Where we are now:

- Public Works is preparing to pilot test AMI equipment from six (6) water meter providers
- Pilots will likely begin in July and last approximately six (6) months
- Staff will evaluate each

o Brand;

communication technology (cellular and radio);

- meter data management technology;
- $\ensuremath{\circ}$ installation software and services; and

 \circ customer portals

Total cost for the six (6) pilots is \$54,795

Participating Meter Providers

Pros and Cons

Pros

- Eliminates manual reads
 - Expected savings of \$540,000 annually
- Automated alerts for leaks, high consumption, reverse flow, tampering
- Improved data available to neighbors and staff
- Reduced water loss
- Revenue recovery improved accuracy
- Consumer set alert thresholds for consumption (conservation)
- Reduced truck inventory

Cons

- High up-front cost to implement
- Possible neighbor resistance
- Requires neighbor education
- Potential for higher bills due to improved accuracy
