Resolution Providing Notice of Intent to Enter into a Comprehensive Agreement for a Qualifying Project for the Design, Installation, Financing, Operation, and Maintenance of a Citywide Interactive Digital Kiosk Program, Accepting Unsolicited Proposal from IKE Smart City, and Notice of Intent to Accept Other Proposals for the Same Project - (Commission Districts 1, 2, 3 and 4)

Mayor Trantalis commented on his support for the kiosk program but raised concerns about having too many kiosks along roadways like State Road A1A, noting that too many could make the area look cluttered.

In response to Mayor Trantalis' question regarding how the number and placement of kiosks would be determined, City Manager Williams explained that the locations are still under discussion. The City will work with the chosen kiosk vendor, with input from departments, including the Development Services and Public Works. The community will also have the opportunity to provide feedback to protect the character and quality of life in their neighborhoods. City Manager Williams confirmed that staff is recommending a twenty-one (21) day competition period for other proposal submissions.

Commissioner Glassman introduced the Resolution to accept an unsolicited proposal from IKE Smart City, establish a twenty-one (21) day competition period for alternative proposals, and issue a notice of intent to accept additional proposals for the same project.

ADOPTED - 21 day competition period

Quasi-Judicial Resolution - Approving the Vacation of a 10 Feet-Wide by 125 Feet-Long Drainage Easement - Charles West - 80 Isla Bahia Drive - Case No. UDP-EV25001 - (Commission District 4)

Anyone wishing to speak must be sworn in. The Commission will announce any site visits, communications or expert opinions received and make them part of the record.

Each Commission Member disclosed verbal communications, written communications, site visits and expert opinions received.

Mayor Trantalis opened the public hearing.

Mayor Trantalis recognized Robert Lochrie, Esq., Lochrie and Chakas, P.A., on behalf of the applicant. In response to Mayor Trantalis' question, Mr. Lochrie, explained that the request involved vacating an existing ten (10)-foot utility easement, and this Agenda item is an administrative cleanup action rather than a loss of City infrastructure capacity. The required drainage facilities had already been relocated and accommodated through a previously approved utility easement.

There being no one else wishing to speak on this item, Commissioner Sorensen made a motion to close the public hearing and was seconded by Commissioner Glassman. Roll call showed: AYES: Commissioner Sorensen, Vice Mayor Herbst, Commissioner

Glassman, Commissioner Beasley-Pittman, and Mayor Trantalis

PUBLIC HEARINGS

PH-1 [26-0312](#)

Public Hearing - Quasi-Judicial Application for a Waiver of Limitation under ULDR Sec. 47-19.3 (e) for 1409 SW 17 Street ("Property") for Two (2) Finger Piers and Mooring Piles, (i) the Easternmost Finger Pier and Mooring Piles Extending Into the Adjacent Waterway 36.5' +/- From the Platted Upland Property Line and (ii) the Westernmost Finger Pier and Mooring Piles Extending Into the Adjacent Waterway 56.5' +/- feet from the Platted Upland Property Line in excess of the 30% limitation set forth in ULDR Sec. 47-19.3(e) - (Commission District 4)

Anyone wishing to speak must be sworn in. The Commission will announce any site visits, communications or expert opinions received and make them part of the record.

Each Commission Member disclosed verbal communications, written communications, site visits and expert opinions received.

Mayor Trantalis opened the public hearing.

Mayor Trantalis recognized Amber Calderon, 1004 Orange Isle. Ms. Calderon spoke in opposition to this dock waiver (waiver) application.

Mayor Trantalis recognized Ted Inserra, 912 SW 19th Street, River Oaks Civic Association President. Mr. Inserra spoke in opposition to this waiver application.

In response to Commissioner Glassman's question regarding the size and depth of the arborist's review and analysis, City Manager Williams confirmed that the report was substantial and commented on related information.

Mayor Trantalis recognized Roy Rodriguez, 1324 Orange Isle. Mr. Rodriguez spoke in opposition to this waiver application and provided illustrations of the proposed dock to visualize the existing conditions and proposed changes.

A copy of the illustrations are attached to these Meeting Minutes.

Vice Mayor Herbst expressed concerns regarding the use of AI-generated illustrations. Further comment and discussion ensued.

Mayor Trantalis recognized Nicholas Fraser, 1000 River Reach Drive, Marine Advisory Board (MAB) Member. City Attorney McCartney confirmed Mr. Fraser was speaking on behalf of the MAB. Mr. Fraser spoke in opposition to this waiver application.

Mayor Trantalis recognized Julie Jefferies, 1320 Orange Isle. Ms. Jefferies spoke in opposition to this waiver application.

In response to Vice Mayor Herbst's question regarding whether approving this waiver request would create a precedent that other property owners could rely upon for similar waiver requests, City Attorney McCartney explained that approval would not establish a binding precedent. Each future application would still be evaluated independently against existing criteria, including review by the MAB and the Commission. Further comment and discussion ensued.

Mayor Trantalis recognized Ryan Abrams, 1409 SW 17th Street, on behalf of the applicant. Mr. Abrams spoke in support of this waiver application and explained that it centers on a dispute over how dock measurements should be calculated and whether private ownership of submerged land changes the point from which the allowable dock length is measured.

