RE: Bid# 12561-815 for Emergency Catering Services

Ms. Platkin

AshBritt, Inc. (AshBritt) is the national leader in disaster response and recovery operations, and with our team partner Silver Lining Catering, is pleased to respond to the City of Fort Lauderdale's Bid for Emergency Catering Services.

Originally founded as a landscape company, AshBritt's first disaster response was in support of Hurricane Andrew in 1992. Since then, AshBritt has managed and performed more than 400 disaster recovery projects and 31 special environmental projects across the United States since our inception in 1992. We have been directly involved in the disaster recovery efforts of more than 60 federally declared disasters in 20 states. AshBritt is one of only two firms to have been a part of the National Response Framework since 1998 as a debris contractor for the United States Army Corps of Engineers (USACE).

▲ *Emergency Catering and Food Experience*

AshBritt has provided catering and meals ready to eat for multiple clients in the past few years and has summarized a brief overview below.

- Florida Division of Emergency Management in response to COVID-19 (Catered Meal)
- Monroe County, FL for Hurricane Irma (Catered Meal)
- Collier County, FL for Hurricane Irma (Catered Meal)
- The City of Miami Beach, FL for Hurricane Ike (MRE's)
- Victoria County, TX for Hurricane Harvey (MRE's)
- The City of Fort Bend, TX for Hurricane Harvey (MRE's)
- USACE for Hurricane Katrina (Catered Meal)

▲ *Other Recent Emergency Response Experience*

Oregon Wildfires (2020-2021): AshBritt is performing private property debris removal for the Oregon Department of Transportation in Jackson County, OR, and Lane County, OR. These operations include the removal of dead or dying hazardous trees from private property, the removal and disposal of the ash footprint, which consists of metals, ash, and fire debris, concrete, asbestos-containing material, and contaminated soil and residual ash. Once these materials are removed, soil testing is performed on each lot, and if the lot is deemed as clean of all fire debris, then erosion control measures are put in place.

COVID-19 Response (2020-2021): Between the State of Florida, Texas, and Virginia, AshBritt provided over 1,000,000 vaccines, 2,500 monoclonal infusions, cared for 150 COVID patients in alternative care facilities, all while managing over 2,500 employees.

We provided meal service to the state of Florida Division of Emergency Management at two COVID-19 testing sites (Hard Rock Stadium and C.B. Smith Park) in pre-packaged individual grab-and-go meals using food-safe containers.

In the State of Massachusetts, we were tasked with providing 5 medical shelters, totaling 1,911 beds. Each shelter included mobile showers, mobile bathroom trailers, ADA compliant shower and bathroom trailers, potable water, heavy-duty cots, linen service, laundry service, power generation, sleep kits, GFI stringers, and 10x10 ft. partitions.

Hurricane Irma (2017): AshBritt was the disaster response contractor for all of Collier County, Florida, and **provided catering services throughout the project.** Meals were served for breakfast, lunch, and dinner. These services were provided with our subcontracting partner Silver Lining Catering. AshBritt intends on utilizing them as our partner for the City of Fort Lauderdale, FL, if awarded this contract.

AshBritt provided Monroe County with two base camps capable of housing over 1,000 people. Meals were served for breakfast, lunch, and dinner. AshBritt provided a host of other disaster response and recovery-related services for this mission as well. These base camps had full amenities for sleeping, wash stations, and bathrooms.

Hurricane Harvey (2017): AshBritt completed 13 separate disaster missions throughout the state of Texas in response to Hurricane Harvey, where numerous ancillary services were provided to multiple clients, **including meals ready to eat for breakfast, lunch, and dinner.**

▲ *Financial Strength*

AshBritt's current bonding capacity is \$650,000,000. AshBritt underwrote \$100,000,000 during our operation for the United States Army Corps of Engineers (USACE) Hurricane Katrina mission and currently has \$50,000,000 of company working capital.

