CHECKLIST FOR SUBMITTAL AND COMPLETENESS: The following outlines the necessary items for submittal to ensure the application is deemed complete. Failure to provide this information will result in your application being deemed **incomplete**.

- Preliminary Development Meeting** completed on the following date: August 4, 2025
- Development Application Form** completed with the applicable information including signatures.
- Proof of Ownership** warranty deed or tax record including corporation documents and SunBiz verification name.
- Address Verification Form** that includes all parcels within the proposed development.
- Project and Unified Land Development Code Narratives** project narrative and the applicable ULDR sections and criteria as described in the specifications for submittal by application type.
- Electronic Files, File Naming, and Documents** consistent with the applicable specifications for application type, consistent with the online submittal requirements including file naming convention, plan sets uploaded as single pdf.
- Traffic Study or Statement** submittal of a traffic study or traffic statement.
- Stormwater Calculations** signed and sealed by a Florida registered professional engineer consistent with calculations as described in the specifications for plan submittal for site plan applications.
- Water and Wastewater Capacity Request** copy of email to Public Works requesting the capacity letter.

OVERVIEW FOR ONLINE SUBMITTAL REQUIREMENTS: Submittals must be conducted through [LauderBuild](#). No hardcopy application submittals are accepted. Below only highlights the important submittal requirements that applicants must follow to submit online and be deemed complete. View all the requirements at [LauderBuild Plan Room](#).

- **Uploading Entire Submittal** upload all documents at time the application is submitted to prevent delay in processing.
- **File Naming Convention** file names must adhere to the City's [File Naming Convention](#).
- **Reduce File Size** plan sets and other large files must be merged or flattened to reduce file size.
- **Plan Sets** plan sets like site plans, plats, etc. must be submitted as a single pdf file. Staff will instruct when otherwise.
- **Document Categories** choose the correct document category when uploading.

**RE: ULDR Narrative for Weston Jewelers Site Plan
DRC Case No. UDP-SR25001
Site Plan Level IV Review: Rezoning from Residential Multifamily Mid Rise/
Medium High Density (RMM-25) to Community Business (CB) with Allocation of
0.135 of Commercial Acreage with 25,270 Square Foot Retail Use and 14,079 Square
Foot Office Use, and Parking Reduction**

This firm represents the Applicant, FOUR TEN PROPERTIES LLC, owner of 1117 E Las Olas Boulevard and 221 SE 12th Avenue #1-5, Fort Lauderdale, FL 33301, Folio Nos. 504211071020 and 504211070960, (the “Property”). The Property is generally located north of Las Olas Boulevard, south of SE 2nd Court between the Himmarshee Canal on the west and SE 12th Avenue to the east. The Property is currently improved with a 1- and 2-story multifamily residential building and 1- and 2-story commercial building to the south.

Applicant proposes redeveloping the Property with the Weston Jewelers on Las Olas (“Weston Jewelers” or “Project”), a five-story (74’-0” to top of roof) luxury commercial building consisting of 25,270 square feet of retail use and 14,079 square feet of office use. A parking reduction is requested based on the varying peak demand periods of the proposed uses and the availability of public parking in the surrounding area.

The Property is currently zoned Residential Multifamily Mid Rise-Medium High Density (“RMM-25”) and Boulevard Business (“B-1”), with corresponding future land use designations of Residential Medium and Commercial. To accommodate the proposed commercial development, Applicant is requesting to rezone the northern 0.135-acre portion of the Property from RMM-25 to Community Business (“CB”) and allocate 0.135 acres of commercial flex acreage. Additionally, Applicant is requesting a vacation of a right-of-way (alley) and storm drainage easement under Case Nos. UDP-V25008 and UDP-EV25006.

As further detailed in the Project Description, the ground level incorporates thoughtfully designed hardscape pavers and an extended wood deck along the western edge, creating an inviting pedestrian connection through the site. This is supported by clearly defined pedestrian pathways, including a 6-foot-wide clear sidewalk along both E Las Olas Boulevard and SE 12th Avenue, and a 5-foot-wide clear sidewalk along SE 2nd Court. The building is characterized by a predominantly glazed façade, softened by integrated terraces, extended planters, and material accents that reduce visual massing and contribute to a high-quality, pedestrian-oriented streetscape.

**Weston Jewelers - UDP-SR25001
ULDR Narrative**

The following responses demonstrate the Project's compliance with the applicable Unified Land Development Regulations ("ULDR").