Mr. Abrams discussed his position that the property owner legally owns submerged land extending into the canal and that the measurement for allowable dock length should begin at the submerged property boundary rather than the wet face of the dock or upland property line. Those measurements should be treated similarly to other property rights and setback calculations, which are traditionally measured from legal property boundaries.

Mayor Trantalis discussed the navigational implications of that interpretation and noted that extending measurements from submerged property lines would allow docks and vessels to project much farther into narrow waterways, potentially limiting or eliminating navigable passage. Further comment and discussion ensued.

City Attorney McCartney clarified that ownership of submerged land was not the issue and said that the issue is to determine the legally appropriate point from which waiver measurements should be determined under the Code. Further comment and discussion ensued

regarding approvals from other agencies that do not supersede the Commission's authority to regulate local dock standards and navigational concerns.

Mayor Trantalis stated that the Commission's decision must balance legal property rights with the safety and navigability of shared waterways, while applying the Code in a practical manner. Further comment and discussion ensued regarding concerns that the applicant's interpretation could permit greater encroachment into narrow canals, potentially affecting waterway safety, navigation, and regulation. Mayor Trantalis clarified that the legal standard for the Commission's decision is not whether there is "competent substantial evidence," a broader evidentiary standard used in quasi-judicial matters. Rather, the issue is whether extraordinary circumstances exist that justify granting an exception or approving the request. The Commission must determine whether the facts in the record support a finding of such extraordinary circumstances.

Mr. Abrams discussed his argument that extraordinary circumstances are based on unequal treatment and a change in interpretation, rather than a unique site condition. He said that the City deviated from prior practice and Code by shifting from a property-line measurement to a wet-face measurement, resulting in the inconsistent application of standards for similar properties. Further comment and discussion ensued.

Vice Mayor Herbst said that granting a waiver would significantly obstruct the waterway and questioned whether the existence of similar prior waivers automatically constitutes an extraordinary circumstance. He stated that the applicant's reliance on precedent alone is insufficient and that, while claims of inconsistent treatment may meet the required standard, a more robust, property-specific justification is necessary. Vice Mayor Herbst discussed dock length and measurement calculations, vessel size, and provided examples. Further comment and discussion ensued.

Mayor Trantalis recognized Hudson Gill, 2455 E. Sunrise Boulevard, on behalf of the Marine Advisory Board (MAB). Mr. Gill spoke in opposition to the waiver application, remarked on Code requirements governing dock limitations, reviewed measurement information contained in the application, and provided the MAB's perspective regarding the measurement methodology and the extent of the requested waiver. Mr. Gill explained the MAB's support of a limited waiver rather than full approval. Further comment and discussion ensued.

In response to Mayor Trantalis' questions, Mr. Gill explained that the total width of the canal and boat basin was approximately one hundred thirty-five feet six inches (135' 6"), and that thirty percent (30%) of the waterway width would be approximately forty feet (40'). Mr. Gill clarified that the MAB recommended partial approval of the waiver request to allow both finger piers to be up to thirty-six feet six inches (36' 6"), which would accommodate the requested smaller pier but would reduce the larger proposed pier waiver request from fifty-six feet (56') to thirty-six feet six inches (36' 6"). In response to Mayor Trantalis' question, Mr. Gill said that the MAB concurred with approving waivers up to approximately forty feet (40'), consistent with the Code's thirty percent (30%) waterway-width threshold. Further comment and discussion ensued.

Commissioner Sorensen confirmed his view that he does not see extraordinary circumstances warranting the installation of the finger pier waivers and elaborated on his perspective.

Commissioner Glassman noted that in MAB Meeting Minutes from last year, the extraordinary circumstances supporting the MAB's recommendation had been clearly identified and articulated, but that a review of the more recent MAB Meeting Minutes did not appear to contain similar discussion or findings related to its recommendation to approve thirty-six feet six inches (36' 6") waiver limits for the finger piers. Mr. Gill indicated that there had been no additional discussion at the recent MAB meeting specifically addressing extraordinary circumstances beyond what had already been discussed. Further comment and discussion ensued.

In response to Mayor Trantalis' question regarding the dotted line in a related illustration, Mr. Abrams said it represented approximately the fifty-foot (50') measurement from the seawall and represented the approximate limit of the proposed boat slip area improvements. Mayor Trantalis remarked on the relationship between pier length and vessel size. Mr. Abrams suggested that any concerns regarding vessel size could potentially be addressed through a conditional waiver approval, including restrictions on maximum vessel length. Further comment and discussion ensued.

Vice Mayor Herbst discussed concerns regarding imposing a vessel-length limitation on a future owner of the property. Mr. Abrams commented on the ability to record a restrictive covenant that would run with the property, but noted that implementation would require a Commission finding of extraordinary circumstances for this application. Further comment and discussion ensued regarding the practicality and long-term administration of a conditional deed restriction, including

whether future property owners would remain aware of the ongoing limitations attached to the property.

Mr. Abrams returned to the issue of Code interpretation, asserting that the applicant reasonably relied on the Code as written in developing the application, that the record lacked competent, substantial evidence demonstrating that the proposed dock configuration would adversely affect navigation or neighboring property values, citing nearby existing conditions and vessels. Further comment and discussion ensued.
