the personnel tasked with the implementation of this project, their qualifications, previous training and experience.**

Sergeant Todd Mills has been FLPD's Marine Unit supervisor for eight years. He will serve as project director for the FIND grant and will liaise with the Grants Manager and City Procurement in order to comply with the requirements of the grant.

- b) **Have the personnel participated in or received state marine law enforcement training?**

Sergeant Mills has supervised FLPD's Marine Unit for eight years. He has completed the training required to be a vessel operator and has completed a 40-hour Marine Law Enforcement Tactics Class. Furthermore, he is a member of the department's Waterborne Response Team and is a certified U.S. Customs Crew Member.

(For reviewer only)

(1-2 points)

9) DELIVERABLES:

- a) **Describe the anticipated, long-term measurable results of implementing this project.**

By implementing this project, FLPD will be able to perform marine enforcement activities along the Intracoastal and adjoining waterways seven day per week.

- b) **What is the range or area of coverage for this project? Please provide a map of the coverage area.**

FLPD patrols the Intracoastal Waterway from Port Everglades to Port Royal (6400 North ICW), including all adjoining waterways.

- c) **Does the project fulfill a particular community need?**

Through the administration of this project, the public will benefit from the Marine Unit's ability to provide daily law enforcement services along the Intracoastal Waterway, which enhances the safety of all persons that utilize the waterways and also increases boater education/awareness of marine laws.

(For reviewer only)

(1-4 points)

10) EDUCATION:

a) What are the educational benefits (if any) of this proposed project?

The acquisition of the replacement engines will enhance the Marine Unit's ability to perform daily routine patrols of the ICW and adjoining waterways. During the course of the patrols, officers educate the boating public and others via citizen contacts, issuance of warning and citations, distribution of boating safety materials, conducting vessel stops and inspections, and responding to accidents and other calls for service.

b) How does the project or program provide effective public boating education or expand boater safety?

The acquisition of the replacement engines will enhance the Marine Unit's ability to perform daily routine patrols of the ICW and adjoining waterways, during the course of which officers make contact with boater operators and others traveling on or along the waterways. Officers use these interactions to educate the public on safe marine practices, distribute the Boaters Safety Guide and PFDs to children without one or in possession of one in poor condition (as provided by the Broward County Marine Advisory Committee), and issue warnings or citations if applicable.

(For reviewer only)
(1 -3 points)

RATING POINT TOTAL _____

Note:

The total maximum score possible is dependent upon the project priority category but cannot exceed 50 points unless the project qualifies as an emergency-related project. The minimum score possible is 10 points. A score of 35 points or more is required to be considered for funding.

**CITY OF FORT LAUDERDALE
City Commission Agenda Memo
REGULAR MEETING**

#21-0318

TO: Honorable Mayor & Members of the
Fort Lauderdale City Commission

FROM: Chris Lagerbloom, ICMA-CM, City Manager

DATE: April 20, 2021

TITLE: Resolution Approving Grant Application to the Florida Inland Navigation
District FY2021 Waterways Assistance Program – \$92,000 (**Commission
Districts 1, 2, 3 and 4**)

Recommendation

Staff recommends the City Commission approve a resolution authorizing the submission of a grant application to the Florida Inland Navigation District (FIND) for the 2021 Waterways Assistance Program.

Background

The grant provides funding assistance to local governments to perform waterway improvement projects. The program will also fund 50% of projects that target waterway safety programs and equipment. The grant period is October 1, 2021 through September 30, 2023.

The Fort Lauderdale Police Department will request two sets of outboard motors for a total project cost of \$92,000 to replace old and malfunctioning engines. As a result of the program's matching component, if awarded, the grant will fund \$46,000 and the City will match with \$46,000. The Department is requesting that funds for the required match be budgeted in General Funds (FD001-9129). As a requirement of the grant application process, FIND requires that all applicants obtain approval from its governing board or commission via the submission of an official resolution.

Resource Impact

The total project cost is \$92,000. There is an anticipated positive fiscal impact to the City in the amount of \$46,000.00. Full implementation of the grant will require the City to budget \$46,000.00 in the General Fund in FY 2022 (FD001-9129).