ASHBRITT INC. RESPONSE TO THE CITY OF FORT LAUDERDALE, FL SOLICITATION 12561-815 FOR EMERGENCY CATERING SERVICES

• *Financial Capability & Resources*

Financial liquidity and an abundance of assets are critical to recovery success. Access to immediate operational funds, and in many cases longer-term credit, is one of the most vital factors in the response and recovery efforts that allow all activities to move forward to a successful project completion.

- **Bonding: Liberty Mutual - \$650 Million**
- **\$50 Million Company Working Capital Available**
- **\$25 Million Working Capital Line of Credit**
- **Underwrote \$100 Million for USACE Katrina Mission**

AshBritt, as the following financial overview illustrates, is financially sound and has the capital strength to accommodate the increased cash flow demands throughout any disaster recovery mission. We possess the financial capacity and ability to assume extensive and substantial expenditures for

prolonged periods (historically exceeding 150 days in some instances) before receiving any funds for our response and recovery services. Following any large-scale, widespread disaster event, the City's resources, infrastructure, and processes may become overwhelmed. Reliable financial support and sound management at this time are vital to this effort.

AshBritt is a proven nationwide disaster response and recovery firm with substantial financial resources, capabilities, and experience. Our historical record and our supporting financial documentation clearly validate these strengths. In the letter from our bonding company, they state:

"It is the privilege of Liberty Mutual Insurance Company to provide surety support for AshBritt, Inc. In the past, AshBritt, Inc. has successfully completed single projects in the \$500,000,000.00 range with an overall program of \$650,000,000.00 US Dollars."

AshBritt possesses one of the most reputable records for ensuring that all of our employees, subcontractors, consultants, and independent contractors are paid in full as expeditiously as possible.

Our billing terms are typically net 30, yet, we have and can "underwrite" funds as necessary to keep any project progressing and on track to serve the best interest of our clients. With our capital reserves and our significant line of credit, as well as the ability to draw on resources from some of our long-standing business partners, we can maintain and finance multiple, large, and extended projects. Our ability to ramp-up and maintain a strong workforce during the Hurricane Sandy (2012) mission in New Jersey and Hurricane Katrina (2005) recovery mission in Louisiana and Mississippi is a solid testament to our financial capabilities. During these events, AshBritt was able to sustain operations that rapidly increased into the hundreds of millions of dollars without receiving any payment from our clients.

Tab 4. Approach to Scope of Work

■ Plan of Approach

The AshBritt Team offers diverse and expandable experience in turn-key operations for food service management and logistical support. We can provide a full-scale kitchen operation of all sizes upon activation. Our food service management staff is certified under the National Restaurant Association SaveServ Program and is capable of meeting the (RFP) requirements for the City of Fort Lauderdale. to provide full-scale catering services for any event that may impact the City.

AshBritt will bring an experienced team capable of scaling to meet the mission at hand, our highly skilled project management team is well versed in food service production, distribution, and service. Experts in food production and service, our culinary staff, maintain stringent guidelines and perform standard cross panned procedures in maintaining food temperatures on serving lines.

Once activated, we will be able to service the designated delivery locations with our mobile equipment to include refrigerated trucks and portable kitchens. Additional equipment required for emergency catering service will be readily accessible by our vendor, immediately delivering the necessary equipment to our sites. Our broad line food vendor(s) activate refrigerated/freezer trailers in the requested locations with a minimum of a 7-day menu.