UNIFIED LAND DEVELOPMENT REGULATIONS ANALYSIS

Provided below is a point-by-point analysis the ULDR criteria applicable to the Project:

**ULDR Section 47-23.8, Waterway Use;
ULDR Section 47-24.4.D, Rezoning Criteria;
ULDR Section 47-8.G.1.d, Flexibility Criteria;
ULDR Section 47-25.2, Adequacy Requirements; and
ULDR Section 47-25.3, Neighborhood Compatibility Requirements**

Sec. 47-23.8. Waterway Use.

- A. Buildings and land uses on parcels abutting waterways in nonresidential districts and in multifamily districts shall be designed to preserve the character of the city and neighborhood in which they are located, harmonize with other development in the area, and protect and enhance the scenic quality and tranquility of the waterways. Special provisions are needed to realize these objectives, which can be stated only in general terms, and at the same time permit a reasonable use of land and depend on details of design of the buildings, appurtenances, yards and landscaping and their relation to the waterway and other uses on the waterway.

RESPONSE: Acknowledged.

- B. For purposes of this Section 47-23.8, "on a waterway" means a development site which abuts a waterway. This section shall not apply to development within the downtown RAC, except for development within the RAC-RPO district, and shall not apply to the central beach area districts. Any proposed nonresidential or multifamily use on a waterway shall require a site plan level III development permit, as provided in Section 47-24, Development Permits and Procedures. The application shall include all elevations visible from the waterfront. A use on a waterway shall, in addition to all other requirements of the ULDR, meet the requirements as follows:

1. A twenty-foot landscaped yard is required adjacent to the existing bulkhead line. The required twenty-foot yard shall not be used or developed for any purpose other than landscaping and the minimum amount of driveways or walkways reasonably necessary to serve permitted nonresidential or multifamily waterfront uses, unless specifically approved by the planning and zoning board. The twenty-foot yard shall not apply to marinas or yacht clubs.

RESPONSE: In alignment with other surrounding existing projects (Case Nos. 26-R-97/Villagio di Las Olas and 13-ZR-97/94-R-07 / Himmarshee Landings), Applicant is requesting a minimum waterway yard of 0 feet from the building to the property line fronting the waterway for Planning & Zoning Board consideration due to the narrowness of the Property.

Weston Jewelers - UDP-SR25001
ULDR Narrative

2. Review of Neighborhood Compatibility, Scale, Bulk and Mass, as provided in Section 47-25.3.A.3.e.i.

RESPONSE: It should be noted that the CB and B-1 zoning districts allow a maximum height of 150 feet. In contrast, the Project is proposed at 74'-0" (to the top of roof) across five stories, down from the originally submitted 90 feet. This reduced scale is consistent with other waterway-adjacent developments in the immediate area which also have reduced waterway yards. For example, Villagio di Las Olas (49'-8" / five stories) and Himmarshee Landing (82'-2" / five stories) establish a mid-rise character along this portion of the waterway and have similarly been approved with waterway yard modifications.

- C. Any property zoned B-2, B-3 or I which abuts a waterway shall be used for a marina, a hotel marina, or a shipyard, where such uses are permitted within the B-2, B-3 or I zoning districts.

RESPONSE: Not applicable.

Sec. 47-24.4.D. – Rezoning Criteria.

1. The zoning district proposed is consistent with the City's Comprehensive Plan.

RESPONSE: The property has a Medium-High Residential future land use designation. Future Land Use Element Policy 1.1.12 permits office and retail uses on properties with a residential future land use designation, subject to the allocation of commercial flexibility acreage supported by Objective FLU 1.2 regarding the utilization of flexibility rules and Policy 1.2.3a regarding permitting area with a residential land use to be used for neighborhood commercial uses. Once commercial flexibility is allocated, the proposed CB zoning district will be consistent with the City's Comprehensive Plan.

2. The changes anticipated by the proposed rezoning will not adversely impact the character of development in or near the area under consideration.

RESPONSE: The rezoning to CB will not adversely impact the character of the surrounding area. The Las Olas Boulevard corridor is generally characterized by commercial uses facing Las Olas Boulevard and parking along SE 2nd Street. The CB zoning district is intended to meet the shopping and service needs of the community. The size and scale of development and allowable uses within the CB district are intended to limit impact on the surrounding residential neighborhoods to be served by the commercial business. The CB district is located on collector and arterial streets, providing for both vehicular and pedestrian traffic.

3. The character of the area proposed is suitable for the uses permitted in the proposed zoning district and is compatible with surrounding districts and uses.

RESPONSE: The proposed rezoning to CB is compatible with the surrounding districts and uses. Located to the south and east is the Las Olas Boulevard commercial corridor with a 5-story mixed use residential/commercial/office building and 1-story commercial buildings. To the north side of SE 2nd Court are single-family dwellings and a 4-story multifamily residential building. To the west of the Property is the Himmarshee Canal abutting a 5-story mixed use residential/commercial building.

