Fort Lauderdale, Florida

Featuring

***THE HUMAN BATON***

## Experience Narrative

Hold a September 11<sup>th</sup> 20 year anniversary event in Fort Lauderdale in and to honor of First Responders: **Fire Departments, Police Departments, Active Military, Veterans and Medical First Responders.**

The Event is intended to honor First Responders by using The Human Baton (THB) as an exciting visual to bring people together for the cause. For THB, this will be an intro to the City of Fort Lauderdale. This will also be promoting our next event within this tribute event.

The 4 responder units will pick one person to be their Human Baton. Each of the Batons will be introduced on the event's stage with speeches to the responder units and bring focus to the day.

Once the Batons have been introduced, they will be waved off and transport will take them to the take off location. Announcers will give blow by blow commentary of the Batons movements as they fly towards the event location. With a quick fly by over the event the aircraft will head to height to launch the tandem skydive start. Once landing on the beach, the Batons will unclip and run through the crowd to the waiting Drift Cars. On clearing for safety, the drift cars will each head off onto the Fort Lauderdale Beach Blvd route doing a dramatic circular course back to the event's carpark.

Next, the Batons will run to the team's Super Cars to start the dramatic dash down the Blvd to gain the fastest time for their team. All 12 Super Cars in convoy will create an amazing visual for the bystanders and businesses along the front road.

From the Super Car, the Batons will run to the final leg of the experience, running back through the crowd they will jump into the waiting Thundercat powerboats to take on the 8 laps of the tight beach front course. Once completing the laps, each boat will speed up the beach, where the Batons jump out and run up to the stage for the finish of the experience.