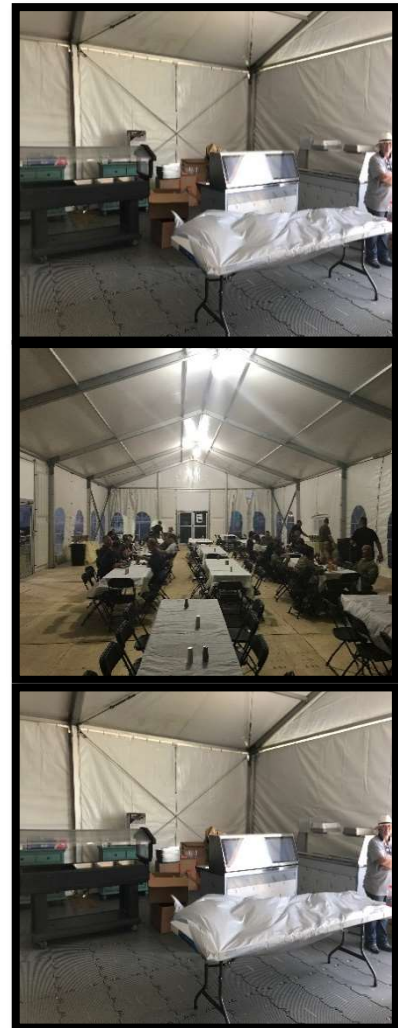

Our scheduled labor matrix goes into effect, and our kitchen layout turns into an assembly line. The hot kitchen begins preparing the hot meal menu items scheduled for the day, and the cold kitchen prepares the cold menu items. If boxed meals are required, the Team prepares, packs, and safeguards prepared package meals at our facility until the scheduled delivery time.

The dining room layout can include tables and tents that will be set up to create an organized line to feed the county employee and emergency workers quickly and efficiently. If required, AshBritt can activate tents and all the necessary equipment to set up a satellite dine-in facility.

Additional staffing levels will be provided to properly feed the buffet style or box lunch style menu. AshBritt's Team of expanding network resources provides limitless capacity and flexibility to manage efficient emergency catering services in multiple locations. Our central commissary will serve as the main hub for food preparations, and additional catering kitchens across South Florida will be available for assistance should the need arise.

Proper sanitation procedures will be consistent for both structured and satellite locations' food services. Adhering to local municipal solid waste and recycling trash ordinance, the AshBritt team will ensure clean and compliance disposal services at all facilities services.

The Ashbritt Team works closely with federal and state agencies like FEMA and USAC, providing accurate and timely records management on all projects.

■ *Technological Capabilities*

• *Caspio*

We utilize the Caspio system as a global cloud platform for creating custom business applications. It is a visual application builder, with interactive reports, data publishing, online forms, and application modules, that allows for integration and extendibility while maintaining security and reliability.

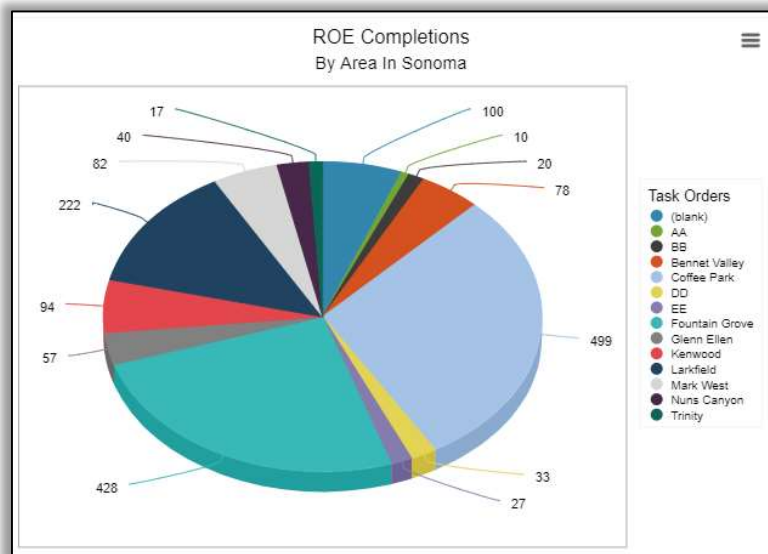

Caspio requires no coding and no development skills and is built on Microsoft SQL Server. What used to take developers weeks or months can now be completed in a matter of hours or days.