Weston Jewelers - UDP-SR25001
ULDR Narrative

Please refer to Table 1 below for a general comparison of permitted uses in the RMM-25 and CB zoning districts. For a detailed list of uses within the CB zoning district, refer to ULDR Section 47- 6.10., List of Permitted and Conditional Uses, Community Business (CB) District. Refer to Table 2 below for a comparison of dimensional requirements between the RMM-25 and CB zoning district.

Table 1. General Comparison of Permitted Uses

Existing Zoning District (RMM-25)	Proposed Zoning District (CB)
Residential Uses	Automotive
Public Purpose Facilities	Boats, Watercraft and Marinas
Child Daycare Facilities	Commercial Recreation
Nursing Home Facilities	Food and Beverage Service
Accessory Uses, Buildings and Structures	Lodging
Urban Agriculture	Public Purpose Facilities
<i>Conditional Uses</i>	Retail Sales
Community Residents	Services/Office Facilities
Lodging	Accessory Uses, Buildings and Structures
Mixed-Use Development	<i>Conditional Uses</i>
House of Worship	Marina
School	Mixed Use Developments
Social Service Residential Facility	Social Service Residential Facility
Small and Intermediate Child Daycare Facility	Hospital
	Adult Gaming Center
	Nursing Home

Table 2. Comparison of Dimensional Requirements

Requirements	Existing Zoning RMM-25	Proposed Zoning CB
Max. Building Height	55'	150'
Min. Front Yard	25'	5'
Min. Side Yard	5'	0'
When Abutting Residential	None	10'
Min. Rear Yard	15'	0'
When Abutting Residential	None	15'
Corner Yard	25% of lot width, not less than 10', not greater than 25'	5'

Weston Jewelers - UDP-SR25001

ULDR Narrative

Sec.47-8.G.1.d. – Flexibility Criteria.

E. *Allocation of nonresidential flex acreage on residential, employment center, and industrial land use designated parcels.*

1. The city may permit commercial uses on a parcel with a residential land use designation subject to the following conditions:

a. Rezoning of the development site to community business (CB) only, or to exclusive use (X-Use); and

RESPONSE: The RMM-25 portion of the Property is proposed to be rezoned to CB to allow the proposed commercial use.

b. No more than five (5) percent of the total area within the citywide flex zone that is designated residential on the city's plan may be rezoned to CB or X-Use; and

RESPONSE: Per the City's latest published City Unified Flex Allocation Table, there is 515.30-acres of 5% residential to commercial acreage available for allocation. As such, the request to allocate 0.135-acres of commercial flex acreage to the Property is permitted.

c. The parcel proposed for CB or X-Use use shall not be greater than ten (10) contiguous acres;

RESPONSE: The RMM-25 portion of the Property proposed to be rezoned to CB is 0.135-acres and therefore complies.

d. Development applications for mixed use shall meet the provisions of Section 47-18.21, Mixed Use Development; and

RESPONSE: The Project is not considered mixed use development per the City's definition provided in ULDR Section 47-18.21 as no residential component is proposed.

e. Site Plan Level IV development permit approval in accordance with Section 47-24.2, and Rezoning in accordance with Section 47-24.4, Development Permits and Procedures.

RESPONSE: Applicant submitted a Site Plan Level IV development application in accordance with ULDR Sections 47-24.2 and 47-24.4.

Weston Jewelers - UDP-SR25001
ULDR Narrative

Sec. 47-25.2. - Adequacy requirements.

- A. *Applicability.* The adequacy requirements set forth herein shall be used by the city to evaluate the demand created on public services and facilities created by a proposed development permit.

RESPONSE: Acknowledged.

- B. *Communications network.* Buildings and structures shall not interfere with the city's communication network. Developments shall be modified to accommodate the needs of the city's communication network, to eliminate any interference a development would create or otherwise accommodate the needs of the city's communication network within the development proposal.

RESPONSE: The Project is not expected to interfere with the City's communications network.

- C. *Drainage facilities.* Adequacy of stormwater management facilities shall be evaluated based upon the adopted level of service requiring the retention of the first inch of runoff from the entire site or two and one-half (2½) inches of runoff from the impervious surface whichever is greater.

RESPONSE: The Project will receive a stormwater management permit from Broward County prior to commencing construction of the Project.

- D. *Environmentally sensitive lands.*

1. In addition to a finding of adequacy, a development shall be reviewed pursuant to applicable federal, state, regional and local environmental regulations. Specifically, an application for development shall be reviewed in accordance with the following Broward County Ordinances which address environmentally sensitive lands and wellfield protection which ordinances are incorporated herein by reference:

- a. Broward County Ordinance No. 89-6.
- b. Section 5-198(I), Chapter 5, Article IX of the Broward County Code of Ordinances.
- c. Broward County Ordinance No. 84-60.