Strategic Connections

This item supports the *Press Play Fort Lauderdale 2024* Strategic Plan, specifically advancing:

- The Public Safety Focus Area
- Goal 6: Build a safe and well-prepared community.
- Objective: Prevent and solve crime in all neighborhoods.

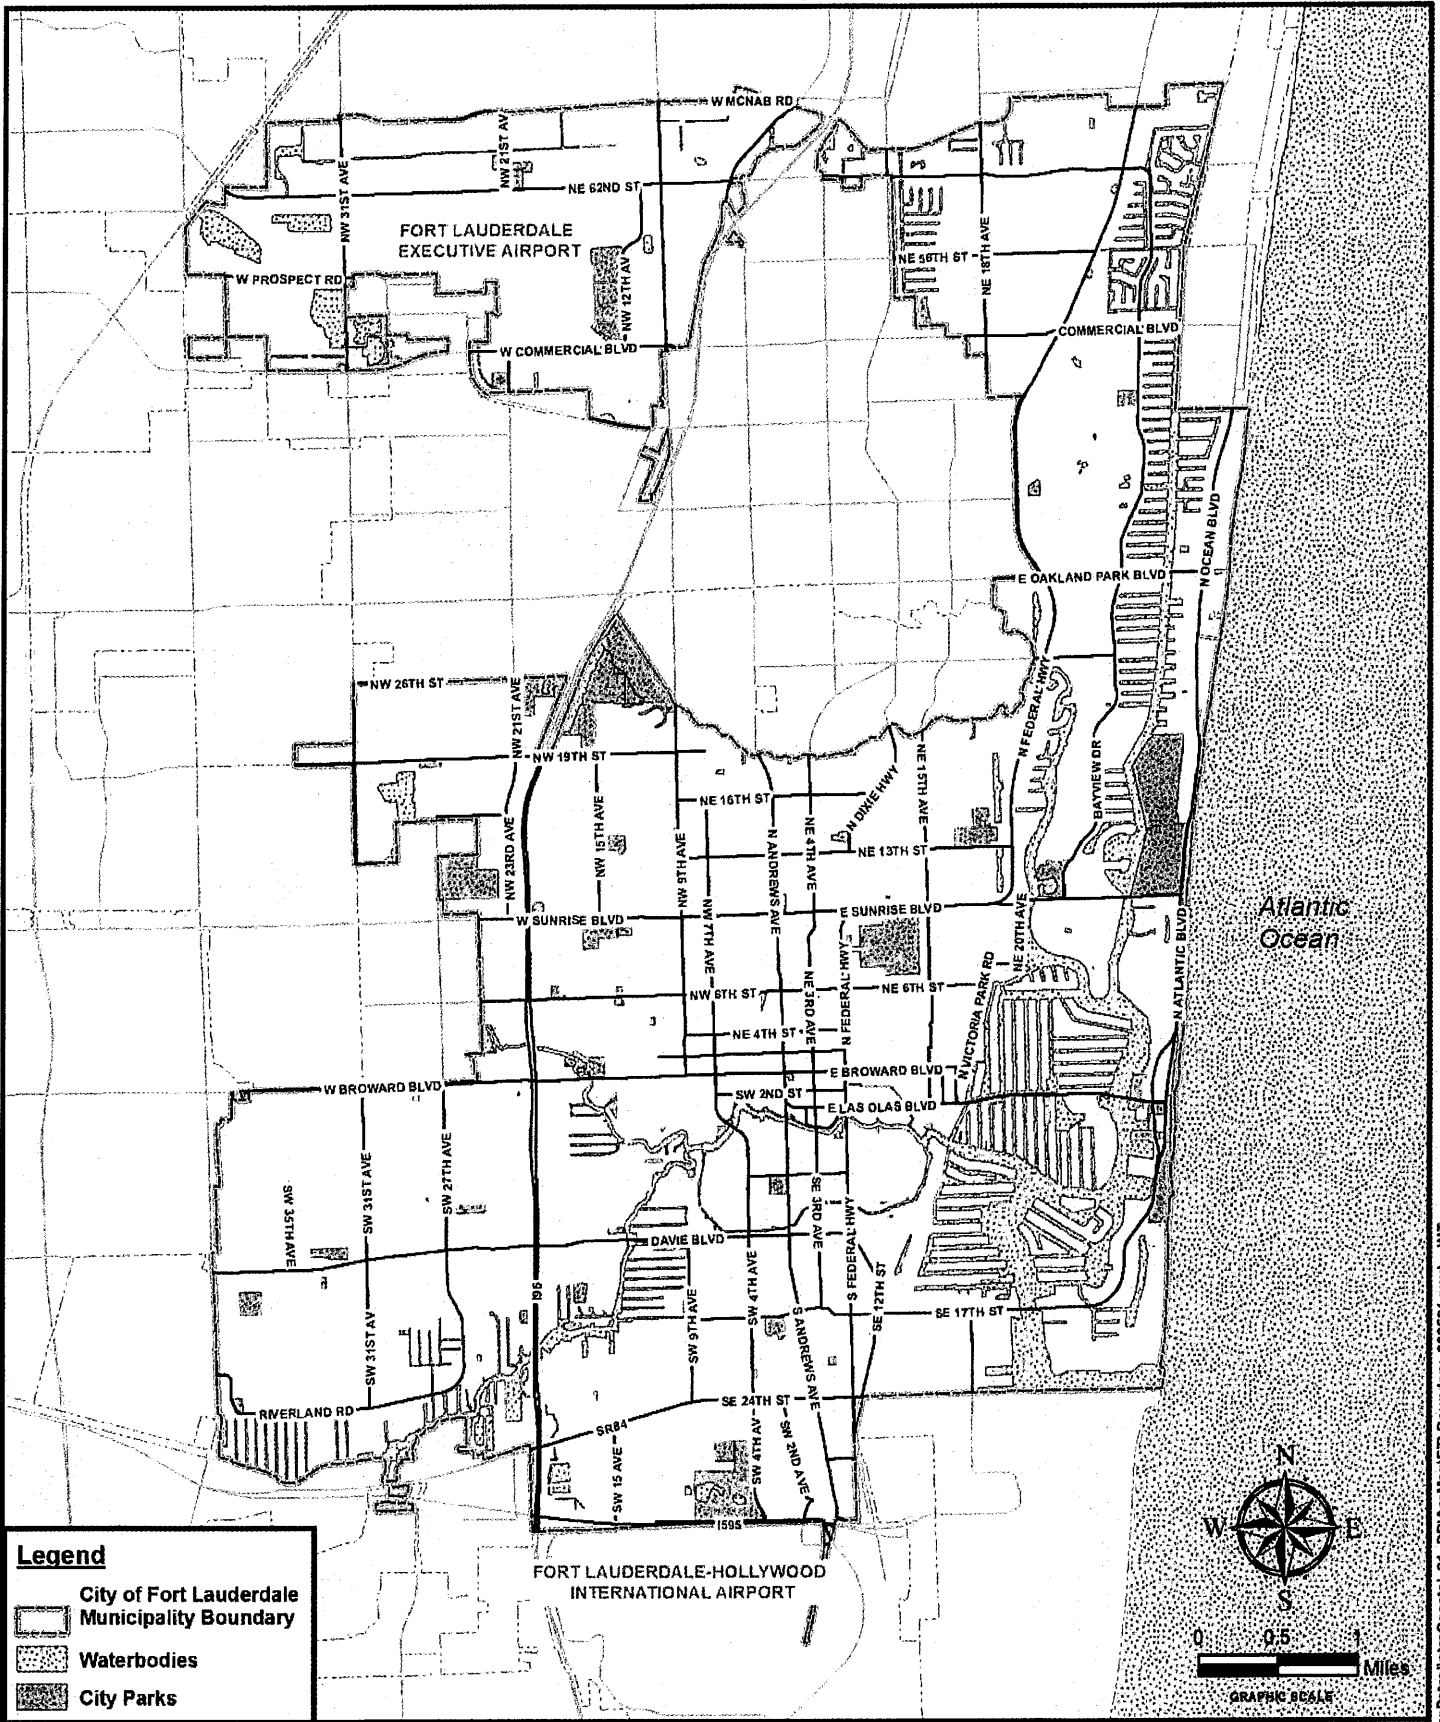

This item advances the *Fast Forward Fort Lauderdale 2035* Vision Plan: We Are Community.