Forms are an integral part of this solicitation's operational process. Caspio, allows AshBritt to easily create custom database-driven forms of any level of complexity. Caspio-powered forms are feature-rich and highly versatile. Forms will work on all browsers and devices, and can be configured to use sensors, such as GPS and cameras, in mobile devices.

Moving data into and out of our Caspio account can be easily automated using Caspio's DataHub, with the ability connect to popular online storage services and repositories such as Dropbox, Microsoft OneDrive, Google Drive, Box, Amazon S3, FTP, SFTP, and more.

Whether the application is used by a few people or by thousands, Caspio provides user management capabilities with built-in automation and flexible customization.

For our 2017 Private Property Debris Removal project (Right-of-Entry) work performed for USACE in California, we used Caspio to track all pertinent tasks outlined in the contract scope of work. This system was used to generate work schedules, monitor assignments, track progress and completion. **This program can be utilized to track meals, schedules, deliveries, and other pertinent data in an emergency catering operation.** Accessible through any web browser including mobile devices, data could be easily imported or exported, and the system allows for multiple users.

**ASHBRITT INC. RESPONSE TO THE CITY OF FORT LAUDERDALE, FL
SOLICITATION 12561-815 FOR EMERGENCY CATERING SERVICES****■ Current Workload**

AshBritt has proven with our extensive financial backing and working capital, as well as our organizational framework, that we can provide swift and comprehensive services. This includes supplying all the resources and specialized assets vital to recovery missions. We have demonstrated and proved our capabilities to mobilize to multiple simultaneous events with various resources and specialized services. We have amassed an extensive nationwide network of reputable suppliers, vendors, and subcontractors who are readily available to respond to our missions. Many of these partners are exclusive teaming firms and consultants for AshBritt, with long working histories.

Our emergency catering team has several divisions and several teams per division. Depending on the contract and time of year each division handles many different volumes of business. We currently focus on our local area and in this case Fort Lauderdale is our local area of concern. After Silver Lining's 22 years of catering to the Fort Lauderdale area, they have the proper size facilities, exact vendors in place, and enough resources to properly execute the scope of services.

AshBritt will prioritize the City of Ft. Lauderdale as we are your Disaster Debris Removal and Recovery contractor as well. Therefore, we will have personnel deploying to your City in the event of a disaster event and will be able to have team members on-site and able to provide full service for all scopes of services necessary post-disaster.

AshBritt has no emergency catering operations currently underway and no pending orders for this scope of work. In the event we do receive these activations, we have additional facilities and partners throughout the state that have available kitchens to be utilized if necessary. This allows AshBritt to be prepared to handle contractual obligations from multiple clients.

Tab 6. Minority/Women Participation

■ *Minority Subcontractor Plan*

AshBritt has hundreds of registered recovery-related subcontractors and vendors nationwide, with hundreds in the State of Florida. Subcontractor participation in disaster recovery missions is instrumental to the success of any project. **Having local partners with kitchens and facilities throughout the state is crucial to a rapid response.** It is important that all stakeholders fully appreciate and comprehend the subcontracting plan and compliance controls exercised by the prime contractor. AshBritt takes affirmative steps to assure that Small Business Enterprises (SBE), Disadvantaged Business Enterprises (DBE), Minority-Owned Business Enterprises (MBE), Women-Owned Business Enterprises (WBE), Veteran-Owned Business Enterprise (VBE) are used whenever possible in accordance with the FEMA *Checklist for Reviewing Procurements by Federal Grant Grantees and Subgrantees* (#6) and 2 CFR 215.44b. AshBritt also adheres to the Executive Order 11246 of September 24, 1965, entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 13, 1967, and as supplemented by Department of Labor regulations.

These next sections elaborate upon how we will comply with these laws and regulations. AshBritt has always maintained a solid commitment and plan for the inclusion of local, small, minority, and disadvantaged businesses. More importantly, we have the historical data to substantiate this, as identified below in our Small Business Goal Achievement section. Owing to our long history, we have experience in managing partnerships and joint ventures with both small and large companies throughout complex disaster recovery projects. We pride ourselves on understanding our role as a professional stakeholder within these relationships, and we stay committed to team building and developing quality relationships.