2. The applicant must demonstrate that impacts of the proposed development to environmentally sensitive lands will be mitigated.

RESPONSE: The Project is not expected to impact any environmentally sensitive lands.

- E. *Fire protection.* Fire protection service shall be adequate to protect people and property in the proposed development. Adequate water supply, fire hydrants, fire apparatus and facilities shall be provided in accordance with the Florida Building Code, South Florida Fire Code and other accepted applicable fire and safety standards.

RESPONSE: Acknowledged, the Project will comply with the Florida Building Code, South Florida Fire Code and other accepted applicable fire and safety standards.

- F. *Parks and open space.*

1. The manner and amount of providing park and open space is as provided in Section 47-38A, Park Impact Fees, of the ULDR.
2. No building permit shall be issued until the park impact fee required by Section 47-38A of the ULDR has been paid in full by the applicant.

RESPONSE: N/A, the Project is not a residential development.

Weston Jewelers - UDP-SR25001
ULDR Narrative

G. *Police protection.* Police protection service shall be adequate to protect people and property in the proposed development. The development shall provide improvements which are consistent with Crime Prevention Through Environmental Design (CPTED) to minimize the risk to public safety and assure adequate police protection.

RESPONSE: Applicant's design incorporates CPTED principles to minimize risk to public safety and assure adequate police protection.

H. *Potable water.*

1. Adequate potable water service shall be provided for the needs of the proposed development. The proposed development shall be designed to provide adequate areas and easements which may be needed for the installation and maintenance of potable water systems in accordance with city engineering standards, the Florida Building Code, and applicable health and environmental regulations. The existing water treatment facilities and systems shall have sufficient capacity to provide for the needs of the proposed development and for other developments in the service area which are occupied, available for occupancy, for which building permits are in effect or for which potable water treatment capacity has been reserved. Capital expansion charges for water and sewer facilities shall be paid by the developer in accordance with Resolution 85-265, as it is amended from time to time. Improvements to the potable water service and system shall be made in accordance with city engineering standards and other accepted applicable engineering standards.

2. *Potable water facilities.*

- a. If the system is tied into the city treatment facility, the available capacity shall be determined by subtracting committed capacity and present flow from design capacity. If there is available capacity, the city shall determine the impact of the proposed development utilizing Table 3, Water and Wastewater, on file with the department.
- b. If there is adequate capacity available in the city treatment plant to serve the proposed development, the city shall reserve the necessary capacity to serve the development.
- c. Where the county is the projected service provider, a similar written assurance will be required.

RESPONSE: Refer to Water and Sewer Capacity Availability Determination dated September 22, 2025 confirming the existing water and sewer infrastructure have the capacity to support the proposed development and no improvements are needed.

I. *Sanitary sewer.*

1. If the system is tied into the city treatment facility, the available capacity shall be determined by subtracting committed capacity and present flow from the design capacity. If there is available capacity, the city shall determine the impact of the proposed development utilizing Table 3, Water and Wastewater, on file with the department.
2. If there is adequate capacity available in the city treatment plant to serve the proposed development, the city shall reserve the necessary capacity to serve the proposed development.
3. Where the county is the projected service provider, a written assurance will be required.
4. Where septic tanks will be utilized, the applicant shall secure and submit to the city a certificate from the Broward County Health Unit that certifies that the site is or can be made suitable for an on-site sewage disposal system for the proposed use.

Weston Jewelers - UDP-SR25001
ULDR Narrative

RESPONSE: Refer to Water and Sewer Capacity Availability Determination dated September 22, 2025 confirming the existing water and sewer infrastructure have the capacity to support the proposed development and no improvements are needed.

- J. *Schools.* For all development including residential units, the applicant shall be required to mitigate the impact of such development on public school facilities in accordance with the Broward County Land Development Code or section 47-38C. Educational Mitigation, as applicable and shall provide documentation to the city that such education mitigation requirement has been satisfied.

RESPONSE: Rezoning application. The Applicant will comply at time of Site Plan approval as applicable.

- K. *Solid waste.*

1. Adequate solid waste collection facilities and service shall be obtained by the applicant in connection with the proposed development and evidence shall be provided to the city demonstrating that all solid waste will be disposed of in a manner that complies with all governmental requirements.
2. *Solid waste facilities.* Where the city provides solid waste collection service and adequate service can be provided, an adequacy finding shall be issued. Where there is another service provider, a written assurance will be required. The impacts of the proposed development will be determined based on Table 4, Solid Waste, on file with the department.

RESPONSE: Acknowledged.

