**EXHIBIT A**

**Project Description and Responsibilities**

**A. Project Description** (description of Agency's project to provide context, description of project components funded via this Agreement (if not the entire project)): additional year of operating funding for the Downtown transit route.

**B. Project Location** (limits, city, county, map): City of Ft. Lauderdale/Fort Lauderdale, FL/Broward

**C. Project Scope** (allowable costs: describe project components, improvement type/service type, approximate timeline, project schedule, project size): provides one additional year of transit operating funding for the Downtown route and changes the contract end date to 6/30/2023.

"As funding allows, this program will consider improvements on facilities designed to prevent them from becoming constrained. Transit Corridor Project is defined as a project identified in a Transit Development Plan, Congestion Management System, or other formal study undertaken by a public agency

designed to relieve congestion and improve capacity within an identified corridor, by increasing people carrying capacity through the use and facilitated movement of high occupancy conveyances. Capital costs may include rolling stock, the purchase of land and right of way, construction and installation of facilities, and corridor road improvements such as turn lanes, traffic controls and high occupancy lanes. Operational costs may include pre-service reparations, operating deficits, marketing, administration, security and traffic control, equipment leases, commuter transportation services, carpool and/or vanpool activities, and other demand management strategies."

**D. Deliverable(s)**: transit service

The project scope identifies the ultimate project deliverables. Deliverables for requisition, payment and invoice purposes will be the incremental progress made toward completion of project scope elements. Supporting documentation will be quantifiable, measurable, and verifiable, to allow for a determination of the amount of incremental progress that has been made, and provide evidence that the payment requested is commensurate with the accomplished incremental progress and costs incurred by the Agency.

**E. Unallowable Costs** (including but not limited to): candy, alcohol, decorations, greeting-cards, lobbying, personal cell phone, office parties, entertainment, food, fans, coffee pots, portable heaters, refrigerators, microwave ovens, congratulatory telegrams, refreshments, banquets, catering, gifts, flowers, or promotional items.

**F. Transit Operating Grant Requirements (Transit Only):**

Transit Operating Grants billed as an operational subsidy will require an expenditure detail report from the Agency that matches the invoice period. The expenditure detail, along with the progress report, will be the required deliverables for Transit Operating Grants. Operating grants may be issued for a term not to exceed three years from execution. The original grant agreement will include funding for year one. Funding for years two and three will be added by amendment as long as the grantee has submitted all invoices on schedule and the project deliverables for the year have been met.