AshBritt makes ongoing efforts to create new subcontractor relationships. We welcome any referrals by local representatives to meet and confer with local subcontractors. It benefits all parties involved to establish relationships and commitments prior to any storm event. AshBritt believes that the best solution is pre-disaster planning for identification and the eventual inclusion of local businesses in the post-event recovery projects. The pre-event planning and relationship building must take place on an annual basis, and any subcontractor lists or relationships will be consistently updated.

• *Commitment*

Our industry is primarily based on subcontractor resources, both firms, and personnel. AshBritt has worked with thousands of subcontractors and individuals over our history. We maintain records and databases of all past subcontractors and employees, and we always encourage new firms and qualified individuals to register and submit resumes through our redesigned website (www.AshBritt.com). We maintain a core group of standby subcontractors who are exclusively available for deployment on AshBritt projects. We engage local, minority, women business enterprises, and other disadvantaged businesses whenever possible.

AshBritt actively ignites positive social-economic changes through the utilization of local contractors and laborers in the communities where we work, providing unique insight and knowledge on local customs, politics, demographics, geography, and area suppliers.

We are committed to giving local firms and individuals the first opportunity for work when it is available. We have accumulated a robust pool of qualified staff reservists across the country by following this practice. All available local resources are beneficial to the rapid, efficient, and successful completion of any recovery project.

Our selection process is broken down into three generic steps: 1) Identification, 2) Qualification, and 3) Deployment. They are as follows:

- **Identification:** The identification of subcontractors is ideally conducted as part of the pre-planning process prior to the event response. Given the unpredictability of disasters, identification of subcontractors, especially those within the City and surrounding affected areas, occurs just after events and often throughout the recovery. In addition to utilizing the pre-identified subcontractors, we use various public and private sources that can garner additional useful and qualified subcontractors. We work toward cataloging all identified firms into our subcontractor database. Our Subcontractor Management System is

ASHBRITT INC. RESPONSE TO THE CITY OF FORT LAUDERDALE, FL SOLICITATION 12561-815 FOR EMERGENCY CATERING SERVICES

a customized web-based computer application that allows for efficient information storage, retrieval, and subsequent ongoing identification of subcontractors from the affected region. A robust and sophisticated set of filtering parameters allows for the efficient culling of relevant data, making our selection process one of the most thorough and rapid screening processes in the industry.

- **Qualification:** Qualification and vetting of viable subcontractors are accomplished through an operational, financial, and administrative review, which includes, but is not limited to, the following:
 1. An initial interview—via phone or in-person
 2. **A review of kitchens, facilities, equipment, and resource list, work history, special qualifications, and capabilities**
 3. A review of applicable Dunn and Bradstreet Reports
 4. An on-site inspection of facilities and equipment, as applicable
 5. An insurance review to ensure current or future contract compliance
 6. A review of the Excluded Party List System (EPLS) now identified as System for Award Management (SAM): www.sam.gov as directed by FEMA Recovery Policy (RP) P9580.212 Public Assistance Grant Contracting FAQ

- **Deployment:** Deployment of subcontractors on an AshBritt mission will take place only after careful consideration, evaluation, and selection by an AshBritt authorized representative. Ultimately, the selection process culminates with the execution of a Subcontract Agreement, either pre-event or post-event. This vetting process is based on the information obtained during the second phase of the hiring process. AshBritt will review in detail the scope of work each local contractor may be asked to perform within the terms of their contract. They will be briefed on all aspects of the operation, including safety rules and regulations, and required toolbox discussions. They will be in attendance at weekly safety meetings, learn to use the tracking system, invoicing procedures, and all facets of AshBritt's response procedures. They will be provided the opportunity to review and ask questions about their Subcontract Agreement (Contract). One aspect of our subcontracting program that sets us apart from many contractors is our method of payment. Often times industry subcontracts are "pay-when-paid" contracts, meaning they only pay their subcontractors when the client pays them. We do not subscribe to this method of subcontractor payment. We know that keeping subcontractors active is key to success, and the best way to do this is to ensure they are paid regularly and on-time. We pay our subcontractors regularly regardless of payment by our client. By doing this, we can ensure that our subcontractors will be satisfied, fluid and will be motivated to work with us. This framework has worked in the past and we are committed to employing this method in this program.