- L. *Stormwater.* Adequate stormwater facilities and systems shall be provided so that the removal of stormwater will not adversely affect adjacent streets and properties or the public stormwater facilities and systems in accordance with the Florida Building Code, city engineering standards and other accepted applicable engineering standards.

RESPONSE: Stormwater will be retained on site in accordance with the Broward County Department of Environmental Regulations criteria.

- M. *Transportation facilities.*

1. The capacity for transportation facilities shall be evaluated based on Table 1, Generalized Daily Level of Service Maximum Volumes, on file with the department. If a development is within a compact deferral area, the available traffic capacity shall be determined in accordance with Table 2, Flowchart, on file with the department.
2. *Regional transportation network.* The regional transportation network shall have the adequate capacity, and safe and efficient traffic circulation to serve the proposed development. Adequate capacity and safe and efficient traffic circulation shall be determined by using existing and site-specific traffic studies, the adopted traffic elements of the city and the county comprehensive plans, and accepted applicable traffic engineering standards. Site-specific traffic studies may be required to be made and paid for by the applicant when the city determines such a study is needed in order to evaluate the impacts of the proposed development on proposed or existing roadways as provided for in subsection M.4. An applicant may submit such a study to the city which will be considered by the DRC in its review. Roadway improvements needed to upgrade the regional transportation network shall be made in accordance with the city, the county, and Florida Department of Transportation traffic engineering standards and plans as applicable.
3. *Local streets.* Local streets shall have adequate capacity, safe and efficient traffic circulation, and appropriate functional classification to serve the proposed development. Adequate

Weston Jewelers - UDP-SR25001
ULDR Narrative

capacity and safe and efficient traffic circulation shall be determined by using existing and site-specific traffic studies, the city's comprehensive plan and accepted applicable traffic engineering standards. Site-specific traffic studies may be required to be made and paid for by the applicant when the city determines such a study is required in order to evaluate the impact of the proposed development on proposed or existing roadways as provided for in subsection M.4. An applicant may submit to the city such a study to be considered as part of the DRC review. Street improvements needed to upgrade the capacity or comply with the functional classification of local streets shall be made in accordance with the city engineering standards and acceptable applicable traffic engineering standards. Local streets are those streets that are not classified as federal, state or county roadways on the functional classification map adopted by the State of Florida.

4. *Traffic impact studies.*
 - a. When the proposed development may generate over one thousand (1,000) daily trips; or
 - b. When the daily trip generation is less than one thousand (1,000) trips; and (1) when more than twenty percent (20%) of the total daily trips are anticipated to arrive or depart, or both, within one-half (½) hour; or (2) when the proposed use creates varying trip generation each day, but has the potential to place more than twenty percent (20%) of its maximum twenty-four (24) hour trip generation onto the adjacent transportation system within a one-half (½) hour period; the applicant shall submit to the city a traffic impact analysis prepared by the county or a registered Florida engineer experienced in trafficways impact analysis which shall:
 - i. Provide an estimate of the number of average and peak hour trips per day generated and directions or routes of travel for all trips with an external end.
 - ii. Estimate how traffic from the proposed development will change traffic volumes, levels of service, and circulation on the existing and programmed trafficways.
 - iii. If traffic generated by the proposed development requires any modification of existing or programmed components of the regional or local trafficways, define what city, county or state agencies have programmed the necessary construction and how this programming relates to the proposed development.
 - iv. A further detailed analysis and any other information that the review committee considers relevant.
 - v. The traffic impact study may be reviewed by an independent licensed professional engineer contracted by the city to determine whether it adequately addresses the impact and the study supports its conclusions. The cost of review by city's consultant shall be reimbursed to the city by the applicant.
 - vi. When this subsection M.4.b. applies, the traffic study shall include an analysis of how the peak loading will affect the transportation system including, if necessary, an operational plan showing how the peak trips will be controlled and managed.

RESPONSE: Refer to Traffic Statement dated February 27, 2026. The Project is expected to produce less than 1,000 net new vehicle trips as shown in Tables 1 and 2.

5. *Dedication of rights-of-way.* Property shall be conveyed to the public by plat, deed or grant of easement as needed in accordance with the Broward County Trafficways Plan, the city's comprehensive plan, subdivision regulations and accepted applicable traffic engineering standards.

Weston Jewelers - UDP-SR25001
ULDR Narrative

RESPONSE: Acknowledged. Applicant will coordinate with the City on any required dedications of rights-of-way by easement.

6. *Pedestrian facilities.* Sidewalks, pedestrian crossing and other pedestrian facilities shall be provided to encourage safe and adequate pedestrian movement on-site and along roadways to adjacent properties. Transit service facilities shall be provided for as required by the city and Broward County Transit. Pedestrian facilities shall be designed and installed in accordance with city engineering standards and accepted applicable engineering standards.