ASHBRITT INC. RESPONSE TO THE CITY OF FORT LAUDERDALE, FL SOLICITATION 12561-815 FOR EMERGENCY CATERING SERVICES

- ***Subcontracting Plans & Agreements***

When utilizing subcontractor resources, it is critical to establish stringent standards and guidelines to protect AshBritt and the City's interests. AshBritt's Base Subcontracting Plan sets performance criteria for all prospective subcontractors. It also works to develop a professional and capable workforce and to promote workforce diversity and the inclusion of small and disadvantaged firms. Most importantly, it ensures real participation of qualified disaster-affected local firms. All potential subcontractors, to perform under an AshBritt contract, must be pre-approved from our resource database, have a favorable evaluation from either a prior AshBritt project or at least three non-AshBritt projects, or the favorable endorsement of the client. All facilities, kitchens, and equipment to be deployed are thoroughly inspected and certified as operationally safe. **Workforce Safety training and food safe handling training are administered when necessary**, and a compliance agreement with all safety policies as mandated by all governing authorities must be acknowledged.

Subcontractors must execute a Subcontractor Agreement, which defines the scope of work, responsibilities, accountabilities, and binds the subcontractor to comply with Federal Acquisition Regulations (FAR) and FEMA regulations, as well as all contract requirements.

Subcontractors must execute a hold harmless agreement indemnifying the City as well as relevant stakeholders. Based on the estimated cost of the project, comprehensive insurance coverage, including worker's compensation, is mandated to cover the estimated amount. A certificate of liability insurance with established limits as mandated by the contract must be submitted before work can commence. Moreover, compliance with all applicable federal, state, and local tax, unemployment compensation, and worker compensation laws is required.

- ***"Small" Business Goal Achievement***

AshBritt subcontracted over 65% of the subcontractor work to small businesses in New Jersey, exceeding our Small Business proposal goal of 40% during the Hurricane Sandy relief efforts.

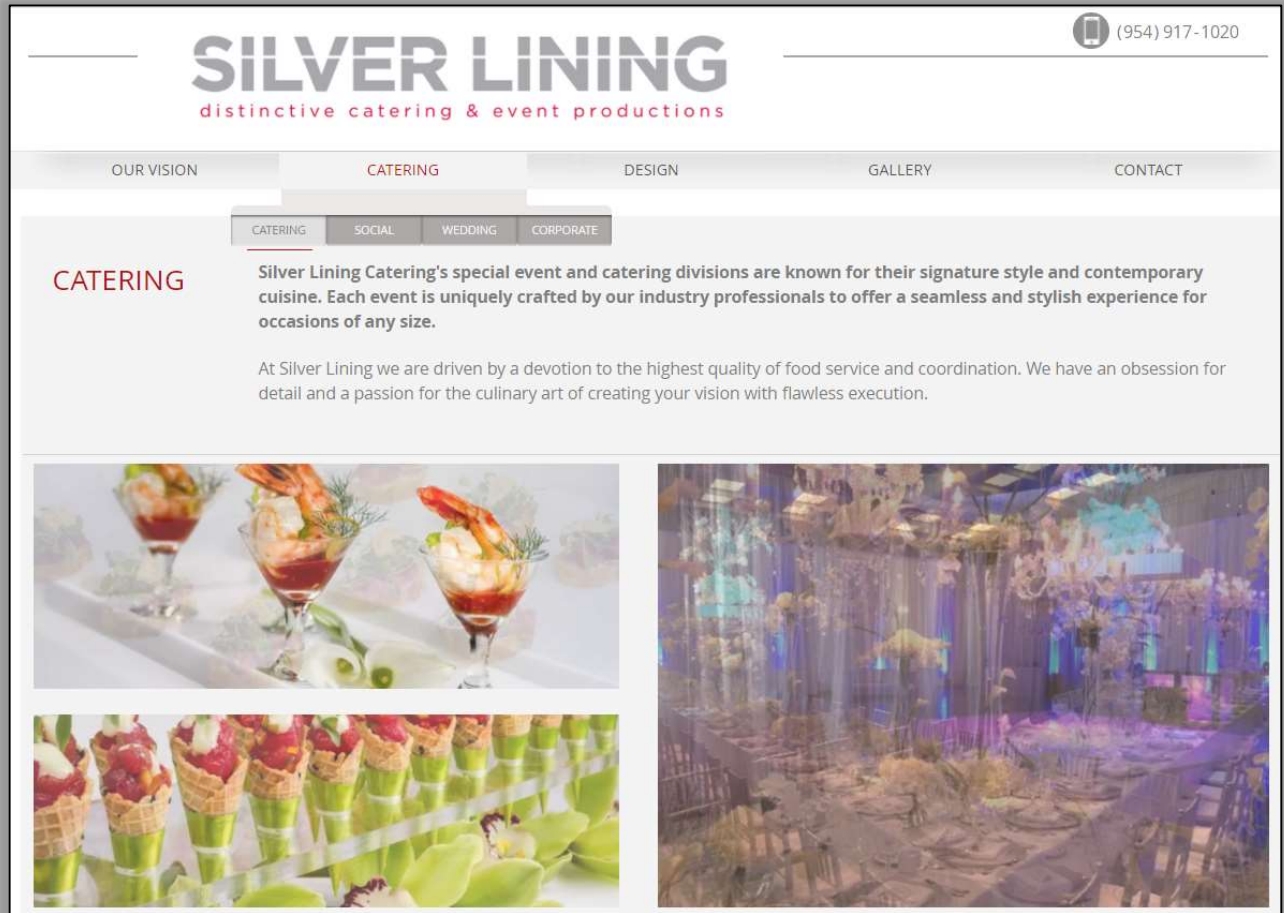

For our 2017/18 California Fire Debris recovery mission, AshBritt's contractually obligated goal for hiring small business concerns, which included HUB Zone SB, SDB, MBE, WOSB, HBCU/MI, and VOSB (including Service-Disabled VOSB) was 75 percent. AshBritt surpassed that goal achieving 97.2 percent small business subcontractor utilization. Throughout our history, AshBritt has had great success in employing HUB/SBE/MBE/WBE and DBE businesses on our past disaster debris management contracts, often exceeding 50 to 60 percent local participation. We have always strived to exceed any expectations for our past clients.

For our Hurricane Katrina recovery, emergency catering, and debris removal mission, AshBritt's contractually obligated goal for hiring small business concerns, which included HUB Zone SB, SDB, MBE, WOSB, HBCU/MI, and VOSB (including Service-Disabled VOSB) was 60 percent. AshBritt surpassed that goal of 60 percent small business subcontractor utilization mark. Throughout our history, AshBritt has had great success in employing HUB/SBE/MBE/WBE and DBE businesses on our past disaster debris management contracts, often exceeding 50 to 60 percent local participation.

AshBritt was once a small business, and we recognize the importance of utilizing disadvantaged businesses including but not limited to, Small Business Enterprises (SBE), Historically Underutilized Businesses (HUB), Disadvantaged Business Enterprises (DBE), Minority-Owned Business Enterprises (MBE), Women-Owned Business Enterprises (WBE), Veteran-Owned Business Enterprise (VBE) to the fullest extent possible in accordance with 2 CFR 200.

Tab 7. Subcontractors