RESPONSE: N/A to rezoning application.

7. *Primary arterial street frontage.* Where a proposed development abuts a primary arterial street either existing or proposed in the trafficways plan, the development review committee (DRC) may require marginal access street, reverse frontage with screen planting contained in a nonaccess reservation along the rear property line, deep lots with or without rear service alleys, or such other treatment as may be necessary for adequate protection of residential properties and to assure separation of through and level traffic.

RESPONSE: The Project includes sidewalks along all street frontages.

8. *Other roadway improvements.* Roadways adjustments, traffic control devices, mechanisms, and access restrictions may be required to control traffic flow or divert traffic, as needed to reduce or eliminate development generated traffic.

RESPONSE: N/A

9. *Street trees.* In order to provide for adequate landscaping along streets within the city, street trees shall be required along the length of the property abutting a street. A minimum of fifty percent (50%) of the required street trees shall be shade trees, and the remaining street trees may be provided as flowering or palm trees. These percentages may be varied based on existing or proposed physical conditions which may prevent the ability to comply with the street tree requirements of this subsection. The street trees shall be planted at a minimum height and size in accordance with the requirements of Section 47-21, Landscape and Tree Preservation Requirements, except in the downtown RAC districts the requirements of Sec. 47-13.20.H.8 shall apply. The location and number of street trees shall be determined by the department based on the height, bulk, mass and design of the structures on the site and the proposed development's compatibility to surrounding properties. The requirements for street trees, as provided herein, may be located within the public right-of-way as approved by the entity with jurisdiction over the abutting right-of-way.

RESPONSE: Project complies. Refer to Landscaping Plans.

N. *Wastewater.*

1. *Wastewater.* Adequate wastewater services shall be provided for the needs of the proposed development. The proposed development shall be designed to provide adequate areas and easements which may be needed for the installation and maintenance of a wastewater and disposal system in accordance with applicable health, environmental and engineering regulations and standards. The existing wastewater treatment facilities and systems shall have adequate capacity to provide for the needs of the proposed development and for other developments in the service area which are occupied, available for occupancy, for which building permits are in effect or for which wastewater treatment or disposal capacity has been reserved. Capital expansion charges for water and sewer facilities shall be paid by the developer in accordance with Resolution 85-265, as it is amended for time to time. Improvements to the wastewater facilities and system shall be made in accordance with the city engineering and accepted applicable engineering standards.

Weston Jewelers - UDP-SR25001
ULDR Narrative

RESPONSE: Refer to Water and Sewer Capacity Availability Determination dated September 22, 2025 confirming the existing water and sewer infrastructure have the capacity to support the proposed development and no improvements are needed.

- O. *Trash management requirements.* A trash management plan shall be required in connection with non-residential uses that provide prepackaged food or beverages for off-site consumption. Existing non-residential uses of this type shall adopt a trash management plan within six (6) months of the effective date of this provision.

RESPONSE: Acknowledged and will comply.

- P. *Historic and archaeological resources.*

1. If a structure or site has been identified as having archaeological or historical significance by any entity within the State of Florida authorized by law to do same, the applicant shall be responsible for requesting this information from the state, county, local governmental or other entity with jurisdiction over historic or archaeological matters and submitting this information to the city at the time of, and together with, a development permit application. The reviewing entity shall include this information in its comments.

RESPONSE: No structures have been identified on the Property as having archaeological or historical significance by the City of Fort Lauderdale, Broward County, or State of Florida.

- Q. *Hurricane evacuation.* If a structure or site is located east of the Intracoastal Waterway, the applicant shall submit documentation from Broward County or such agency with jurisdiction over hurricane evacuation analysis either indicating that acceptable level of service of hurricane evacuation routes and hurricane emergency shelter capacity shall be maintained without impairment resulting from a proposed development or describing actions or development modifications necessary to be implemented in order to maintain level of service and capacity.

RESPONSE: N/A, the Property is not located east of the Intracoastal Waterway.

Sec. 47-25.3. Neighborhood Compatibility Requirements.

- A. The neighborhood compatibility requirements are as follows:

1. *Adequacy requirements.* See Sec. 47-25.2.

RESPONSE: Refer to point-by-point narrative addressing the adequacy requirements.

2. *Smoke, odor, emissions of particulate matter and noise.*

- a. Documentation from the Broward County Department of Natural Resource Protection (DNRP) or a report by a certified engineer, licensed in the State of Florida, that the proposed development will not exceed the maximum levels of smoke, odor, emissions of particulate matter and noise as regulated by Chapter 27, Pollution Control, of the Code of Broward County, and that a DNRP permit for such facility is not required.
- b. Where a DNRP license is required in accordance with Chapter 27, Pollution Control, of the Code of Broward County, all supporting documentation and information to obtain such permit shall be submitted to the DRC as part of a site plan review.
- c. Such DNRP licenses shall be required to be issued and copies provided to the city prior to the issuance of a building permit for the proposed development.

Weston Jewelers - UDP-SR25001
ULDR Narrative

RESPONSE: To the extent any Environmental Protection and Growth Management (formerly known as DNRP) permits are needed, Applicant will apply and obtain such permits.

3. *Design and performance standards.*

- a. *Lighting.* No lighting shall be directed from a use which is subject to the requirements of this Sec. 47-25.3 in a manner which illuminates abutting residential property and no source of incandescent or mercury vapor illumination shall be directly visible from any abutting residential property. No neon lights inside or outside structures shall be visible from any abutting residential property.
- i. Glare. Any nonresidential operation or activity producing glare shall be conducted so that direct or indirect illumination of light shall not cause illumination in excess of one (1) footcandle on any abutting residential property except as provided in subsection iii. of this subsection a.
 - ii. Control of effects of lights from automobiles or other sources. Where the site plan indicates potential adverse effects of parking or of other sources on the lot on which the nonresidential use is to be located, such effects shall be eliminated or at a minimum prevented so that lights do not illuminate adjacent residential property below a height of five (5) feet at the residential lot line, or from shining into any residential window if there is to be nonresidential parking on the premises after dark.
 - iii. In addition to the above, parking lots and garages will be subject to the provisions of Sections 47-20.14 and if in conflict with the provisions of this section, the more restrictive provisions shall apply.

RESPONSE: N/A, the Project does not abut residential properties.

- b. *Control of appearance.* The following design standards are provided to protect the character of abutting residential areas from the visual impact which may result from a use which is subject to the requirements of this Sec. 47-25.3.
- i. *Architectural features.* The facade of any side of a nonresidential building facing the residential property shall be constructed to compliment a residential structure and shall include the following:
 - a) Fenestration such as windows, doors and openings in the building wall;
and
 - b) Shall contain a minimum of one (1) feature from each of the following architectural feature groups with a total of four (4) architectural features from the following list:
 1. Detail and embellishments:
 - a. Balconies,
 - b. Color and material banding,
 - c. Decorative metal grates over windows,
 - d. Uniform cornice heights,
 - e. Awnings.
 2. Form and mass:
 - a. Building mass changes including projection and recession,

Weston Jewelers - UDP-SR25001
ULDR Narrative

b. Multiple types and angles of roofline, or any combination thereof.

c) The above required facade treatment shall be required to continue around the corner onto the adjoining wall for a distance of twenty (20) feet.

RESPONSE: N/A, the Project does not abut residential properties.

ii. *Loading facilities.* Loading and service facilities shall be screened so as not to be visible from abutting residential uses or vacant residential zoned property.

RESPONSE: N/A, the Project does not abut residential properties.

iii. *Screening of rooftop mechanical equipment.* All rooftop mechanical equipment, stair and elevator towers shall be designed as an integral part of the building volume and shall be required to be screened with material that matches the material used for the principal structure and shall be at least as high as six (6) inches above the top most surface of the roof mounted structure.

RESPONSE: N/A, the Project does not abut residential properties.

c. *Setback regulations.* When a nonresidential use which is subject to the requirements of this Sec. 47-25.3 is contiguous to any residential property, there shall be an additional setback required for any yard of that use which is contiguous to the residential property, as follows:

i. When any side of a structure greater in height than forty (40) feet is contiguous to residential property, that portion of the structure shall be set back one (1) foot for each one (1) foot of building height over forty (40) feet up to a maximum width equal to one-half (½) the height of the building, in addition to the required setback, as provided in the district in which the proposed nonresidential use is located.

RESPONSE: N/A, the Project does not abut residential properties.

d. *Bufferyard requirements.* Excluding parks, open space and conservation areas, when a use which is subject to the requirements of this Sec. 47-25.3 is contiguous to any residential property, the property where the use is located shall be required to have a landscaped strip area and a physical barrier between it and the residential property. Such landscape strip shall meet the following requirements:

i. *Landscape strip requirements.* A ten (10) foot landscape strip shall be required to be located along all property lines which are adjacent to residential property. Such landscape strip shall include trees, shrubs and ground cover as provided in the landscape provisions of Section 47-21, Landscape and Tree Preservation Requirements. The width of the landscape area shall extend to the property line. All required landscaping shall be protected from vehicular encroachment. When walls are required on nonresidential property abutting an alley, required shrubbery shall be installed and located within the landscape area on the exterior of the wall.

RESPONSE: N/A, the Project is not contiguous to residential property as defined in the ULDR.

Weston Jewelers - UDP-SR25001
ULDR Narrative

- ii. *Parking restrictions.* No parking shall be located within twelve (12) feet of the property line, within the yard area required by the district in which the proposed nonresidential use is located, when such yard is contiguous to residential property.

RESPONSE: N/A, the Project is not contiguous to residential property as defined in the ULDR.

- iii. *Dumpster regulations.* All solid waste refuse containers (dumpsters) shall be set back a minimum of twelve (12) feet from any property line which is contiguous to residential property, and shall be screened in accordance with the Dumpster requirements, as provided in Section 47-19, Accessory Uses, Buildings and Structures.

RESPONSE: Acknowledged.

- iv. *Wall requirements.* A wall shall be required on the nonresidential property, a minimum of five (5) feet in height, constructed in accordance with Section 47-19.5 and subject to the following:

- a) Decorative features shall be incorporated on the residential side of such wall according to the requirements of Section 47-19.5,
- b) Shall be located within, and along the length of the property line which abuts the residential property,
- c) When the nonresidential property is located adjacent to an alley such wall shall be located at least five (5) feet from the right-of-way line located closest to the nonresidential property,
- d) When a utility, or other public purpose easement, on the nonresidential property precludes the construction of a wall, then an opaque fence, constructed in accordance with the standards described in Section 47-19.5, may be erected in lieu of the wall required by subsection iv. above. The use of an opaque fence as a physical barrier between nonresidential and residential property shall be reviewed and recommended by the city engineer.

RESPONSE: N/A, the Project is not contiguous to residential property as defined in the ULDR.

- v. *Application to existing uses.* [intentionally omitted]

- e. *Neighborhood compatibility and preservation.* In addition to the review requirements provided in subsections A.1, A.2 and A.3.a, b, c, and d, the following review criteria shall also apply as provided below:

- i. All developments subject to this Sec. 47-25.3 shall comply with the following:
 - a) Development will be compatible with, and preserve the character and integrity of adjacent neighborhoods, the development shall include improvements or modifications either on-site or within the public rights-of-way to mitigate adverse impacts, such as traffic, noise, odors, shadow, scale, visual nuisances, or other similar adverse effects to adjacent

Weston Jewelers - UDP-SR25001
ULDR Narrative

neighborhoods. These improvements or modifications may include, but shall not be limited to, the placement or orientation of buildings and entryways, parking areas, bufferyards, alteration of building mass, and the addition of landscaping, walls, or both, to ameliorate such impacts. Roadway adjustments, traffic control devices or mechanisms, and access restrictions may be required to control traffic flow or divert traffic as needed to reduce or eliminate development generated traffic on neighborhood streets.

RESPONSE: The Project is a mix of commercial retail and restaurant uses with a private family office. The Las Olas Boulevard corridor is generally characterized by commercial uses fronting Las Olas Boulevard, and a mix of commercial/residential/parking uses facing the streets behind Las Olas Boulevard (SE 2nd Court to the north and SE 4th Street to the south). The Project's mix of uses are therefore consistent with this pattern of development and surrounding area.

- b) Consideration shall be given to the recommendations of the adopted neighborhood master plan in which the proposed development is to be located, or which it abuts, although such neighborhood master plan shall not be considered to have the force and effect of law. When recommended improvements for the mitigation of impacts to any neighborhood, conflicts with any applicable ULDR provision, then the provisions of the ULDR shall prevail. In order to ensure that a development will be compatible with, and preserve the character and integrity of adjacent neighborhoods, the development shall include improvements or modifications either on-site or within the public rights-of-way to mitigate adverse impacts, such as traffic, noise, odors, shadow, scale, visual nuisances, or other similar adverse effects to adjacent neighborhoods. These improvements or modifications may include, but shall not be limited to, the placement or orientation of buildings and entryways, parking areas, bufferyards, alteration of building mass, and the addition of landscaping, walls, or both, to ameliorate such impacts. Roadway adjustments, traffic control devices or mechanisms, and access restrictions may be required to control traffic flow or divert traffic as needed to reduce or eliminate development generated traffic on neighborhood streets.

RESPONSE: N/A, the surrounding neighborhood does not have an adopted master plan.

- ii. Reserved.
- iii. Reserved.
- iv. All development that is located on land within the CBA zoning districts;

Weston Jewelers - UDP-SR25001
ULDR Narrative

AND

All development that is zoned RMM-25, RMH-25 and RMH-60 east of the Intracoastal Waterway;

AND

All nonresidential development lying east of the Intracoastal Waterway.

[Intentionally omitted]

Respectfully submitted,

Stephanie J. Toothaker, Esq.
